Miss Behaved Milly Taiden

Toni Lys is not looking for a relationship. She just climbed out of a dark hole her ex-beau left her in, and she doesn't want to dig into another. But when she sees sexy Garrett in need of saving, her kindness overrules to give the poor guy a hand. He's exactly what she doesn't need, but her heart has other ideas.

Garrett has finally found his mate. She's feisty. She's strong, and she's got curves for days. Now she just has to agree to be his. Easier said than done. Along with all Toni's wonderful personality traits comes hardheaded and stubborn. Sweet words won't sway her. Hopefully, keeping her out of danger will.

When bad guys get too close to his girl, Garrett won't let anything happen to his mate. She might not agree to being his, yet, but she will agree to being safe. She can argue and fight her feelings, but her heart has a mind of its own.

I love Millys books! Anything she writes I jump in them because they are amazing and so unique. This book was no different. I'm a huge fan of paranormal and this hit the spot.

Toni was headstrong and at times stubborn but it worked for her. I loved her sassyness and how she just goes with the flow. She had her own set of issues but you could feel her trying to do better.

Garrett was cocky but at the same time very down to earth. He was as Toni called him "Sex on a stick"! Totally swoon worthy and sweet, yet could be a total alpha!

Loved the plot. I love when humans and shifters mate and this one was perfect. We have a Heroine that struggles and a hero that wants to prove his love. So heart warming.

There is also some drama that has to do with the different packs and it was a mystery that I patiently waited to have solved! And my mind was blown!

I really loved getting to see the characters from the first two books. They are all best friends and you can really feel the connection with this group.

Overall this was another amazing read from Milly. I was sucked in, rooting for Garrett to win over Toni, and let me tell you he had to work his butt off and on the edge of my seat to find out what happens! 5 stars

Book 3 in the series- Toni and Garrett's story

Toni is a bit shell shocked after her boyfriend of 3 years dumps her.

The bummer... he dumped her for another guy.

She attends Kira and Luke's wedding, where she meets Garrett.

Garrett is a leopard shifter and Alpha.

The man is being swarmed by a hive of women and Toni is asked to rescue him.

Garrett is overjoyed because he has at last found his mate.

Toni is on the offensive, not looking to get involved.

But Garrett is very persistent and continues to pursue Toni.

This series is packed with super macho, overprotective alpha males and the women that drive them crazy.

The women are BBWs with lots of sass.

Quick, romantic read

Title: Miss Behaved

Author: Milly Taiden

Genre: Paranormal Shape Shifter Romance

This is a quick insta-love read. The insta-love comes from the shifter but our heroine is bombarded with a serious case of mega lust.

Ok, so the drama/mystery in the story is part of a continuing theme from the previous books. There is also a new mystery storyline introduced that the Alphas must figure out and will probably continue in later books.

Our hero Garrett is a smooth talker and I even shared some of his quotes on FB. Man talks to me that way...yeah. Lol

Anyway, I liked this book and I love many of Taiden's books. I just feel there needs to be more. I mean things don't heat up in any way until almost 60% in. Then the action is so short lived I just feel let down. Maybe the author doesn't want to write a really long book. It is a romantic book because of Garrett. Toni just spends time harping on her weight and how her ex said horrible things to her. So, she doesn't believe Garrett wants her.

Their relationship/interactions don't feel normal except when they are being intimate. Toni's interactions with everyone else, even towards the end, feels more normal.

I love Garrett and I did like this book but not enough to go beyond 3 stars. It was romantic. It was steamy. Had a hot alpha who worships a curvy woman. So, read it cause it will make you smile and go ahhh...

Another great addition

Garrett and Toni were hilarious. It was about time Toni stopped running from her feelings. Loved how the crew came together once again. Where is the next book in the series though? It seems like after all the build up with Brannon and Kasey there should be a story behind it. Also what's going on with Calean after all he has done to keep an eye on things it seems only right that he would get a story as well. A bit let down with all the loose ends this series ended with.

and then I was reminded why I hate manwhore characters. I was going to add in woman whore also just to be fair but how many romance authors dare to write a sexually secure woman much less a promiscuous one so I took it out.....anywho

Some books I can do if there isn't a lot of details however if there is a constant mention of it and the sexual history of a character becomes a plot point like this one I usually spend the whole book imagining blistered dicks from all the std's they probably have.. IE when it was mentioned he MIGHT of had a foursome you lost me to the weeping blister dick... happens every time...

