Lethal Seduction

Jackie Collins

Lethal Seduction Jackie Collins

SECRET OBSESSION.

DEADLY PASSION.

**LETHAL
SEDUCTION**

Jackie Collins brings back her savvy heroine from the L.A. Connections series in this erotically charged, suspense-laced *New York Times* bestseller.

Caught between two lovers, Madison Castelli's sex life is in overdrive. But when she discovers someone close to her is keeping deadly secrets, the real excitement begins....Plunged into the high-powered circles of New York and the manic thrills of Las Vegas, Madison steps among explosive passions, mob machinations, and dangerous deceptions, only to find that nothing is ever as it seems.

Doctor says

'Lethal Seductions' is all about sex, lust, luxury, money, and not to forget, deception, betrayal, and crime; it seems the latter co-exist with the former naturally. Jamie is betrayed by Peter and Dexter by Rosarita.

Michael kills one wife after another, his daughter Madison's mother and step-mother so methodically and skilfully that she gets no idea about it until she is twenty nine. And when life surprises her with startling information of the existence of a brother and an aunt and that her father was a professional killer, she feels like a stranger to her own world, her own family.

Sex occupies the center of the world of luxury, riches, and licence. This pervades the world of the old too - Leon Blaine, the billionaire, Chas the moneyed father of two married daughters and not to speak of Dexter's father Matt who ogles at any woman including Varoomba's famous artificial assets and pours vulgarities into his son's ears.

But beneath all these are the assumptions which men and women live by, written in Collins' inimitable pithy style. They are many, but here are just a chosen few:

"..., women are like wine... they get sweeter and more precious" p 245

"A person gets the friends they deserve." p 303

"Nothing worth having is easy." p 192

"Thirty is old when you are twenty." p 137

I award this book five stars.

Rich Girl says

This is the worst book by Jackie Collins that I have read! I had troubles finishing it, because the plot was not interesting and some characters and their behavior were utterly unbelievable. Waste of time.

Connlou Ross says

(c)2000 I have never read a Jackie Collins book that I didn't like. Exciting. You could hardly wait to see what happens next. One of the books that I wish had a sequel. Romance, devious manipulations, and raunchy.

Angela says

This was a hot fast-paced page turner! I loved the layers and subplots to the entire story, but I wished there was more time spent on Madison's saga. I wanted to see how she worked through her feelings towards her father.

Great read with many facets to enjoy!

Cheryl says

I was willing to give this book 3 stars right up to the final chapter. It's everything a Jackie Collins novel has always been ... intrigue, sex, scandal etc but the ending was a complete let down. Unless there is a follow on book (which I haven't checked out) there are far too many unanswered questions for my taste. Overall, it's not a terrible book. It would have got it's 3 stars had the ending come to some sort of confusion instead of a snippet of information on each of the characters lives.

Brooklyn Tayla says

I'll always love re reading Jackie Collins. Her books will always hold a special place in my heart. This one was my third read and it was every bit as exciting and enthralling. Nobody will ever write like JC <3

Deb Sharp says

I enjoyed this book! I'm not a huge Jackie Collins fan, I have only read a few of her books, but this one was one that I really enjoyed. And Yes I do think it is a 5 star book! Just because some people do not like it, does not give others the right to question how I rate a book!

Teana74 says

Jackie Collins always make sexy books..one of my fave books!

Gie says

Madison Castelli, the beautiful, street-smart heroine of Jackie Collins's L.A. Connections series, returns in Lethal Seduction, an edgy novel full of danger, passion and suspense.

Madison is having problems -- her ex-live-in lover who walked out on her is trying to walk back in. Her new lover is giving her a hard time. And her father turns out to be a man with deadly secrets.

Set between the high-powered world of New York and the manic excitement of Las Vegas, Lethal Seduction is packed with all the intrigue and glamour fans have come to expect from Jackie Collins. This deliciously uninhibited tale of cover-ups, deception and mob involvement finds Jackie Collins at the height of her creative powers as the diverse cast of characters in Lethal Seduction take an exhilarating walk on the wild side, where nothing is ever exactly as it seems and danger is all around.

In Lethal Seduction you will also meet:

Jamie Nova -- a breathtakingly beautiful interior designer, who catches her Wall Street husband cheating.

Jake Sica -- a laid-back photographer not looking for a commitment.

Rosarita Falcon -- an ambitious and sexy would-be New York socialite with a yen to murder her husband.

