The Hitwoman's Downward Dog J.B. Lynn

So many men....so little help.

Maladroit hitwoman Maggie Lee has never been one to ask for help. But now she's found out that her niece, Katie, will soon be discharged from the hospital - making Maggie her guardian not just in name - and her semi-psychic friend Armani Vasquez has been kidnapped. Suddenly Maggie could really use some help.

While her crazy, but lovable, aunts are ready to help out with Katie, none of the men in her life are willing (or able) to lend a hand to save Armani. With both cops and bad guys telling her not to go after Armani alone, she knows the smart thing to do would be to listen to them. But Maggie's not the type to abandon those she loves.

Even with Patrick, Maggie's murder-mentor and almost-lover, and her old friend Zeke out of the picture, Maggie's not desperate enough to bring herself to involve crime reporter Jack Stern in her quest.

Armed with only Armani's cryptic clues, and assisted by her snarky lizard, her dumb, but extremely loyal dog, and a one-eyed cat, Maggie decides to take on whoever's taken Armani.

Will the lack of human help prove to be her undoing?

Or will a special guy come through for her in the end?

This is another winner in the Slightly Neurotic Hitwoman series. This picks up where the last book left off, with Maggie's friend Armani missing. Maggie is desperate to find her, but finds multiple complications thrown in her way. Despite this, she also is preparing to bring her niece home from the hospital and is frightened at being inadequate to meet her niece's needs.

While this is a stand alone novel (no cliff hanger), you will enjoy it so much more if you begin with the first book in the series, Confessions of a Slightly Neurotic Hitwoman <http://www.amazon.com/Confessions-Sli...>

This is a funny mystery as we follow Maggie's attempts to save the day as she finds herself surrounded by her murder mentor, crime boss, crazy family members, and talking animals. I think my favorite Maggie quote appears in this book: "On a day that you're not sure whether you'll make it out alive, I say eat dessert first."actually, it might be my favorite quote of all time....lol.

Despite this, at times it is poignant as we see Maggie at her most vulnerable with her inner fears of inadequacy.

This is a must read.

Another Good One

As usually Maggie has way to many things going on at once but some she manages to pull everything off with a little help from Patrick. I just hope her Patrick together soon I glad the next will be out next month.

Great Series, A Must Read!

This series is a must read. This is the ninth book in the Confessions of a Slightly Neurotic Hitwoman series by JB Lynn. Maggie is a hired hitwoman, who talks to animals. Her semi psychic friend Armani has been kidnapped and she is determined to find her. The cops and the bad guys she works for have all told her not to look for Armani alone, but then none of them will go with her. She ends up getting help from her animals, her dog, her cat and her snarky lizard. This book kept me reading until the end. This book is so funny, and I can't wait until the next book comes out.

A Review copy was provided to me in exchange for a fair and honest review. The free book held no determination on my personal review.

JB Lynn Does It Again!

This is the 9th book in the Slightly Neurotic Hitwoman series. This book picks up right where the last book left off. Maggie's best friend, Armani, has been kidnapped. Despite the apparent lack of help from the different men in her life, Maggie is determined to rescue Armani safely. If this isn't enough Maggie has to deal with her crazy aunts, relationship shy sister, commitment resistant love Patrick, & the responsibility/love Maggie feels toward her animals & niece, Katie.

I really enjoyed this book! Downloaded it & didn't put it down until I finished it. This series keeps getting better & better. The characters, especially Maggie, are quirky yet likable. I couldn't help but get drawn in. Can't wait for book 10 - The Hitwoman's Act of Contrition due out in March '15 as the author left us with a little cliff hanger! Patrick's ending statement has me extremely curious & dare I say hopeful?!

