## **Knights Out** T.A. Webb

Marcus Prater has his life in order. He's got the man he loves, Benjamin Danvers, living and working with him. He's healed from the bullet that almost stopped his heart. And he's got his best friends back in his life.

What more could he ask for?

When Marcus is asked to investigate the disappearance of a young man close to Benjamin, that prompts him to begin the search for his brother too. What he finds changes everything.

Warning: Marcus and Benjamin are back, and hotter for each other than ever before. There's sex, laughs and a few tears. But not necessarily answers. And no cliffhanger. Really. I promise...

### **Sheri says**

Here we go....

another exciting, hold-onto-your-seat ride with Marcus and Benjamin.

Errr sorry, Ben. Whoops, only Marcus is allowed to call Ben, Benjamin.

For me, this was waaaayyy better than the last.

And I gotta apologize; sorry Tom.

You see I was disappointed with the last round, for several reasons, but one was for mistakes that I thought were made in the 3rd we not mistakes after all. I was merely confused. I was lost and apparently I missed things. I don't know how, for some parts I read over and over again...and yet still I was confused.

*but*

I am back on my game, and more importantly, I'm back up to speed with Marcus and Ben.

Never a dull moment with these two...

They are stronger than ever...

They are funnier than ever...

and they are so very much in love.

And I can't wait to see what's thrown at them next!

"Every heart needs breaking sometimes. It just means you've let it get too hard"

Wow I wasn't expecting this one to be THAT good to be honest. I was expecting a few happy moments between Marcus & Ben and that's all but this book was way more, it was something else.

This is the premise (from the blurb):

**Marcus Prater has his life in order. He's got the man he loves, Benjamin Danvers, living and working with him. He's healed from the bullet that almost stopped his heart. And he's got his best friends back in his life.**

**What more could he ask for?**

**When Marcus is asked to investigate the disappearance of a young man close to Benjamin, that**

**prompts him to begin the search for his brother too. What he finds changes everything.**

So yeah, Marcus and his Benjamin are living together and they are happy. They apparently have it all but you can't replace certain people in your life, can you?

When Marcus starts searching for Frankie, his brother, everything changes. I can't say anything else about this but let me tell you this is what I enjoyed the most in this story.

Not to mention Wick! I love that man, BIG TIME! And I wish we could get to know him better... I have a good feeling for him. I am so freaking excited!!! Hope I'm right!

In this book Marcus will prove again what an excellent person he is, he'll prove again his love for Benjamin and my lovely Ben is all grown up, I loved his smart ass comments to Wick, love that guy!

Once again Tom did a great job. I always say I'd be more than happy to read WHATEVER he writes, even his grocery list and he proved me right once again with this one. He'll get you emotional, horny as hell and excited in a few pages. Please read this book and anything from this author.

Hope you all enjoy Marcus & Benjamin journey.

**Tom, I am begging you for a spin off PLEASE!!! Ladies, when you read the book you'll know what I'm talking about...**

## **Grammy 1 says**

This series, Pulp Friction, was envisioned as a three story arc for each of the four authors. Lee Brazil, Havan Fellows, Laura Harner and Tom Webb would combine there characters throughout each of the stories, which was certainly a new idea. Since it has been so well received, the authors have decided to continue this every 2 week release theme, but made a significant change in the fourth round that might confuse the reader.

Since the fourth story surpasses the original arc, I feel the need to mention, you should now read them in order, as they each release to keep up with the storyline. Each author still keeps true to their own ensemble, adding even more new characters. In doing this, the authors have made it more of a continuing story. It is almost like playing that childhood game building on one story and growing it.

Tom Webb still has his Marcus Prater, the ex-police officer who was devastated by losing his lover to crime. He became the dark knight patrolling the neighborhood, meeting Benjamin, a rent boy, being pulled into a car by a would be attacker. Through the storyline we learned Marcus and the other authors characters Wick, Zach, and Chance were all in the police academy together and have remained family through these years. Their partners and lovers are intertwined and are there for each other as families should.

Story four gives us another short novelette of Marcus and Benjamin teaming up in the P.I. business to try and find a missing person, and finally Marcus realizes he is one himself. Marcus misses the one member of his family that was cut from his life when his parents found out he was gay; his baby brother Frankie. While working with Ben to help find Jeremiah's friend Nick, Marcus finally tells his lover this part of his past. This is where the role reversal changes for the couple as Ben becomes strong to help Marcus.

