### **Paul Spence says**

Shion discovered that his friend is in horrible danger. Rat battles with himself about what to do about Shion's discovery. Will he help Shion rescue her or will he cut Shion loose and wash his hands of the whole thing? Shion has more friends than he realizes. Will he ask them for help or try to go it alone?

Once the choices are made, can everyone live with the decisions that they made and the things they will have to do? On top of all of that worry, Rat collapses!

This story just keeps getting better! The characters are so complex and their motives and reasoning still aren't clear. I can't wait for each new volume to see what happens next!

The kiss! Oh my goodness, the kiss! And Rat knew immediately what Shion was up to, just from the way Shion kissed him! I love that Rat's seemingly always angry with Shion, but he's so angry because he loves Shion so very, very much and if something happened to Shion, especially on Rat's watch, Rat wouldn't be able to live with himself. Wonderful.

This series just gets better and better. Nezumi and Shion are growing closer and I know what's going to happen since I've watched the anime but I'm still full of anticipation anyway!

### **Jessi says**

This one might be my favorite so far, and it's not just because of the double-page spread halfway through. ❤

lovely, now i can say is getting better

### **Hikaoru says**

I've forgotten a lot that had happened and that kiss floored me, like ooooooh, it's a shounen ai...

Shion's innocence might get them killed some day. But without his kindness, they'd all fall apart sooner than later.

To put it simply, this manga is beautiful. Not only in terms of the art but the story too! I am constantly in awe of it, and the emotions this is making me feel? I don't even know where to start. Seriously, the relationship between Nezumi (Rat - I watched the anime first [stupid I know] but I can't get out of the habit of calling him Nezumi) and Shion is so beautifully complex, and the way it is portrayed feels so very real. I just have so many feelings about this manga, I love it so much!

Also what is with the ending of this volume!? Rude! Cliffhangers are just unfair! I am seriously considering a trip into the city tomorrow to get the next volume, cause even though I know what happens to some extent I just can't stop reading!

Okay, I've read through volume 4, and I'm giving up on this series. It was interesting enough to want to find out what happened, but not enough to keep me reading beyond what we already had checked out from the library. I do not recommend them. I haven't liked the dynamics that have been emerging in volumes 2-4. I'm not saying every character has to be nice, or even nice all the time, but I wasn't happy with one character being abused (hit, talked down to, kicked, etc.), and the other character just taking it and begging for the friendship to continue. I know it's part of the plot and characterization, but it just made me upset that they acted like this and that the one didn't stand up for himself enough. It is not okay to be treated like this. Ever. Yes, it happens in real life. I get it. It just makes me more angry to see it in literature. It's left for the readers to judge as the relationship is show without commentary or bias, but since I won't stand for it in real life, I won't in literature either.

Because I was pre-reading this series for my almost 12 year old who loves manga, I was uncomfortable with the same-sex relationship innuendos that were introduced in volumes 3 and 4. It's not that I'm homophobic or anything. I just don't see it necessary to the plot (unless this is the focus of where the plot is heading, and if so, my son is too young for these themes). I won't be encouraging him to read this series.

All that aside, I did enjoy the references to classical literature, especially Shakespeare. And I enjoyed the art work.

~4/5

So the whole yaoi debate came to a head in this volume, and let me tell you how excited it made me. My reaction may have been a little over the top, but I was excited. I was not expecting it, and then it happened, and I'm pretty happy about it.

I really like Shion. He's sweet, and he's getting tougher, even while still being a sweetheart.

Dogkeeper is still really great. I like her, and want to know more about her. Rat, on the other hand, I do like, but also makes me really wary. Because he's dangerous, and he's violent, and something bad is going to happen with him. I know it, and I'm not looking forward to it. Especially since it's going to involve Shion, and it's going to hurt him, and I'm not going to like it.

The group has a plan to get Safu, and it's underway. Things are moving along steadily, and I'm excited, but also wary, because bad things are coming, I can tell. Including the cliffhanger, which I can tell is going to be bad.

I'm really enjoying this series. I'm excited to read more, and since I know the series is ending soon, and I have quite a few books to catch up on, I look forward to getting a splurge read of it.

With this manga, the story has really come into its own in my opinion. I couldn't put it down till I was finished reading it (why are these so short?).

Shion and Nezumi are growing closer still and I feel like I especially know more about what Nezumi is feeling now. He seems to be fully aware of how deep his feelings for Shion are and he's desperately trying to deny them to himself and others. Of course it's not working and everyone and their hamsters knows about them by now.

I really liked to see some differences from the anime (that might originate in the novels - I wish I knew) like seeing more of what actually happened to Safu or team Shion getting the answers out of the high ranking No. 6 person.

Looking forward to the next one.

I really enjoyed this volume. I find Nezumi very fascinating, he flip flops a lot though. He may be in love with Shion, but he threatens to kill him quite a bit. \*shrugs\*

I loved that scene when Nezumi teaches Shion how to dance.
