### Nikki (Book Allure) says

What do you mean this book has been delayed indefinitely..... You can't tease me like this with a blurb like that.....

---

### Kim at Divergent Gryffindor says

### Saania Zee Jamal ? says

*YA series, in which the princesses of fairytales – grown up and living their Happily Ever After – disappear one day, leaving their daughters and sons to save them all.*

This appropriately sums up how I feel about that:

---

### Jessica says

Just finished the epic rewrite draft! I wrote a brand new ending chapter last night at 11 pm, in a fever of inspiration! I'm so excited about this book!

---

### Hayley says

"This book has been delayed indefinitely."

Well that made me sad.

---

### Shera (Book Whispers) says

*This book has been delayed indefinitely.*

Wait. What? The Book Gods are being cruel. Guess it's time to put this on a different shelf. ;\_;

---

**Fifi says**

This sounds like the best book concept ever; I seriously think this book was made for me. I can tell already that this is going to be one I will reread a million times (kind of like Princess of Glass which I've basically memorized) and annoy my friends about until they read it too. I am desperate for an arc or something so I don't have to wait this long! I desperately need this book!

---

**Sandra says**

*"...the princesses of fairytales – grown up and living their Happily Ever After – disappear one day, leaving their daughters and sons to save them all."*

**I DON'T KNOW HOW, BUT I WANT THIS NOW.**

---

**Lior says**

That premise sounds awesome! Really interested in this!

---

**Luna★ says**

"Delayed indefinitely" are the words I don't want to hear :/

---

**Isabella says**

Holy smokes Batman! A book about (and I quote) the princesses of fairytales disappear one day, leaving their daughters and sons to save them all. I think I might hyperventilate I'm so frickin excited!!

---

**Leanne says**

*in which the princesses of fairytales – grown up and living their Happily Ever After – disappear one day, leaving their daughters and sons to save them all.*

Hold it. HOLD IT. So, you're saying this book is about the **princess we grew up with and love?** and we get to see their **children?** Their freaking children!

**Shut the fuck up.**

No. Holy crap. Holy mother of all books! I want this. I freaking want this!

---

No, but really! You don't know how much I want to read this! OH MY GOD! *Their daughter and sons* Do you get me? **their children!**

---

**Cindy ☆? Savage Queen ? says**

---

Delayed indefinitely? ?

---

**Faith M:) says**

Delayed permanently?!? I hope to read this if possible:)
