For Mike's Sake Janet Dailey

"I don't care why you came back."

Maggie's eyes flashed angrily as she added,

"You're the father of my son--but that's all. I divorced you five years ago because I wanted you out of my life. I don't want you now!"

It was a lie. The divorce hadn't stopped Maggie from loving Wade. Only pride kept her from admitting it.

And pride made her contain her curiosity about Wade's return. He'd said he merely wanted to visit their son, Mike. But Maggie secretly feared there was something more

I borrowed *For Mike's Sake* from the local public library.

Maggie and Wade are divorced and have a ten-year-old son, Mike. He lives in Alaska and she lives in Seattle, Washington and Wade is back for the first time in the four year they have been divorced for a visit. He has a big surprise when he tells Maggie he is planning to get married to another woman within a month after kissing her passionately in her bedroom.

Maggie has red hair and flashing green eyes and a temper, which Wade sparks often. The one thing they have in common is Mike and their concern for him. The humor and conflict is often funny with Mike enjoying parts of it as only a young man can when his parents' tempers flash. This is a great second chance story where Maggie and Wade discover they still love each other before it is too late, but not *For Mike's Sake* but because it is true love.

Ivy H says

The "H" is a deadbeat dad who isn't there in his son's life but just turns up when the novel starts because he's getting married again and has to introduce his ex-wife (the heroine) and his son to his fiancee. The heroine is left to raise her son all alone after the bastard H moves to Alaska when they divorce. The son is a spoilt brat whose mommy over compensates for his lack of a daddy by making him her entitled little prince. The heroine has a chance to finally move on with a nice guy who is also sexy but she ends up succumbing to the dumbo H again. The H has had a very active sex life since the divorce while the heroine has been celibate and bitter. The H's fiancee is a bratty rich girl who acts like she's going to be the model stepmom by trying to tell the heroine how to raise her kid. I wanted to tell her to stfu and mind her own business because the heroine was a bit too polite and tolerant. I got to the halfway point in this novel, kept wanting the H to get knocked down by a truck started skimming through the rest and then decided that my blood pressure would thank me for not reading all the way to the end. NOPE. This was not romantic at all...

Debbie DiFiore says

Okay I am glad he picked his ex-wife over the stepford wife but I really wish I hadn't read this. I hate books where the guy has moved on. Especially with a much younger woman who was just too weird for words. I think she wasn't as nice as she tried to be. I wondered if he was still sleeping with her while he was making out with his ex-wife. So he was cheating either way to me. I just couldn't like this, but I did like the little boy Mike and for that I gave it two stars. I loved it when she poured the peas in the lap of the fiancee. That was

priceless.
