Inferno

Holly Hook

Inferno Holly Hook
Destroyers, Book Two

Ever since becoming leader of the human hurricanes called Tempests, 16-year-old Janelle is overdue for a vacation. But the trip to Hawaii quickly presents its own problems when she meets Kenna, a local sophomore who makes the volcano start rumbling when she's nearby. So when Kenna gets kidnapped, Janelle has to find her before catastrophes can start. Is Janelle up to the task?

From Reader Review Inferno for online ebook

Matt Posner says

This book is an excellent sequel to Tempest. I liked Kenna, who is ...erm... volcanic ... as much as I did Janelle (and Janelle is in this book, too). Inferno has a number of big surprises and some great descriptive writing. The only complaint I have is that it's too short. I could have read three times as much as this in one sitting! Read Tempest first, and then read this book.

Laura says

I enjoyed that the characters were the same from the first book but it didn't hold my attention as the first one did. I found myself just reading it be finished as opposed to wanting to see what happened.

Teri says

I received this book in exchange for an honest review. I love the characters and how Hook once again finds a way to engage us in the story of how a young girl deals with the changes she encounters when her powers emerge. As usual great story and one that draws you in and keeps you there til the last page.

Melanie says

I received this book for an open and honest review.

Janelle and Gary are back in the second book in the Destroyers Series. They are visiting a volcano just to have the ground open underneath a girl named Kenna. Kenna doesn't know it but she is a volcano goddess like her mother, Pele!!! Kenna takes off at the sight of Pele and sets into motion her mother's temper as she kidnaps Gary and gives Janelle just a few days to find her daughter. This book is about how Janelle and her friend go off to find Kenna and instead of finding Kenna, they find so much more!!! Will Janelle find Kenna in time to save Gary??? You will have to read it to find out!!!
