Look back, but don't come back.

Eliscity can't remember her life before the Clinic. Before she became Blooded and Born. Before her lineage was awakened and she became more than human. Escaping the Clinic wasn't enough to rid her of this life they gave her. The life she doesn't want. As allies are found and families forged in the midst of a Realm seeking her death, Eliscity realizes that though the Bloods War ended over three centuries ago, the fighting didn't end with it. Now it's up to Eliscity to decide whether it's a battle she wants to be a part of. What will it mean for her? Can she find the life she doesn't remember? And will it be worth fighting for?

"Not only are we a secret the Clinic wants kept, we're a secret the Clinic needs kept. The Realms not ready for us."

As the Gentle Reigness, Acanthea stands to inherit the Realm. It's a Realm of Blood highs, Extinction Laws and secrets - secrets Acanthea is desperate to dig up, even if it means running away. What does her father have to do with the children rumored to be missing? Can the strange family she meets truly be what they say? Will the Realm survive uncovering the truth? As Acanthea gets closer to the truth she has to wonder; are some secrets better off buried?

A really impressive first novel that is well crafted, well-written with an original plot. I was captivated right from the start and was thoroughly engaged with the story and the character of Eliscity. Although the premise is quite dark there is some great humour and one-liners from the characters. It is refreshing to see some strong female characters dominating the story with the feisty Eliscity and the equally feisty but pampered Acanthea.

The world that has been created is intriguing and detailed. I am hoping there are more to come.

Really good! It took longer to finish than the average book does, but it was worth it. It started off a little slow, but it got better and better the further I read. The alternating point of view (between Eliscity and Acanthea) was especially effective because we got to see characteristics of both girls that we wouldn't have seen otherwise. Possibly the best part is that this book wasn't all predictable! I'd definitely recommend it for fantasy lovers.

Note: I received this book for free through Goodreads Giveaways.

This book is well written, not sure I will read the sequels. It is a dark read.
