## His to Take Sam Crescent

Daniel Solano has to take a wife to make sure a Mafia war doesn't start. He must marry a Valenti daughter, but the oldest doesn't appeal to him, even if he will do what needs to be done to keep the peace. But then he meets the youngest daughter, Natalie Valenti.

Natalie has always done whatever she could to stay out of the Mafia life, including avoiding her family most of the time. Still, she's home for Thanksgiving—and meets Daniel.

Daniel makes it clear he will marry a Valenti—and it will be Natalie. Seeing no other choice, her father orders her to marry Daniel. She tries to fight it, to no avail. She becomes Daniel's wife, and in doing so, is forced into the Mafia life she tried so hard to escape.

Daniel vows to take care of Natalie, so when someone places a hit on her, everything comes to a head. Daniel won't allow anything to happen to his wife, and whoever tries will answer to him. But will Natalie ever accept this life? Can Daniel ever give her what she craves ... love?

### Jennifer Finn says

Daniel Solano is 30 years old and his father, Frank thinks it's time he settled down and got married. His father is the head of a crime syndicate and he wants Daniel to marry Alfie Valenti's daughter, Louisa. Alfie and his people are rivals and a marriage between the two families will mean a peace treaty. Daniel's two best friends/guards, Vincent and Ronnie also happen to be his father's illegitimate sons. Daniel loves his two brothers and would take a bullet for either one of them and they feel the same about him. Daniel and his parents are going to the Valenti's for Thanksgiving dinner and so he can sign the wedding contract. Daniel has heard all about Louisa and how she likes to spend money as fast as she gets it. When he sees her canoodling with one of her father's men he isn't too happy. He's even more annoyed when he actually spends time with her and sees what a horrible woman she really is. He's even more surprised when he meets Natalie, the youngest Valenti daughter who seems to be hated by her whole family except her father. Natalie is used to her family treating her like shit, especially her mom who tried to kill her twice when she was just a baby. After the second attempt on her life her father gave her to Mary, their cook to raise so she would be safe. She calls Mary mommy and loves her as if she were her birth mother. Her siblings hate her because their father likes her best but she wants nothing to do with the "family business". She's been working her ass off since she was 16 and not taking money from her dad. She promised Mary she would come for Thanksgiving otherwise she avoids her family home at all costs. Daniel is absolutely furious when he sees how Natalie is treated by her family especially because he thinks she's such a nice person. Daniel tells Alfie he will not marry Louisa and that he will only agree to marry Natalie. Alfie promised Natalie she would never be used in this way that was why she became independent and stopped taking money from him. When her brother holds a gun to Mary's head she has no other choice than to sign the contract and marry Daniel. Her sister has told her horror stories of losing your virginity and how men are when it comes to consummating the wedding. She is shocked when Daniel tells her they will have sex only when both of them agree to it but he does insist they at least sleep in the same bed. Daniel was a badass when he needed to be but he was also so sweet and patient with Natalie.

Although "His to Take" by Sam Crescent was not all blood and gore or even the dark side of the Mafia lifestyle, I enjoyed Daniel and Natalie's story. What Natalie went through with her cruel family excluding her father was heartbreaking. Daniel, the next in line to be the Mafia Don of the Solano family was perfect for Natalie, the sweet daughter who was able to leave the Mafia until Daniel chose her over the flirty sister, Louisa.

I'm hoping that Daniel's brothers, Ronnie and Vincent gets their own stories told too. That in itself would be promising since they were an intricate part of Daniel's life.

Sam Crescent's mafia romances are always a one click for me. She writes them very well developed characters and plots.

Daniel and Natalie have to get married to prevent a mafia style war, even though Natalie's father had promised her to keep her out of the family lifestyle. Daniel falls for her immediately and sets about seducing his bride. Natalie thinks he will be like other mafia men, abusive and a cheater so she is surprised to realize Daniel isn't like that. Danger comes in the form of a hit being placed on her head so Daniel, his family and Natalie's father work to figure out who ordered the hit! I just loved this book. It would be nice to see if Daniels' half brothers and bodyguards get their own stories in the future.

This was great mafia romance. I couldn't stop reading. I adore Daniel. That mobster was just... The way he

was with Natalie... Perfection. Natalie was one lucky girl. She got a husband who's ready to give her stars and the moon.

I liked Daniels friends-brothers, Ronnie and Vincent. I would love to read theirs stories.

Okay so!

I was really excited for this story!

Daniel is all set to the marry the eldest Valenti daughter but when he goes to meet her uhh yeah that's not happening. And then Natalie steps in and he's hell bent on having her and in doing so he has brought her back into the life she worked so hard to get out of.

Now they are married but the troubles don't just end there. There's a lot going on and a lot happening. I enjoyed this! My favorite trope and I was like yaaaaas morreeee!

Great mafia romance. I love a good arranged marriage story. Both hero and heroine are likable loving and faithful! Love scenes are hot. Epilogue with their baby girl melted my heart! I recommend.

### **GimmeAllTheWerdssss says**

Completely safe. Heroine is a Virgin (of course) and the only mention of the Heros past is that “he played”. No OW present or interference. Considering it’s a mafia style there was only one violent scene which was extremely light.

I’d like to read about Daniels brothers.

Short and sweet. Loved how attached he became of her so quickly. I loved most of the characters. The h's mother, brothers and sister were terrible. Great story. There was a paragraph where they found out the h's mom hired a hit man to rape and murder her. Not descriptive, but it was mentioned. Never even came close to happening. Great read.