Joel Blaine -- the playboy son of a billionaire with an unquenchable taste for public sex.

Carrie Hanlon -- a top supermodel with a degree in egomania and bitchery.

Dexter Falcon -- a handsome soap star with a romantic heart and an unbeatable body. And...

Kimm Florian -- a Native American gay detective with a dry wit and a big heart.

Together these characters will take you on a sometimes funny, sometimes sad trip guaranteed to seduce you all the way.

Emily says

It got the rating of just ok as it wasn't Jackie Collins's best book. I liked others that I have read a lot more. It was a long story and felt just as long to read it. It had good characters though but just felt like I had read the story lines before. It just didn't feel exciting and new. Some of the story was a bit predictable. I felt like the story lines went on a bit to long but the ending was a good wrap up of the characters lives. It did have its good bits though. Just felt like I was reading and reading and reading and nothing was happening that wasn't fun or not predictable.

Lorraine says

Beginning was hard to get into and I was a little disappointed at the end because I feel like there are still questions that did not get answered. Ok read

Ada says

This is the kind of book you take to the beach for a little summer reading and you are not especially afraid of the pages getting wet or sandy! Good but not great! You will read it two years from now and like it again but you won't remember a thing about the plot or the characters.

Faye Rahman says

This is my first Jackie Collins, and I'm not sure if there will be anymore of Jackie for me. There are too many characters and slow build up to the climax, if there's any climax. I don't particularly fancy the fact that I have to pause for awhile and recall about a character at the beginning of every chapter, because there's so many of them, equally important.

No doubt the writing is very good, Jackie is an excellent and detailed story teller but there's not much anticipation going on in the book making it a bit boring.

Firdosh says

Well I would definitely say this book is r rated and I would only recommend people above the age of 18 to

read it. Filled with sex and a little bit of drugs I thoroughly disliked this book. It was recommended to me as a relaxing read (my sister, I guess she didn't know the type of genre that I'm in to) but I was thoroughly disturbed by this book.

That aside I thought the characters were not deep enough. Madison the main character was very fickle and strange in that she would push issues she was facing aside (dramas with her father) and discuss other random irrelevant things such as her doorman . I didn't like how the book was from the point of view of several characters, although it did all tie together in the end

So overall if I could go back I would not read it since it was a waste of time and after finishing it I feel thoroughly disturbed and dissatisfied.

Karen says

LOL.

Emily Maree says

I absolutely loved this book. It was everything from sex and secrets, to crime and death. There was never a boring bit and I enjoyed every page of it. Jackie Collins has impressed me once again!

Vanessa says

Murder, mystery, intrigue. Power struggle. Love this book. Jackie Collins is one of my all time favorite authors.

Tala Aqqad says

As usual Jackie Collins sets her stories in Las Vegas with all the characters being interconnected. This book was about the same sort of things that are in her other books which include fake money-hungry women, stray husbands, lovers, power, murder and more. What was different about this one however is Madison Castelli, the main character, as I greatly admired her strong personality. She refused to give the sleazy men any attention and was extremely intelligent. Her past lover, David, who cheated on her and went to marry a dumb blonde came crawling back and I loved how cold she was with him, showing no mercy while engaging in a love affair with a photographer Jake. This is a feel-good book and may not be everyone's type but I definitely recommend it to young adults, Vegas lovers, or any older adult who just wanted a fun read.

Dena Pardi says

This was a pretty bad book. I've always enjoyed the fast paced, light read of Jackie Collins novels but this one just lost it for me. It was crude and vulgar for the sake of being crude and vulgar, the story climax fell flat and the epilogue did tie all the ends, but were predictable and lame. It's too bad, I really wanted to like

this book, but I was not a fan.

Noelle says

ACTUAL RATING: 3.8/5 stars

BOOK COVER/DESIGN: 6/10 stars. The version that I have is the black one. It's pretty decent, but not that attractive nor does it have that girly appeal.

GENERAL REVIEW/THOUGHTS: I enjoyed this book. It kept me at the edge of my seat. Though, I think that the synopsis can be quite misleading, as it didn't really discuss and/or focus on Madison's mobster father. The spotlight was suddenly shifted from Madison's story too quickly. I love Collins' language and flow. The only problem I have with this is that the story was stretched out and prolonged too much. It can be a little racist at times, but I suppose that was done because of Rosarita's selfish, overbearing characterization.

RECOMMENDATION: For those who love chic reads with a touch of mystery.
