Baby It's Cold Madison Faye

I really can't stay...

He's the handsome, older man next door. The one who works with my father; the one with the wolfish grin that's gotten me warm in places it shouldn't for longer than it should have.

And I shouldn't be here, not like this, not alone with him, and not on Christmas Eve.

I ought to say no.

But it's so cold outside, and so warm in here.

He's almost twice my age, but I can't say no to him. Not with that look in his eyes; that look that makes me want to try new things. Things like maybe giving him the sort of gift you can only give a man once...

And it *really* is cold out there.

Well, maybe just one more drink...

I just discovered this Author's books. I've enjoyed the ones I've read so far. This one, however, fell way short. This guy just seemed creepy to me and a few of his actions didn't set right with me. I won't give away any spoilers. I'm just glad I didn't pay much for this one.

I love Madison books.. but uhh something about this book had me cringe.. the age didn't bug me.. it was that he kept calling her kid and switched it between pet names and back to kid.. another was well he kept winking? how many times do you have to wink at the girl.. one point the name of the girl named.. (incase you didn't catch it)

Too short to enjoy.

Rachel is home from school for the Christmas break and her mom wants her to take some cookies to the bachelor friend of theirs down the street. She's always had a crush on Jon so she goes to drop off the cookies and has a drink with him. He acts a little weird and tries to get her to stay. Rachel goes home but ends up going back later and Jon has a Christmas present for her and then Rachel gives him a present in return. I liked this story it was just too short and Jon was a little bit creepy. Otherwise good read.

Raine says

Way too short and I didn't feel to vested in the characters. It doesn't seem like they are getting to the the love part and it is just all sex for the both of them. No romance at all.

Glenda says

Just a quick stop over at the neighbor's to drop off some cookies...easy peasy...right?
Rachel has had a crush on Jon since she started noticing boys, so naturally her mother doesn't have to twist

her arm to get her to go out in the snow on Christmas Eve to deliver cookies. She might even stay for a drink...or two.

Cute story with a couple of great characters.

...Just had time for a quickie between a Hildreth and a Shen! (Bane, here I come!)

This one wasn't the best one Faye's - two stars for me :)

Oh my!

This was a good book! I wish this book has been longer ;) but seriously, when do I not wish that on a hot book like this? I am new to this author but oh my will I be reading more!

Petra says

My first one by this author and I did like the story and hotness but this Jon.... did he have something in his eye that he wanted to get out by winking all the time? And he made quite a few strong hot cocoa's for Rachel....

chris says

Short story that gets right to the nitty gritty. Rachel has been infatuated with Jon for many years until one Christmas Eve they exchange gifts. Not a whole lot of sweet love, but some seriously hot cocoa. Worth the read if you can get past the edits needed and the quick burn. No slow lane in this book.

Beth says

I voluntarily reviewed an Advance Reader Copy of this book.

She just started her favorite Christmas movie when her mom asks her to take a plate of goodies to her dad's best friends place. Chelsea is a bit nervous to do this, seeing as how she has crushed on him basically all her life. With no choice, the movie is turned off and Chelsea finds herself at Jon's door.

He is her father's best friend, but that doesn't stop him from noticing how grown up and beautiful Chelsea has become. Jon has been keeping an eye on Chelsea, and he definitely likes what he sees. He is surprised when

she is outside his door, with a plate of treats for him.

He offers her some hot chocolate, but he has a surprise for her as well...spiked! Chelsea is very inexperienced, as in she has had no experience. Jon notices that she is a bit timid and shy, but still he tries. She really can't stay, but it is cold outside. She goes home, against her better judgment.

She goes back to Jon's a short while later and he offers her more spiked hot chocolate. This time Chelsea doesn't want to run, and doesn't. Jon and Chelsea are burning up for one another and now they are on fire. There is a spark that stays ignited, and a promise of much much more to come for these two.

This book was okay. There was nothing about it that really grabbed me, but I didn't dislike it either. It was short and forgettable. There were a few typos which I normally don't complain about, but for a story this short, you would expect there to be none. There is even a point where the male character calls the female character by the wrong name which is just flat out annoying. He called her Chelsea when her name is Rachel. It only happened once but I just don't get how you don't notice that when you are editing your book.

Chantal ♥? says

No romance at all just straight up sex without any emotional involvement and the hero was a total jerk! Not my cup.

C J says

A short steamy holiday sexual encounter... almost too brief really no real story...
