## **Jeanna says**

it was a good program. i filled out the survey so it got it basically for free. there are some great tools that helped me see things differently!

---

## **Sofia says**

This, in my opinion, was a total wast of time! It was way to long and it was hard to follow, also it was very boring! It might be interesting to some teens but for an adult that's really interested it should be good.

---

## **September says**

This parenting program was extremely helpful with my youngest child while going through some very painful and difficult years - wish I had this material sooner! The DVD's, CD's, book, and workbook were incredibly helpful at helping me learn to become a more logical and purposeful parent in the midst of overwhelming difficultlies. At the end of your rope? Feel like you are losing the battle? This program could be just what you need to help improve life for you and your children!
