## **Bad Boss: An Office Romance: The Office Romance Series Brooke Page**

Cocky, arrogant, and dropped dead gorgeous: That described my boss, Mr. Craft, to a T. His thick hair, cold blue eyes and strong jaw held power in a conference meeting, causing women to melt in his presence. I've wanted to confront him on his stubborn attitude and critical demands for employees. I'd bitten my tongue in many scenarios and held in my true feelings over a dozen times. Keeping the peace was necessary until I had enough experience under my belt to move onto bigger and better things.

The only problem was; Craft Marketing was the bigger and better, and the longer I stuck it out with him, meant more opportunities would arise.

I'd been the only female intern to land a job directly under him, and was also the only one who hadn't slept with him. I knew he was promiscuous with the tall and leggy blondes that breezed into his office looking immaculate, then scurried back out with mussed hair, flushed cheeks, and unbuttoned blouses.

I'd ignore the magnetic pull of chemistry and curiosity between us.

Unless it came to my advantage.

This book was so much fun to read and I found myself in stitches over and over again. Mackenzie and Kelsey were so great together. Even tho he was arrogant and cocky, she did not let him run all over her. Their banter back and forth was hilarious. She was MacKenzie's personal intern and the only one who hadn't slept with him. She knew what she wanted and how to get it. A great read, well written with a cute storyline and enjoyable characters. I received an advance reader copy and voluntarily chose to review this book

Me gustó, es divertida y hot ... muy hot, pero también es tierna, tiene escenas donde la ternura te atrapa aunque no quieras. El cambia por ella y acepta al final, que vale la pena jugársela por alguien y ella igual por él.

"Ella me había perdonado, y yo iba a hacer todo lo que estuviera a mí alcance para mantenerla toda para mí"

#### **Better than the beginning lead me to believe**

It should have started from his perspective because she believes him to be a slut who is abusive to the people in the office. It starts out as revenge smut with the reader having a strong dislike of both characters the narrator for her weakness and the man child she allows to dominate her. Then it switches to his perspective and turns to the beginnings of a decent romance only to be split in half at the climax. And the obstacle of the plot is her rooted belief that he's a man child who is toying with her. While in reality he's a type-A who wants to build and has built his entire world around a woman who doesn't think he's good enough for her. The book stopped when he was at the point of settling for being her dirty little secret rather than the happily ever after he was wanting.

I love EVERYTHING that author Brooke Page writes!! This book is NO exception! I find her style of writing unique, her plots fun and flirty and her characters swoon worthy! This book is about an assistant who thinks they should be in a higher position, especially since she is the only female intern that was actually hired for a position in the company....Mr. Craft (her boss) has some ideas for Kelsey...but the ideas aren't exactly for a marketing position...and it is all a bit more than Kelsey bargained for (although she isn't complaining)!

This book is a short one but it packs a huge punch - the reader wants more and will experience a book

hangover, even though the story is a shorter one. The one thing that the reader will do is immediately fall in love with the characters and will want to re-read it once they finish the first read through so that they can go back and see what they missed!

Don't miss out on this amazing read or author! I love her books and can't wait for the next book by her!

Holy Cannoli was this book HOT!! Kelsey was the administrative assistant to Mackenzie and seemed to not be able to get her boss to crack a smile in the two years she worked for him. While they worked well together there also didn't seem to be anything more to them than mutual respect. Kelsey had some underlying sparks for Mack but at the same time thought he was rude and full of himself. All of this changed during an afternoon meeting when they lose control and sparks fly like you would never believe!

This book had me wanting more in all the right ways!!

I voluntarily read an advanced copy for an honest review.

Kelsey Neeley was getting her degree in Marketing and was lucky enough to get an internship at the most widely known Marketing firm in town - Craft Marketing. The only thing better would be is she was hired after she finished her internship and graduated. And she did. Kelsey was hired by Mr Craft, himself, as his Assistant.

Mr. Craft was well known in the company as a jerk and Kelsey soon realized this. He was also gorgeous and loved the female interns. He knew how smart and focused Kelsey was. It didn't hurt that she was also beautiful.

The plot was well written and just long enough to hold my attention. The characters were well described. I enjoyed the book.

the beginning and the end are almost exactly the same (literally) to Beautiful Bastard. So I did not like it. Maybe if I had read this book before I would have liked it more.

Wow. Um, ok, just - wow. And not in a good way.

This book was a sad little train wreck.

Hoo boy, I really dislike giving bad reviews, but there were soooo many things wrong here, I feel I must save you from this book.

First, all the interns seem to be 'tall, thin, and beautiful', which makes me assume that the h is not. And yet, look at the cover image. Hmm.

Next, we're treated to this little gem: 'transferring a version onto my pink USB port'. Really? You transferred a PowerPoint onto a USB PORT? The port? You mean, the part of the computer that insert the USB drive INTO? You carry a whole PORT around with you?

Then, there's this one: 'I'm shocked how much of a conceded asshole you are'. Ok, not QUITE the word I think you're looking for.

The very idea of a man screwing interns, and then his receptionist in today's business world is so wildly OTT and unbelievable, I just couldn't take this book seriously.

Um, no. Just no.

I like stories like this. The bantering is quite refreshing.  
Is there going to be a book two?

Mr Craft was nasty, rude, arrogant man who ran a multi million dollar company. The only problem Kelsey had with him was he was HOT! She can handle his attitude and him barking orders at people but, her attraction to him was off the charts.

My Craft has wanted Kelsey for the last 2 years but knew she was amazing at her job and refused to give in to his desire to have her. One day during a meeting they had, she was bent over a table and he couldn't fight it anymore. He had to touch her. Once he did, she gave in and then cursed him out. The nasty mouth on her turned him on even more.