Stephanne88 says

Ehhh

I didn't like how it ended, he just said he wouldn't leave her and then he did? Wtf. Plus there were some distracting grammar issues.

This all aside, I will be reading the next book.

Great story with a frustrating HEA ending.

I absolutely adore Milly Taiden's books and can't get enough of them. I impatiently wait for each new one to come out.

Most of her books are standalone but this one leaves you with some unanswered questions. Still worth reading though. Books #1 and #2 are Standalone but characters from previous books do show up in each additional ones.

Miss Behaved is book #3 of the Raging Falls series. In it, we have Garrett, a leopard and Toni, a human. From the moment Garrett lays eyes on Toni, he knows she is his forever mate, but Garrett has a well known reputation as a playboy so Toni doesn't trust him. Garrett has to work very hard to gain her trust but he knows she is worth it. Toni is also dealing with low self esteem due to her ex being verbally abusive and dumping her for a man. On top of that Toni and Garrett discover that Toni may be in danger thanks to her ex and there are serious issues going on with the different shifter packs on the mountain. Makes you wonder if Garrett and Toni's relationship is doomed.

Kim O'Daniel says

Oh my god what a story. You have got to love Milly's books. This book is the 3rd in the raging falls series. All her books I have read are truly amazing and so well written. I cannot wait to see what she comes up with next.

This book is about Garrett and Toni. She is related to Carly. And just moved here to work with her cousin and go to her wedding. That is where she meets Garrett the sexy leopard shifter. Her ex was so mean to her that she now has such low self esteem she thinks he'd never have anything to do with her. She feels she is not for someone sexy like him. But shifters love BBW and Toni is the most beautiful woman Garrett has ever laid eyes on. To him she is a goddess. Now he just has to convince her she is all he will ever need. And then there is the Ex who keeps showing up and causing problems. Now he also has to find a way to protect her.

Now before I ruin this for you I will leave off here. I hope you enjoy this book as much as I did. If you do like this book, please consider leaving a review. The Authors really like it when you do; they value your opinions too.

Shifter romance with a case to solve and sizzling romance.

Garrett the alpha leader of his pack and he is single and surrounded by his friends, more like brothers happily married. He has Kira cousin Toni he is drawn to and she doesn't give him the time of day. He knows she is his mate and she won't fall for any of his charms. Most woman throw themselves at him and the one he wants won't be alone with him. He plans a date with plenty of chaperones just to get her to agree. Many issues pop up and they has case or two to solve. Excitement picks up in the book but the cast of characters are enjoyable. Violence1,sex3 steamy

I'm a fan of this writer's work but this book was an exception. the hero was a manwhore but the second he sees his mate he is reformed and completely devoted to her. It was too fast of a change. there was no relationship depth or buildup. extreme instalove. I didn't care for any of the characters and found the plot to be incredibly lame and cliche. I almost declared it a DNF and probably should have done so. I found this book dull, under developed and overall pretty boring. Not one I'd recommend. At least it was offered as a kindleunlimited.

Carmski Pescod says

Another very exciting read. This is the 3rd in the series & it's such a sexy book, you will love it.

Amber says

Another sassy, snarky, and oh so sexy read from Milly Taiden. With a sweet talking ladies man and a spunky take no prisoners female lead, this was a really fun and fast read.

I loved Toni and Garrett together. Yes he was a "player" in the past but he's really sweet and could definitely talk the pants off anyone. Toni took no crap from anyone. I love how strong she is. She never let anyone talk down to her and stood up for herself.

There's an interesting mystery going on with this series but each book can be read as a stand-alone. I can't wait to read the next book!

Most of you probably know this but my guilty pleasure is reading alpha shifter books. I love them. I also use them as a palette cleanser in between books or as a breather when I finish a super emotional book. Or just because I love them and don't need a reason.

I discovered Milly Taiden a couple months ago and have been working my way through her collection.

Loved this book. It was a quick read. I loved that the hero played a little hard to get. I love when the hero doesn't give in just because they're mates. Women want to know you really want them and love them, not just because fate says you're mates, you know? Loved this book!

Garrett is one sexy and sweet Alpha who has hidden behind a playboy persona and has his work cut out for him when he finds his mate. Toni has been hurt and she doesn't feel good enough for the sexy alpha but will his persistence wear her down? Danger is lurking and strange things are happening and Toni seems to be in the middle. Will Garrett be able to keep his mate safe and win his mate over?
