This book also was read by me after watching the film based on this.

The inner point of the book is very unique and it was narrated very smartly. The story progresses very interestingly and the twists in the middle will give a thrill. It was one of its kind book.

This is one of the gear books

Original book is Abhilasha, this book has become famous movie also.  
Story is similar to The Man Who Dared 1946 movie.

However, the plot in the book is awesome, I enjoyed the book, completed in one day!..

I recalled old(1973) Kannada movie Bidugade.

A must read book for those who likes thrills.