The story is exciting, and fast paced, and heart wrenching, and everything you could want. Will Frank want to see him, where is Frank after being overseas in the service? What does he think happened to Marcus, his hero? Here Tom Webb is at his best, filling in the story and keeping the pace. He is the master of love, strength and hopefully forgiveness.

These four authors deserve a standing ovation for this wonderful idea. Hat's off to you Tom for belonging to this wonderful group. I cannot wait for more!!!

**Reading a book from T.A. Webb is like my comfort blanket, before you even open one of his books you know already it will be something that will touch your heart, immediately feeling wrapped up in warmth and love so effortlessly emanated through his writing. I love this man and the stories he shares with us... and DAMN IT... HE MAKES ME CRY EVERY TIME!!!**

**"Your happy ass isn't going anywhere without me. You are mine remember? And fuck it all to hell I'm yours"**

**"Mine" he agreed**

So, I cant tell you how excited I was to discover Tom was bringing us another instalment in the City Knight series and... WooHoo! I got to have a little visit with my boys, growly, sexy and OH. SO. VERY. HOT Marcus and my cute sweet and endearing Benjamin, who has his very own brand of sexiness... I LOVE THEM!

Four months after the shooting, it made me happy to see how they have smoothly slipped into a loving, comfortable relationship, after all the emotional turmoil they had endured what is immediately obvious is the love and passion that just emanates from them, as in the sizzling puddle of lust kind! ...there is sense of comfort and unquestioning support and with their easy banter and camaraderie not only between them but also the other boys from the Pulp Friction series, well... I think I had the BIGGEST grin on my face!

This book is yet another emotional journey for both Marcus and Benjamin, but this time its dealing with inner demons rather than those on the outside, and in Marcus we see his vulnerabilities, his soul bared, confronting a part of his life that he had pushed into the darkest recesses of his mind, fearing the hurt, pain and rejection should he even take a peek. Having crawled out of the depressive darkness that had for so long overwhelmed him before Benjamin... and then almost losing his life, it makes him realise that there is a big

part of him still missing and despite his nasty, evil, obnoxious parents... let me at them and I will give them a piece of my mind! ...he is at last ready to reach out to his brother Francis. Growing up they were as close as two brothers could possibly be, Francis idolised his big brother and literally followed in his footsteps. I have to admit I was initially shocked that Marcus had allowed himself to be so easily manipulated but I did understand his reasoning by the end, and being reunited with his brother of course had me blubbering like a baby!!!

The boy's are also still working together on investigations and after meeting with Zack, Jeremiah and Chance to discuss the disappearance of Nick they discover that he is not the only boy from the streets to go missing... this is where we see Benjamin confront his own demons and go back to the streets that had once been his livelihood. Talking to the boys who put their lives at risk every day just to survive, makes him realise just how lucky he had been... and we see his deep pain and hurt for those he himself is unable to help... there is still more to come from this part of the story and I have a feeling Tom will be delving a little deeper into this particular heartbreak.

So I am yet again SUPER excited that I will be seeing MORE of my boys and ...Francis? Mmm... can't wait to see where that's going!

In Book 4 of the City Knight series Marcus has healed from the bullet that almost killed him. He's got the man he loves living and working with him. And he's got his best friends back in his life.

When Marcus is asked to investigate the disappearance of a young man, he begins to search for his brother too. What he finds changes everything...

I love Ben and Marcus, I love how they work on their relationship, I love how they interact with their friends and I love that we get some heartbreakingly revealing revelations of Marcus' past.

Thank you Tom. It was awesome. As always. :)

Like always I love the way T.A. Webb translates the emotions into words, is all about feelings and feeling them.

I enjoyed this short history a lot, it let me craving for more, I hope we will have more, no, It has to be more. I love Marcus and Ben, and I love how his relationship develops, and how emotional and human they are, the dialogues between them are awesome.

In this part is going to be problems on the street where Ben worked, letting me heartbroken, and Marcus discover that some family is nearest than he believes.

**"Now that I fucked your brains out, care to tell me what had you so tense?" "I don't see brains anywhere. Perhaps you were mistaken"**

**Some spoilers here, if you haven't read the others in this series, or haven't read this book...but why the hell wouldn't you have read this anyway!**

After reading the first three books in this series, I didn't think Mr Webb could possibly add anything more to make this series any better. Obviously I was mistaken. This book...OMG it took this series to another level, it was simply... **fucking awesome!**

This story is set a couple of months where the third left off. Here Marcus has recovered from his injury and all seems cozy and settled between him and Benjamin. These two were so adorable together from start to finish. From Ben looking out for Marcus's health, to Marcus feeling overly protective and possessive of Ben.

