## Marked J.A. Cipriano

Pierce Ambrose. That was the name of the man I'd been sent to kill. The man I'd failed to kill. I have one day left to make good on my contract before the thugs holding my sister and her son start sending me pieces of them.

Pierce Ambrose. A man with a secret I didn't uncover until it was too late to turn back, too late to give up on trying to kill him.

Now, if I want to see my sister and nephew again, I have to try one last time.

My name is Mac Brennan, and this time, I'm playing for keeps.

## Frank Bertino says

### Snarky Action

Mac remembers a little more about his previous life. However, he is still clueless about the big picture. The story action rolls rapidly from one peril to the next as Mac and his beautiful werewolf girlfriend Ricky disintegrate, shoot or slash the really bad guys. Mac must kill Pierce Ambrose by the end of the night or a demon will torture and kill his kidnapped sister and nephew. Fortunately Pierce is dirtbag alpha werewolf who gets off on subordinating beautiful female werewolves to his will. He tries this with Ricky which sets Mac on a murderous rampage. The ending leaves Mac up in the air. I like the smartass humor in the story and Mac trying to find a moral compass. I look forward to the next book.

### Sooo fun!

I love the sarcasm, the fast pace and the variety of characters! Mac Brennen is a good soul in a devil's deal and I freakin love him!

Marked: An Urban Fantasy Novel (The Thrice Cursed Mage Book 2) by J.A. Cipriano Marked: An Urban Fantasy Novel (The Thrice Cursed Mage Book 2) by J.A. Cipriano is an action packed, riveting, magical story that has demons, werewolves, sirens and all other sorts of magical or paranormal creatures. It picks up where Cursed stopped. Mac Brennan, the protagonist with the demon-blackened arm with red tattoos still has only snippets of his previous memory. His goal is to kill Pierce Ambrose who has kidnapped his sister and nephew.

It has a need for editing for typos and homophones. Because of that I gave it four stars. That does not reflect on the quality of the author's writing.

He has just the right amount of cockiness mixed with snark that kept it entertaining. "It only took me less than a minute to make my way out of the neighborhood and onto the main street, which was good because across the street, I could just make out what looked like a swap meet filled with people. I could definitely hide there, assuming, of course, I didn't get shot in the back or hit by a car."

Ricky is the alpha werewolf who he met in Cursed and has agreed to help him find Pierce. She is still a dangerous character as evidenced by this conversation. "'Mac, if I wanted you dead, you'd be dead, and I'd be using your entrails as a jump rope.'" Her words conjured an image in my head I was very keen to dismiss."

### **Fast Paced Badassery**

Book two of Mac Brennan's life as a Cursed is more fun than the first. The story takes place on the second day after our hero wakes up in a dumpster with demon fueled magical abilities. Think supernatural 007.

In this installment Marc Brennan is still trying to kill Pierce Ambrose and he is down to one day before his family will be hurt. Marc agrees to help werewolf alpha Ricky to save her brother from Ambrose because it would help him in his mission to have extra back up. That is until he started having feelings for her. The beginning was a little slow the first few pages but when it picked up it went fairly quick. I laughed out loud at some of the things Ricky said or did. This was a good installment to this series you get taken into their world that has a weird bunny, zombies and lets not forget the gargoyle. Will Marc finally complete his mission and is his feelings for Ricky real or just from her imprinting on him? You'll have to read the book yourself to find out.

Pretty much pure action and motion and snark with little to no character development but it's good popcorn reading. I'm sure I'll read the rest but they aren't exactly rushing to the top of my list. Fun read though.

### **Rollicking fun!**

The second book in the series packs a punch in terms of action. Really starting to like (most) of the characters. I will have to see how things go in the third installment.

## **PJ Lea says**

Mac is a man on a mission, a very strange one.

Equal parts crazy, funny and exciting, I found this a great read. A strange kind of hero, Mac's back story is revealed a little more, to show us how he has managed to get himself into the world of vamps, werewolves and zombies. Not to mention the demons, they're the strangest ones of all!

I would happily recommend this book to everyone I know.

Marked (The Thrice Cursed Mage #2) by J.A. Cipriano is the second book in the series but could be read without reading the first one first. In this book, Mac is sent to kill a deadly killer. This killer also has a werewolf's brother. Mac and the lovely werewolf work together to try to track down this killer and that is where all the fun begins. Lots of action, adventure, fights, touch of romance, humor, great plot, creatures, and great fantasy. Great ride of a read!

I received this book in exchange for a fair review.

This is the second book in the series, and if possible, better than the first one.

The big question here is it true love, or imprinting when you are with a werewolf?

The book is full of action, and enough of a comic relief to make you laugh out loud, but also scary enough to make you jump at noise around you.

I love the new character Dante, he is a mix of so many great things, and is a perfect buddy for Mac, I hope they do more together.

Throw in a knock off Sea World, a vampire winery, some zombies and an ending that makes you cheer, and also make you want the next book to come out soon.

have to say i am enjoying these books...and loving mac a bit more each time

so much action in these books wow..well worth a read if you are into magic, zombies, werewolves and things that go bang in the night

### **Teresa S says**

Marked is the second book in The Thrice Cursed Mage series. Mac Brennan is back, just as full of sarcasm and wisecracks as ever. Fast passed action from start to finish!

---

### **Harini Padmanabhan says**

I really wasn't sure if the author could retain the pace and the energy of the first book in the second. I was glad to find that it was better.

The romantic in me enjoyed the book even more as Ricky is such a nice gutsy character. It's such a pleasure to read her scenes with Mac. The humor is the best part of the book. It's irreverent and cracks you up even in the most gory of scenes. This is the last place I expected a frozen reference, but there it was, making me smile right in the middle of a tense Gore fest.

Great job! Really looking forward to the next book.

#### **Better**

I actually enjoyed this one better than the last. Perhaps I'm getting used to the writing style and Mac. Mac still has a lot of internal dialogue but there is a lot of action and suspense to keep me occupied. I am also enjoying the relationship that Mac has with Ricky. There are still a lot of unanswered questions though.

#### **Another good tale**

Again very much enjoyed look forward to

Next one in series , very well written

Fast paced and full of Twists and turns
