The Texas Millionaire's Runaway Wife

Mary Malcolm

The Texas Millionaire's Runaway Wife Mary Malcolm

Cassie Sands, devoted sister, aunt, and owner of Just Desserts, falls in love with a man she believes is struggling just like her, only to find out after they're married that he's actually the millionaire son of a powerful Texas mogul...and that he wants to hide their relationship. She vows never to see him again. A month later she finds herself needing help only he can provide. Stephen Sands has always had the responsibility of being the oldest son of a Fort Worth Magnate. In spite of his auspicious upbringing, he falls for a woman he hopes values him for himself instead of his family name or money. That all changed the minute his wife, Cassie, left him the day after their wedding. Now Stephen wants nothing more than revenge against Cassie for the only thing he'd never given before - his heart. Can Stephen and Cassie over come blackmail, thoughts of revenge, and lies to find the love that brought them together in the first place?

This is a new release of a previously published edition.

Shiela says

I thought this was a pretty good read. Cassie and Stephen were married. She left him because of what he said. Stephen loved Cassie, and Cassie loved Stephen neither knowing how they really feel for each other. Cassie needed his help, and he wanted her back for other reasons. Can't wait to read next in series.

Erika says

I just think the whole plot is stupid, I mean, he is so: I'm going to get my revenge on that heartless bitch that was mad at me just because I lied to her for more of a year and married her without telling her who I really was. She is just a gold digger that wants my money (no matter that she left him after finding out he was loaded and married him thinking he was poor).

And her: I have no other choice but to ask for his help, but I hate him and I will make his life a living hell. I won't sleep with him, no matter what he does... two days later she is begging him to sleep with her, just because he acted human for a couple of minutes...

I was hoping for something different, I was disappointed.

Donna Porter says

This was a great book. It centers on Cassie whose niece is autistic and needs expensive help. Cassie is in Vegas and marries Stephen thinking he is poor and she loves him. She finds out he lied and he is really rich as is his family. She leaves. Thinking about her niece she goes to Stephen and as for help. His terms she has to return to him and act like his wife. Little does she know he wants revenge for her leaving him. In the course of time Cassie and Stephen both find they really love each other, but is it too late, or will Stephen get his revenge. You have to read this romance, it's truly wonderful and will hold your interest

Deirdre says

Drama made from people not talking to each other is boring and a cop out to good writing.

Lisa Gemmell says

For a short book, it was cute and had me liking the characters and the plot. Though I wanted to smack Stephan a few times. I am hoping we can get the brothers stories the way Cassie told them how it was going to be. I enjoy books like this and though some of the stories are all the same each character makes it different

and unique.

Tracy Lundy-Munn says

Good quick read by Mary Malcolm. The storyline and characters were solid. Loved the chemistry between Stephen & Cassie. This book was solid and had my attention from beginning to end. Would definitely recommend and I look forward to reading more from Mary!!

Janeiowa says

While the billionaire/millionaire thing has been done to death as a plot device, this was was pretty good. I wasn't familiar with the author, but I will look for other titles by her.

Stephanie Cage says

Considering this book's title is a jumble of cliches, and the story boasted a good number too (millionaire hero, fake marriage, woman who will do anything to help out her suffering family), it's somewhat ridiculous how much I loved reading the story. 'The Texas Millionaire's Runaway Wife' is one of those stories that breathes new life into old romance tropes. Cassie and Stephen are believable people, with both flaws and lovable features that are just a little larger than life.

Cassie is impetuous, bossy and has a slight vicious streak, yet this is balanced by her deep capacity for love and kindness, as well as the natural beauty which Stephen falls unexpectedly in love with. Stephen is in many ways your classic millionaire alpha male - domineering, controlling and possessive - but he has a sweet streak too (generous, funny and good with children). It was easy to accept Stephen and Cassie's crazy relationship because of the kind of people they both are, yet as time went on I was desperate to see how they would move from frustration and distance to the love they were clearly destined to find.

If you're feeling a little jaded - either with life or with the romance genre - this is a fantastically refreshing read.

Vanessa says

Really cute short read. I wonder if there will be a book for each brother?? I didnt have to pay for it so it was also a nice touch.

Amber says

Nice to read a book with a curvy protagonist. Too short, in my opinion. Could have actually made a good longer story. Read it one night.

Yona says

This was one short but very very enjoyable book. Usually I stay away from books with the word Millionaire or Billionaire in the title, because I expect it to be cliche, but surprisingly I loved this one very much. It had everything I love in a book plus the perfect end. What more can a girl want?... ;d;d

Viviana says

Cute short book. If you are looking for something short and cute this is a good read. I overlooked a few errors but glad I read it.

Natalie says

easy read :)

Deborah says

Cassie met, dated and married Stephen under the assumption that he was a normal guy struggling to get along in life, then she discovers that he is in fact the son of a millionaire and when he says "Don't tell anyone about this. No one can know we're married." It's too much, she loves him but won't be his dirty little secret so she leaves. Circumstances bring them together and since Cassie needs something from Stephen he decides to make her pay, to pay for walking out on him, he'll have her back in his home, his life and his bed and then he'll be the one to decide exactly where and when the marriage ends.

I liked Cassie and Stephen, they're both intelligent hardworking individuals but when dealing with each other they act like idiots, I know this is often the nature of romance books but at times I felt it was a little overdone and naive in places.

But it was still a nice enough read it has some good characters, it's also the start of a new series, Stephen has three very eligible brothers so we're looking at at least another three books.

RebeccaL says

I felt the hero is a spoilt boy and his reason of keeping the marriage a secret was weak. His anger and intention to get revenge from the heroine felt like he wanted to punish because he didn't get what he wanted.