[image error]

I loved the playfulness between these two beautiful men. Loved the heartfelt intimacy shared without hesitation. They were the perfect 'old married' couple LOL with the sarcastic remarks and hilarious bickering.

The story line was highly intriguing. With Ben and Marcus working together to solve the disappearance of Nick, Ben's friend. Even with Marcus reluctant to expose Ben to the dangerous world of investigation, he was able to hold back his protective side and trust Ben to stay safe in his absence. Which was super cute \*giggle\*

*Ben~ Surprised u hvnt been out to tail me. Don't you <3 me anymore?*

*Marcus~ Oh, are u gone somewhere? Wondered why it was so quiet.*

*Ben~ Fuck u old man. I'll give u quiet.*

*Marcus~ Only when I gag u.*

*Ben~ Promises, promises. I owe u one. Tie U down big man.*

*Marcus~ Anytime.*

Hmmm...you gotta love these two!

There was sadness and loss in this book. This teaches Marcus and Ben to cherish what they have and hold on

to each other and their loved ones.

I don't think you need anymore convincing by me to go and READ THIS BOOK...oh and the others too. They're MIND blowing and full of smexy goodness!!

Thank you, thank you T.A Webb...your books are *amazing*.

The ending made me sad. But, man, I love this series.

### **Anne says**

I was reading about the attacks against gays in New York and one of the victims said something that made me proud:

**“If you throw one of us [members of the LGBT community] on the floor, five will get up.”**  
- Eugene Lovendusky, 28

I felt the same pride after reading Knights Out. This book shows how sometimes friends can become your family and give you support, love and strength.

**“I was so afraid. I didn’t want my little brother to hate me.”**

Family is the *heart* of this book, that's why I liked it so much. See Marcus vulnerable because of his brother made me love him even more. Maybe because this subject hits really close to home, maybe because T.A. is f\*cking brilliant.

Note to self: a kind word makes a difference.

### Ije the Devourer of Books says

I really liked this one. Marcus and Benjamin are the most emotional couple in this series and Wick is the most intriguing. This story was really great because Marcus manages to reconcile with some of the hurts from his past and the hope and emotions felt very real. I thought this story was also sad because we get to see the violence perpetrated against some of the street boys but at the same time a sense of a mystery emerges which will build into a crescendo and then the finale!!

---

I don't like reading miniseries because I tend to lose track of the story, but as a complete package I think the Pulp Friction 2013 set is a great read and I will definitely read the 2014 series once it is bundled.

### T.A. Webb says

Thanks to all the wonderful fans who love Marcus and his Benjamin and who have put up with their antics for five stories.

I have some news, which I hope you will like!

All four authors-Lee Brazil, Havan Fellows, Laura Harner and myself-are co-writing the last book in the series, tentatively titled "Odd Man Out", and it will be out before the end of the year. It will tie all the loose ends up, and the mystery that's been building will be explained and resolved.

And...in 2014, we will reboot the series in Flagstaff, Arizona, with new characters.

Again, thank you to all the fans of the series, especially the "City Knight" fans! I love you all.

*Oh. My. God, you've done it again!! Just as Marcus gets better with a little help from his friends ..yeah, sue me I'm a Beatles fan...and lot of love from Benjamin , you rip my heart wide open again with the revelations of Marcus's past and his younger brother Frankie, AND then I discover that Nick (Gabe) is indeed dead and there's a serial killer on the loose....it's all hotting up nicely, and great to see Wick involved in this one too.*

*Favourite quote (amongst many I might add) 'They both lay in bed panting. After a moment, Benjamin reached over and twisted his fingers around Marcus's "Well - he grinned - that earned you onions and mushrooms".'*

*Many thanks Tom for another wonderful addition to the Pulp Friction world!! x*

### **Christy says**

The City Knight books were the first ones I read in this series 'Pulp Friction' which is written by Lee Brazil, Haven Fellows, Laura Harner and T.A. Webb. Of course, once I realized there were other authors involved, I had to get their books and then read it all in order. This is the latest installment and centers around Ben and Marcus.

I love Ben and Marcus. They've been through so much together and bravely come out the other side madly and passionately in love. I loved and adored meeting Frankie, Marcus' brother, and his kids. It's obvious the author has spent some time around children because he sure knew how to write the funny things they say!

Oh, how I wished for a different ending, but Tom Webb wrote it beautifully. I'm looking forward to the next story!

I was like this with my kindle.
