## The Hope List Chrissy Anderson

When she was just sixteen, Chrissy Anderson made a life list...

...It's been long forgotten and replaced by one filled with hope. But with all of Chrissy's lies, a lover she's horribly betrayed, and an ex-husband with secrets of his own; it might be too late to rely on her new list for happiness. In fact, it might be too late for Chrissy to ever have the truly, madly, deeply love she has always craved. Follow Chrissy as she hits rock bottom, dusts herself off, and fights harder than ever to finally have her wedding cake and eat it too.

In book THREE of The List Trilogy, Chrissy Anderson is confronted with her worst fears; a fatherless child, the pointless "death" of another friend, and a bump in the road at her beloved business that could destroy all of her hard work. Unlike Chrissy's challenges in the past, there's no longer a choice between love and obligation. It's too late for that. In The Hope List, the only thing that can put Chrissy on the right path is honesty.

Everyone makes mistakes, but all will pause as they follow along on Chrissy Anderson's new journey to ask, "Is she worthy of forgiveness?"

The Hope List picks up where book TWO, The Unexpected List left us hanging on the edge of our seats. The long-awaited conclusion finally reveals the outcome of a married woman's chance encounter with her soul mate that took place many years ago in book ONE of Anderson's romantic saga, The Life List.

## **From Reader Review The Hope List for online ebook**

### **Stacy Lewis says**

I was so excited to finally get the end of Chrissy's trilogy. I said from the very first book that I too was in a lot of the situations that Chrissy found herself in. I'm just thrilled that she got her HEA, and without any spoilers I was VERY excited who she got to spend that HEA with. love ya Chrissy!!

---

### **Jennifer says**

The Hope List did not disappoint! I have loved Chrissy's story from page one of The Life List. I've enjoyed watching Chrissy grow throughout the years.... Her story has made me laugh out loud, cringe and cry a few tears (out of happiness and sorrow). If your looking for a weekend read this is the perfect book... Just know it will draw you in and you won't want to put it down.

---

### **Jena says**

**Love!!**

**Love!!**

I absolutely loved this trilogy! I have laughed and cried throughout the trilogy but have to say it was worth it. It is not often you find an author who writes real life issues that other can relate to. A must read!

---

### **Kirsty says**

Awesome ending to an awesome Trilogy, this is one series that will stay with you long after you have finished reading.

---

### **Mitzi says**

you absolutely cannot go wrong with this series. wonderfully developed and fully rounded characters, real life and love issues, and you will see a little of yourself in one of her characters, guaranteed! Chrissy does not skimp on details and you will be so satisfied with this read! Definitely one of those books that you are sad to see end. Don't miss out on this series!

---

### **Ashley says**

The emotional roller coaster Chrissy takes you on leaves you breathless! I absolutely loved the 3rd installment of the trilogy!

---

### **Becky says**

Waited forever to the conclusion of Chrissy's story and it was worth the wait. I read several books a week and they all start to run together honestly. I will never ever forget Chrissy's story and I want to be her best friend! I refuse to provide any details about this story but I can guarantee that every single woman who reads it will relate in one way or another. Go click this bitch ladies... You won't be sorry.

### **Danni says**

I'm not even sure if I can put into words how happy I was to see this book listed live on Amazon. I first came across this series as a suggestion from a book friend. I threw caution to the wind and said why not and let me tell you this has been one of my favorite series by far. After reading *The Unexpected List* and having a serious ugly cry I couldn't wait to get my hands on *The Hope List* I just had to know how it all ended what felt like years on top of years I finally got my hands on it and let me tell you I was just fabulous.

*The Hope List* starts off with Chrissy and her family in 2013 getting ready for her anniversary and you know without a doubt that she is beyond happy but you still don't know which man was the one to win her heart. As Chrissy is reflecting on how she could have lost it all that is when we as a reader to get read what all took place in 2003 and it picks up right where *Unexpected List* leaves off. I was on the edge of my seat at times because I just had to know how it all was going to go down. And that damn Chrissy made me want to just shake her and tell her shut up and listen for once. But sadly she couldn't hear me there for she kept frustrating me. There are no loose ends left with *The Hope List* I didn't ugly cry like I did in *Unexpected List* (and I ugly cried) but I did feel sad when it came down to Kurt. The moments that Chrissy and Kurt share became my favorite parts to read. Now I'm not saying what she and Leo share or shared isn't beautiful it just different with Kurt. This was someone that she once shared a life with and they had been through so much. It was just beyond wonderful to get read their moments together.

This is a series that I would without a doubt recommend. There is not one person in this series that doesn't have a flaw and I for one love to read about the characters that have flaws. I'm definitely looking forward to reading more from Chrissy Anderson. And I couldn't help but wonder once I got to the last chapter would history repeat itself.

### **Terry says**

For once you discover your worth you will never settle for less than you deserve. Chrissy just released this amazing 3rd book in her series and I was one of many who instantly picked it up to quickly devour. *The Hope List* is the perfect compliment to book one and book two. It is the story of all the things that can go wrong before they begin to go right. It's not always a pretty story, but it's raw and it's real which makes it worth so much more than I can describe.

In the Hope List, Chrissy bounces between the very late stages of her pregnancy and to 10 years later and how everything comes full circle in her life. As always she is brutally honest in her take on life and all of those that she allows into it and how she creates her second family (extended included).

What I think I love most about all three of these books is the amazing growth you see from the very beginning to the end, it is so very easy to relate and honestly helps me create a few of my own ah-ha moments.

I love love loved this book! I look forward to see what Chrissy Anderson creates next!

---

### **Jessica Ashe says**

This book & the whole series for that matter is PERFECTION. Chrissy is hilariously funny, but in the same manner she is serious and very likable as her life takes her on paths that she never thought she would be one.

You will laugh and the next moment you will be crying your eyes out. Chrissy gave me everything I wanted and more, now I just have to go mourn that this series is over and anxiously await her next release.

THIS IS A MUST READ!!!!

---

### **Linda Wimer says**

I waited all most a year for it,( read the first two books last May) and it was worth every second. Amazing end to a beautiful trilogy. I laughed and cried throughout this series. If I could give this trilogy more than 5 stars I would. I'm so sad that this is the last book of the List Trilogy. It is a must read trilogy. One of my top five favorites out there.

---

### **Janelle Musick says**

I waited months for it, and it was worth every second. I do wish I hadn't started it late at night, and that I hadn't cried quite so hard, because, well, it's embarrassing. Thank you for sharing your story.

---

### **Bobbie Jo says**

Amazing end to a beautiful trilogy. One of my favorite series of all times.. Such and inspiring love story and lots of life lessons..

---

### **Lulu's Reviews says**

This conclusion to Chrissy's story was beautiful and funny, maybe somewhat unexpected and then again

somewhat hopefully expected too. I really loved this trilogy. It was more real than most stories out there (maybe because it was part true story). Throughout the trilogy, I was yelling at Chrissy to stop Fucking things up, but know that I've made similar mistakes through my path.

---

### **Dana says**

I LOVED this series!!! So real and refreshing and relatable! Chrissy's story is emotional and heartbreaking at times but she figures it all out in the end with some reflection and clarity. I can't recommend this series enough.
