## **The Scorekeeper: A Suspense Thriller** Dustin Stevens

“I don’t even know if the call is real. All I know is there is some girl on the line saying her name is Della Snow and that she is trapped inside a box right now.”

It had started as a quiet night, a much needed reprieve for the overworked team of Detective Reed Mattox and his K-9 partner Billie. With just a single phone call from dispatch, both are plunged into a nightmare they could have never imagined.

Somewhere in the greater Columbus area, a young twenty-something is sealed away inside a coffin. With no recollection of how she got there or who might have put her there, she is desperate. Armed only with a dying cellphone and a waning oxygen supply, her hours on earth are limited.

Calling on every resource imaginable, Reed and Billie sprint headlong into the search, embarking on a twisted path that proves to be so much larger than they could have ever imagined. Bit by bit, their search takes them across the entire west side of the city, each stop building toward an explosive conclusion that could alter their partnership forever.

### **Tom Marchinowski says**

#### **A fast-paced thriller to keep you on your toes**

Dustin Stevens wrote a great story that might have been done before but it came off pretty well. I enjoyed the K-9 Billie and his ability to search and rescue. I will search out the author's other books to find a story comparable to his one. This was my first Reed and Billie novel.

#### **Another great read.**

Thank you for another excellent story with Reed and Billie. The perfect partnership. It is refreshing to read crime stories that aren't filled with profanity and sex. I am enjoying my time reading your books and will continue to do. Please keep on doing what you do so well and I will continue to read your wonderful stories.

#### **High Entertainment Mystery Keeps You Guessing!**

Most "best seller" mystery authors provide good entertainment stories with creative twists and surprises, but few really keep readers hanging in suspense page by page until the end, as Stevens does here! In fact, this reader got in trouble because of wanting to read "just one more chapter" instead of doing my "honey-do" list!

#### **WOW**

Though I have been a fan of this author's Reed and Billy books since the very first title, this one was the most amazing of all!

I simply could not put it down and read it in only two sittings. I sincerely hope that we're going to see a lot more of this pair.

The writing is tight and you can almost feel the adreleline of the two very likeable heros.

Since my husband is a retired police officer, I've seen canine units in action, and they are the real thing.

This book will keep you up and reading well into the night!

Can't wait for this duo's next case.

The best thing is, you don't have to have read the preceding books in this series, but if you haven't, you'll want to!

Keep up the wonderful work Mr. Stevens, and please don't let us wait too long for more adventures from this pair.

Also, can there actually be a little romance in the cards for officer Mattox?

#### **Girl in a Box**

Trying to locate a girl buried in a box underground is super stressful for Reed and Billie. Working with few clues adds to frustration. This novel is filled with action and suspense from the beginning. Just try to remain calm and enjoy another great novel from this author. I highly recommend this book.

#### **The Scorekeeper: by Dustin Stevens**

Reed Matrix and his K-9 partner, Billie, are pulled into this case by a phone call from a woman who is calling thru 911 dispatch to ask to be rescued from wherever she is buried under ground. Though Reed and all his associates, including Deke, are chasing every lead possible, nothing seems to lead anywhere. Time is running out because the burner phone is dying, just one bar of power left. As the night unfolds, lead after lead, clue after clue all point to a man who is currently in prison. Reed & Billie check out locations after locations based on clues at each scene, and just as Reed is ready to admit failure, they arrive at the home of what they believe belongs to the Scorekeeper. The twists and turns to the end will have you as tired and out of breath as Reed & Billie after the rescue. You'll have to read for yourself to figure out how this comes out! Can't wait to see what happens next with Reed and Billie!

#### **Excellent**

Dustin Stevens has wrote a terrific story.. Meeting Reed and his K9 partner Billie was astounding. This story kept the reader unable to put down. The police force and Reed's friends who helped save the life of an innocent young woman. This book was so powerful it taught the reader about sick people who have lots of hate but. Detective Reed hard work made this book another winner from this talented author

### **Leigh Vining says**

The book was good until the Epilogue where it seemed to end so abruptly that I was a little bit confused. It wasn't the outcome that I didn't like, but considering the rest of the book and how detailed it was, the end seemed rushed and not well thought out.

**Ellen Palmer says****Great series!**

I've read and enjoyed all 6 books in this series (looking forward to many more!) Great writing and characters. A nice mix of crime/mystery story and character development story (unfortunately missing in so many police suspense books.) I feel like I would know Reed and Billie if I met them and that's what I love in a book. These books would make a great TV series! Thanks to the author for having them in Kindle Unlimited as well.

**Barbara Williams says****FANTASTIC STORY**

I've been a fan of Billie and Reed, it seems like forever. Each book is a stand alone (which is great). And each one just as interesting and intriguing as the last installment. The way each story is written makes for an amazing ride along. The only afterthought I come away with this book is; Is this the end of Billie and Reed?? I certainly hope not!!

**Tulay says****Good story.**

Have read all the books in this series, know how Billie reacts with Reed on the job, but detailed descriptions again and again was boring for me. But still Billie is my favorite character. They have a great team of investigators behind them, but saving a life and being good detectives should be rewarded.

**Kristi says****Another Maddening Case for Reed and Billie**

As with the other five novels in the Reed and Billie series our protagonist is pitted against a criminal mind that requires intense police work, intuition and even technological assistance to solve. Dustin Stevens is a gifted writer with a penchant for the unusual crime and criminal mind. I have enjoyed all six books in this series as well as others of his works. I highly recommend his books.

### **One of the most exciting**

Dustin, this is my first book of yours that I read, outstanding. I finished this book in two nights, I look forward to more books in the future. I will not go back to the past, as I don't have time to catch up. Thank you and I would enjoy any stand alone stories you have written

### **Stanley McShane says**

#### **Difficult to put down mystery.**

Well written mystery novel kept me on pins and needles. The plot development is unique and silent prayers were used to pray for the victim. Reed and Billie are my favorite K-9 unit. CE Williams from Bookbub

#### **Luv-ed it**

Scary thriller with twists and twisted baddies. Love the dog! Gonna read more on this series. Recommended but not a Halloween read - daytime and 'with company' read (and with a knife handy if you aren't sure about your neighbors or your company). ??