Maggie Lee is at it again in the newest installment in the Confessions of a Slightly Neurotic Hitwoman series by JB Lynn. Seems like a day doesn't go by without a little drama for Maggie. She finds out that her beloved niece Katie is going to be coming home soon from the hospital and the reality of her life comes crashing down on her. All her doubt about if she can really take care of the girl and her life as a hitwoman make her worry about the future. Then her friend Armani is missing and no one knows where to find her and she can't seem to get any help. A new guy in Maggie's life crime reporter Jack Stern seems to pop up everywhere she goes. She's not sure if she can trust him but he seems to generally be concerned about her and offers to help if she can accept it. This book has all of Maggie's charm and craziness along with her menagerie of talking animals who are always willing to help. She seems to juggle her aunts, her men, her animals and come to the rescue of Armani although it's never as smoothly as she would like. A bit of a thriller you can actually laugh at while reading. If you want to read a series that full of laughs and craziness start right here with this series.

I always like reading The Hitwoman books. They are fun and fast reads. After two kind of heavy books I was wanting something fun and fluffy. The Hitwoman books are always fluffy and Downward Dog is no exception. However, it wasn't quite as fun as I have come to expect of the series. I felt this one could have used a bit more polish to hit the mark Lynn is so capable of exceeding. Full review soon.

I'm just playing catch up with my reading and I'm glad this is where I've started. This series continues to be entertaining. Maggie's character is developing and I can't wait for her to reach her peak. I enjoy the

conversations she has with her animals and the conflict it causes with the people who hear her. Anyway I'm off to start the next book. Act of Contrition. Love this!

This is a MUST read book! The main thing that I LOVE about the Hitwoman books is the sense of humor and it was in full force in this sequel. I also adore how I think that I know what will happen but am pleasantly surprised by JB's unpredictability with this multifaceted story. Now I'm eagerly awaiting the next installment with baited breath. :)

“On a day that you’re not sure whether you’ll make it out alive, I say eat dessert first.” This is just one example of the delightful writing in this series. I like the fact that it is complete escapism. Yes, the main character talks to animals and they talk back, but who wouldn’t like to be able to do that?!!! The fact that she also works for the mob as a hitwoman leads to some hilarious situations. Love this series and find it thoroughly entertaining. I would highly recommend that you start with the first book in this series as you won’t want to miss out on any of the fun antics!

I finished this book in one day, and all I can say is that these books just make me happy! Start from Book 1 since they are a series and enjoy the adventures of Maggie (aka Dr Doolittle) as she saves her friends from trouble.

Poor Maggie is up to her eyeballs again! Armani has been kidnapped and it's up to Maggie to find her. Katie may be coming home, Mr. Delveccio needs her, and Mrs. Whitehat wants something! The list goes on and on. I absolutely love the characters that JB Lynn has created. Lots of laughs and action! Of course, lots of God (my favorite)! Once I start her books, I don't put it down until finished. I'm so looking forward to what Maggie gets herself in and out of next time!

A fun series.

B.E. says

Wow. I loved this! It all flows perfectly together and with the other books in this series. It's quirky and fun and a little touching in places. I don't do spoilers, so you'll have to read to find out what whacky things Maggie's gotten herself into, what happened to Armani, what's going on with the trio of men in Maggie's life, how her niece is doing... It's all totally awesome. And again, I can't wait to see what JB has in store for us next.

Linda Denison says

I ALWAYS enjoy reading books in this series - the characters are wonderful and the stories are always entertaining. In my review of book #4 I mentioned some inconsistencies -- and I am very pleased that it was addressed in this book. I can't wait to read book #10!

Kelsey Keating says

I do love Maggie Lee. This book was great. My only complaint: I hate Jack Stern. He's so annoying and pushy. What's more, I hate how Maggie acts around him. So dumb. Come on, girl! Quit being such a little bag of hormones and stick to the "I hate this guy" vibe!

Maggie is back and ready for action after her best friend goes missing. As always, she has the best crew of animals to help her solve the case. For being a hitwoman, it's been a long time since Delveccio had her kill anyone. She's in true Maggie form in this novel though, and it's another fun ride.
