One night. No strings attached. What could go wrong?

Cooper

I was pretty happy living the carefree life of a successful bachelor. Money to spend, a revolving door of women, no commitment, no relationship troubles—it was perfect. At least, that's what I thought until I held my friends' newborn baby in my arms, and she smiled at me.

That was the moment I realized what life was all about. That was also the moment it occurred to me I needed a baby mama—stat.

So... the hunt is on for the perfect candidate. But first, I might have to have one last fling—you know, go out with a bang. Literally.

Kate

Thanks to making a few wrong decisions along the way, I'm now busting my ass waiting tables while putting myself through college. It's not ideal, but I'm determined to stand on my own two feet and take care of my responsibilities the best I can.

But I'm still a woman. I have needs. I just don't have the time for any kind of commitment. Naturally, when a smoldering hot Marine offers me a no-strings-attached one-night stand, I'm all on board.

Turns out... he wants more than I'm willing to give.

#### **Great read!**

Cinderella and the Marine! Katie and Cooper! Single mother, Katie, has been burned in the past. Baby - daddy ran, judgemental parents refuse to help her in any way. Katie is very hesitant to let anyone in her life. But a one night stand? That's an idea she might go for. And it has been a while...

Marine captain, Cooper, is looking for one last one night stand. Then it's time to find a baby-mama and an HEA for himself. He quickly realizes Katie IS his HEA! Now he just has to hang on till he can convince her!

Very sweet! Definitely recommend!

This was my first book by this author. I now want to go read all of her books! Loved both main characters. I will admit I didn't like the hero at first. As the story progresses I changed how I felt. I kinda feel like I fell in love with both characters as they were falling in love with each other.

I loved Sam too! He was adorable and I thought it was the cutest thing when he called the hero Coopah. Also Katie was an awesome single mom who wanted to best for Sam, but I also think her younger age showed in how she acted. But that is also what made this book so good! The characters were so real, relatable, and loveable. I totally recommend this book! I know I will be reading more of thus authors work!

This is the first book I've read by the author and I have already gotten the rest of them on my kindle. I loved the story between Katie and Cooper but honestly, at times I wanted to reach through the book and smack Katie upside the head!! LOL She's had a rough life and made some bad decisions but she's doing what she has to do for her child. When Cooper comes into her life, they both think one night won't hurt but what happens when Cooper realizes she is what he wants? Love the story and love the characters!!

Tess Summers is a new author to me and I was excited to read this one. I haven't read many in the military genre and I really enjoyed it. I mean, who doesn't love a man in uniform? Cooper is living the perfect bachelor life; successful, carefree, no commitments. But the moment that he holds his friends newborn, his world turns on its axis. As much as he loves the bachelor life, he realizes that he wants more. Then he meets, sweet, sexy Katie and he's a total goner. Cinderella and the Marine was a fun, sexy read that had me cheering

for their HEA.

Cinderella and the Marine by Tess Summers is a great book. This is book four in the San Diego Social Scene series. This is the story of Cooper and Katie. Cooper is a marine and when he visited his friend who just had a baby he decided he was ready to have a child and settle down. Katie is a college student, waitress, and a single mother. They meet after Cooper leaves the hospital and decides to stop for lunch at the diner where Katie works. He had an instant attraction to her but was only looking for one last one-night stand before he settled down. Katie refused to go out with him but after he used his charm on her she caved. Katie has some deep emotional scars caused by her ex and her parents from when she got pregnant. Will Katie overcome her past to let Cooper in? Will one night together be enough? Will Cooper decide she's the one for him? Will they get their HEA? I loved this story but really wanted to smack Katie at times. This was an emotional rollercoaster ride with twists and turns and had angst, romance. This was the first book I read by Ms. Summers and I definitely recommend it. I can't wait to read more from Ms. Summers.

A bit let down with the female MC as she was constantly second guessing herself and deliberately confusing Cooper. It was super annoying. Not to mention I skimmed the last bit because she was so crazy that I felt she wasn't good enough for Cooper. I don't know what he saw in her aside from great sex.

She seemed to have trust issues and she was very uppity, demanding and selfish. And I didn't get why she was that way, her past doesn't speak to her current attitude. She made him bend over backwards to please her and when he didn't she would get mad and threaten to break up with him. She was confusing and assumed he knew what she meant when she said the opposite. Honestly, I felt bad for the guy. I would have dropped her in a heartbeat if it was a guy acting out of pocket like that. And I hated the way she tried to use sex as leverage in their relationship.

Now he was no angel, he didn't listen as much as he should have in the beginning. But I can see why he wouldn't when she was saying one thing then doing another. So I gave him a pass for some of that. But I think he confused sex with love. I didn't feel any kind of depth to their relationship. It was real fast and mostly physical. Not gonna be reading anymore in this series. It's too bad because the first half was decent but the second half tanked.

There were some continuity issues. The first third of the book was good and then the rest felt rushed and off.

### **Joyce says**

Cooper gets his...

How fitting that the womanizing Cooper Johnson falls in love with a woman that wants nothing to do with him. Except what's in his pants. He wants everything with her, the whole package, but Katie has big plans that don't involve a hot Marine trying to sidetrack her. With lots of push and pull, back and forth, coming and going, these two finally get their hard won happily ever after!

### **Pat says**

I found this book to be a very enjoyable read! The storyline was well written, the plot flowed effortlessly throughout the entire book and the characters were strongly written! As I turned each page I felt like Kate and Cooper jumped from the pages and pulled me right into their story as it unfolded!

### **Sharing My says**

4.5 Stars! Cooper seemed like the perfect man. I wish I knew someone like him. Katie couldn't deny she was attracted to Cooper, but because she has been hurt in the past, she was hesitant to get involved with the sexy marine. She has goals and priorities and Cooper would be a distraction. Cooper knew Katie was the one, so he was very persistent. I really enjoyed this book, the first I have read by Tess Summers. Her writing is very good, so I know I will be reading more from her.

### **Ramona says**

Tess Summers' Cinderella and the Marine has the HEA but getting there is a battle for Capt. Cooper Johnson. Finding the woman he wants to share his life with is one thing but proving it to her is another.

Kate Conelly has a plan a wants to stick to it. Even though she finds the handsome Capt charming she just can't commit her all.

You have to read this incredible book to find out if it will be worth all the trouble and how they get there. Would Cooper be my book boyfriend?

### **Gemma Cooper says**

I really love this series. This book is about Marine Cooper who finally feels like he needs to settle down and have a family like his friends. He meets Katie and thinks she is the one but she is very cagey at first due to her living situation And she needs to protect that. The author had written a story that kept me gripped from the beginning to the end and cannot wait for more. I voluntarily read and reviewed a advanced copy arc.

### **Lynn Stifle says**

Great read! It's charming, entertaining and HOT! The storyline is well developed and the characters of Cooper and Kate are interesting and likable. An amazing love story that will keep you on the edge of your seat and wanting for more! This is one story you definitely need to check out, I highly recommend it.

I received an ARC copy of this book and voluntarily reviewed it.

#### **A fun and entertaining romance read!**

This was an enjoyable story of falling in love when you least expect it. Cooper and Kate's character were wonderful throughout the read, their relationship from start to finish was fun to follow especially as Cooper realize he falls hard for Kate. I also loved the secondary characters that support Coopers journey of being more than a one night stand with Kate. One click this entertaining and hot romance read that didn't disappoint.