When she hears him talking "locker room talk" with his buddies, she decides she can no longer work for him since he seems to be just using her and being sweet to her so she wouldn't file a complaint against him.

The only problem with that is she really cares for him and he is falling for her too. They both end up miserable. Will Kelsey be able to forgive him and hear him explain everything or will she keep her distance and find a new job?

This is the first book I've read by this author and I thought it was really good and it had just the right amount of heat.

I enjoyed the snarky banter between Kelsey and Mr. Craft. Kelsey pushed back and held her ground with Mr. Craft and his impossible expectations and bad attitude. When they hooked up in his office it was hot but her exit and conversation in the bathroom was a bit immature.

I really loved the connection they were forming at fantasy night and was really getting into their developing relationship and then my heart broke for her after the conversation she overheard.

Mr. Craft has met his match with Kelsey in more ways than one. She challenges him and makes him want things he's never considered before. She did what no woman has done before, she found the way to his heart. Now, though, can he get her to speak to him again, or has he lost her for good?

The one thing that did irritated the hell out of me was the way Mindy spoke to Mr. Craft – in no way shape or form would that EVER be allowed in a company. I don't care if she didn't report directly to Mr. Craft, but was his partner's secretary, but hello, Mr. Craft is one of the partners! You do NOT speak to anyone in upper management in ANY company the way she spoke to Mr. Craft, talk about insubordination at its finest.

All in all, a pretty good, quick, sexy, and steamy book.

Bad boss is about Mr. Craft and Kelsey. Mr. Craft runs a mutli million-dollar company. Kelsey is getting her degree in Marketing and gets hired to be Mr. Craft's assistant. This, obviously, isn't where she wants to be career-wise, however, she figures that she can get some good knowledge and history before moving on to bigger and better things. Slight hiccup in her plan though. If she wants to stay where she is living wise, Craft Marketing was the bigger and better fish in the Marketing sea.

Since working for him, she begins to realize that he is a rude, nasty and arrogant man. The company jerk and shark who likes to eat interns (for breakfast, lunch, dinner and in between snack?) The only thing he wasn't expecting was Kelsey. She was like no other girl/assistant/intern before her.

Kelsey has been working for Mr. Kraft for a few years now and he has wanted her this whole time, but Kelsey thought better of herself. She didn't want to become one of the many women to enter/exit his office, despite him being H-O-T!

I absolutely LOVED their interaction. She was feisty and sarcastic, and this showed through on their banter. Excellent! Overall, this book was HOT! It was a rather quick and fun read with a HFN ending. I thoroughly enjoyed it and can't wait to read more from Brooke Page!! ??

#### **Loved it but not enough story ended way too soon ...**

Not enough story ,we had to very interesting characters here with Kelsey and Mr.Craft/Mack a guy could see after a while had more layers and character then we are given a chance to see....

A man who wasn't alway wealthy ,who I feel knows what it's like to go with out and it's a part of what shaped who he is,he has friends and maybe a family ,same with Kelsey...

Two ppl who are learning to trust and have a great chemistry together.... Kelsey honestly reminds me a bit of myself , she has a strong and can be rather dominate and demanding at times at the same time, with the right man she loves a bit of that dominate attitude and power thrown back at her and being wrapped in it ...

Only true problem to me was the lack of development here, there was soo much that could have and should have been explored here..

The start to relationship should have lasted weeks,months even instead looking backs they go from 0 to 60 in one day just about , one day after supposedly lustng after Kelsey for 2 years and probably falling in love with her in his own way,Mr.Craft finally makes his move get together with her twice in one day , then later that night a few times more or less and messes it all up just when things are really getting real with her,has a miserable weekend , goes crawling to her that Monday night to make things right.... continues to be miserable w/our her and supposedly maybe 'weeks' have passed with out her ????

Then they make up and it's over ...

and we get what can only be called a "Happy for now ending"...

I love the characters and gave them 4 stars but they didn't really get a chance to tell us all they needed to say..

I loved them but they were cheated and by extension soo are we... They had more to say, I wish they'd had the chance..

Even soo fun story give it a try..

Thank you Ms. Page

Wow, I fell in love with Mr. Craft from the first time he opens his mouth & says "Glad to see we are all working hard"! He is arrogant, egotistical & plain unfriendly. Kelsey(Ms. Neely) is amazing, awesome & Mr. Crafts assistant. She is determined, smart as a whip and not a pushover. Their worlds collide in a split second, their sexual chemistry fogging out every sensible thought in their heads. Mackenzie Craft is different around her, he shows a softer side, but is it just that, a show? I so enjoyed this book and read it in one sitting! I received this book in return for an honest review and that is just what you've got here! I can't wait to read more of what Brooke has to offer!

After reading a couple of so-so reviews on "Bad Boss" I wasn't quite sure what to expect. However, I was very pleasantly surprised after reading it but just wished it had been longer.

Like most women I enjoy a good romantic read and “Bad Boss” has all of the story elements I enjoy: romantic tension, opposing characters with differing viewpoints and hot sex scenes. Kelsey had been working under the demanding but sexy Mr. Craft. She works hard but all she seems to get is criticism. After two years she had more than proven she is ready for the internship program but she is overlooked when blond bimbos are continually hired. They don’t seem to last long after their sexual indiscretions but that doesn’t make Kelsey feel any better.

While presenting a PowerPoint presentation to Mr. Craft he does the unthinkable, he has his way with her on the desk. Now things have just gotten a whole lot more complicated for both of them.

I really enjoyed the tension between these two characters. However I also wanted more background and characterization. When you are reading a romantic read you never know what you will get. There is more to this story in a sequel and I’m hoping to learn more. One thing for sure I will definitely keep my eye open for other reads by this author.
