## Submitting Sarah Vanessa Vale

"Soon enough you'll understand, but for now, just remember, this is our command, not your choice. All you have to do is be a good girl and do as we tell you. You don't have to want it. You don't have to like it. But we will do as we think is best and we will pleasure you."

Having escaped isolation on her father's ranch, fiery Sarah Jenkins is determined to avoid the fate of her stepmother, Devney, who now lives under the domination of her new husband in Liberty, Montana. But Sarah's plans to flee to the big city run afoul when she encounters the handsome Ericksson brothers.

Tag and Garret aren't like the possessive men of Liberty. As brothers, they agree to share everything, and have been looking for a woman with a capacity for passion that will enable her to handle two strong lusty men.

When Sarah learns that women who flee Liberty cannot return with their reputations intact, she agrees to accept her fate of becoming one wife to two husbands.

But if submission to one man is work, submission to two men is an art. As Sarah learns to accept the sexual demands of two handsome brothers, can she learn to accept the love they have to offer, and return it?

Hot menage adds a new twist to this fourth installment of best-selling "The Montana Maidens" series, making it no wonder that Vanessa Vale is the hottest rising star in BDSM erotica today.

## TDCbookreviews says

I received this book in exchange for an honest review.

This book wasn't as harsh as the others. Tessa runs as soon as the Doctor takes her and Devney back to his home. She is caught red-handed by two men while she is trying to get her chasity off.

She is claimed unknowingly when she has the men take the belt off, so she can be relived of bodily fluids. Instead of being forced to marry one husband, she is forced to have two. She is able to have more freedom than the other women in the books, she is still drugged but doesn't have to wear the special wedding plug at all times.

I think what shocked me the most, was when they take Sarah to visit the neighbors and what the neighbor's wife is commanded to do, just felt plain wrong.

As always, if you are into dom/subs and kink this series is the series for you.

\*\*\*AUDIO BOOK\*\*\*

After her Fathers death Sarah Jenkins had but one plan, escaping and seeing the world she had read so much about, but as everything there was a curveball in those plans.

And that curveball came in a double package the very handsome Ericksson brothers.

Tag and Garret aren't like the possessive men of Liberty. As brothers both had agreed to share everything as they shared the ranch, they were looking for a woman that would be able to have the same passion they both had, that could handle both of them.

Sarah soon learned that she fit that bill and now it was up to the two men to convince her of this. Would she agree would she be able to deal with both men as her husbands. Read the book to find out.

### **SUBMISSION OF LOVE**

This is a series but the book can read as a standalone. To really understand the town of Liberty, MT and the men and their handling of wives, it is best to read them from the beginning. In book 3 we met Sarah Jenkins after the death of her father when the men came to the ranch and made Devney, her step-mother and Sarah wear chastity leather harnesses and place them under protection of the Doctor. During the night Sarah escaped and finds herself trying to remove the harness when she is found by Garrett and Tagg Ericksson. They insist she must return with them to their ranch and that she is now under their protection and even get the Sheriff who can act as Justice of the Peace. They marry and these brothers make her their wife. The sex scenes in this story are sizzling between these brothers teaching Sarah about her body and desires and towards a ménage. The story and dialogue was entertaining, never was it forceful, but gentle, persuasive coercion.

I enjoyed this story about Sarah marrying two men. It is a fun and steamy story.

## **Katy Beth Mckee says**

Sarah has taken off to determine her own destiny and ends up between a creek and a hard place. Now she's faced with Garret and Tag who know what the need to keep her safe. But despite the fact that there are two of them they tread her gently and with care. She quickly responds to them and finds her own destiny right where she is.

### **Can't put it down**

I'm going to be honest, this series is totally addictive to me. Not sure if it is the submission or what, but these are great reads. The book is super steamy and always has a twist, but if you appreciate a little spanking, dominance and submission. This is the book for you.

## **Marybeth says**

This is the next story in Montana Maidens. We met Sarah in the last story, Dominating Devney. Sarah is Devney's step-daughter. She runs away to find her way alone. Unfortunately, she is still wearing the chastity belt. When she stops next to a stream to try and wear though the leather with a sharp stone, she meets up with Garrett and Tagg Ericksson. They are brothers who plan to share a wife. This book is a little different than the first three. There is more emphasis on love and coaxing Sarah along. I really liked this one a lot. I'm wondering if there will be another book? I give this 4 stars.

K9girlie

this is another great addition to the Montana Maiden series. Sarah who is under the protection of the doctor, run away and ends up meeting the Erickson brothers while in a vulnerable situation. This causes them to take over as her protectors, and a marriage between them. The handsome brothers take Sarah on a delicious journey of submission of her body to her husband's. I am most definitely looking forward to more from this author.

## **SH says**

I think this is my favorite of this series. It was nice to discover what had happened to Sarah after she ran away. She got lucky when she ran into two brothers who end up being her HEA. Nicely done!

### **A Quick Series Review**

These four books were fun, quick, and fast. I listened to them all over one weekend. If you are in the mood for straight up erotica then these might be the books for you. If dubious consent doesn't bother you, and you don't mind being a little shocked then these books might be for you. Even though the stories take place during wild west times, the setting doesn't come into play very much because the plot completely focuses on sex.

I love, love, love audiobooks and listening to great narrators. Now I wouldn't call any of the narrators in this series exceptional, but some were better than others. I did not like the narrators of book #2 at all, especially the male narration. Books #1 and #3 were my favorites.

**Giveaway-** The publisher has graciously given us copies of all four audiobooks to give away to one of our lucky readers.
