Chad Lane

For Him Chad Lane

(Military Gay For You Romance)

Jake Turner is straight - or so he thinks. When he meets the gorgeous William Steel at basic training, he develops a whole load of strange feelings and emotions he doesn't quite understand.

From the very first roll call Jake knew William was different, there was just something about him. After a tough day of exercises the whole unit heads to the showers, and when Jake spots William showering across from him his manhood springs to life. He can't explain these desires - was he gay?

Jake tries to keep his distance from William, not wanting to stir up any feelings - coming out as gay in the military would make his time there very difficult. But when the two are paired together for an overnight training exercise, he has no choice but to face his feelings.

Stationed together in a abandoned wooden hut, with only their body warmth to keep away the cold, Jake will discover exactly what he will do 'For Him'....

TIZZY says

Got this FREE on AMAZON. This is a book but into parts. I might read the rest of the series of they in a bundle deal, or free.

If you like quick, unrealistic, sappy, insta-love-sex, then this is the book for you.

I was very disappointed. I know it is a short story, but I expected it to be fast-paced, witty, and full of action. Especially since it is supposed to be set in a military boot camp. Instead all It was insta-dreamy-love and lots of stomach-churning over dramatic emotions.

There was barely any dialogue. and I mean BARELY ANY TALKING. I couldn't connect to any character because no one spoke. It was almost like a silent film , but in a book. He talks about his squad mates are around him training and having lunch, yet never talks to them or about them. Because in his world, only him and William exist. I wished it was so much more. I wanted kick ass fighting scenes, and gruff man talk.

It was fine. Very quick read. Good for when you want to relax. Or if you're falling behind in your GoodReads Goal.

HaloLove says

An Entertaining Back Short Read!

Wow! For such a short story I was impressed. The story was very well written, the erotic scene didn't take over the story, and even though I was wanting to read more of what Jake and William would go through in basic, I was happily satisfied with the ending. Great short read!

Sarah says

This wasn't very impressive. The writing wasn't very seasoned. There were a lot of misspellings and grammatical errors. It was also pretty naive about boot camp. It's pretty aggressive and the author didn't really portray the setting very well. Oh well. It was entertaining nonetheless.

Discerningcritic says

Oh dear. There's some promise of talent here, but it was flat. Everything was flat. Flat dialogue, characters, scene setting, sex...all flat and all blah. Maybe it was because it was so short, but I can't help but think that's no excuse. There are some great short stories out there that manage to make the story spring to life. This one, I'm afraid, never breathed its first breath and died horribly under the burden of cliches and stereotypes. It's a shame, because as I say, the author is not without talent. There is a style to Chad Lane's writing that is

engaging and accessible, but this story just didn't work at all.

Kallie says

Why do I torture myself with these short stories!?!? I always want more, damn you authors of short stories you're killing me! Lol I really liked the story but wished for more.

Debbora says

This was a very short, but sweet boot camp encounter. I would have loved more of these two MC's. I felt like the author just teased me with the beginning of what could have been very hot 5 star romance. Instead it was 3.5 sweet read, with a few editing errors. The writing was pretty good. I'll keep my eye out for future novel length works by this author.

Victoria says

This was like, so terribly bad. It read bad, all of it was bad.

Adrienne says

Simplistic but full of grammatical errors

This was an okay story, nothing really revolutionary about it though. It followed the basic guidelines of writing a story and it read like an assignment from Creative Writing 101.

I felt like all the descriptions of military manoeuvres was over done and it should have contained more emotions that Jake was going through. I thought that having William's viewpoint included would have been much better than just a constant list of Jake's insecurities and his inconsistent conflict with the protagonist, Jared.

The best part was when I thought they were going to get caught during War Games, that was suspenseful. And I thought Jared mentioning that the Leaders putting William and Jake together was their version of a love match was interesting. There was something there that should have been explored, it could have turned this story into a book with a genuine concept behind it.

Other than that this story felt generic and with all the grammatical errors it was just okay.

Drako says

So, this one is short, and I feel like there should be more to it. It's interesting. A lot of research clearly went

into military training. It's always interesting to read these types of stories. At least this one didn't seem horribly realistic. I just find myself wanting to know more about the couple at the end. I would love to see what happens to these two down the line when they're further in their careers. Still, it's a well written short piece.

Cas says

Okay this book was adorable af! Very cute, decent characterisation, lovely encounters. Overall would recommend.

Elaine White says

I loved this. I've read other Chad Lane books and this one is just as good. I'm becoming a real fan. There's absolutely no scrimping on plot/character/emotion. And thank god it's not all about the sex either. I love the journey in this book. I just wish it had been a billion times longer. I could read about these two forever.

Great action, on and off the battlefield.

Ricardo says

Entertaining, fast-paced, not overly sweet

Katrina Passick Lumsden says

Like most freebies (and Chad Lane books) this just isn't very good.

Tonileg says

Military M/M romance with a gay-for-you theme.

Jake Turner likes girls, but when he enlists into the Army and meets the sexy smart William Steel at basic training, Jake has to rethink who he is. Although this isn't so surprising as they are both just out of high school and are just figuring out what 'normal' is for them.

Very short and vanilla sexy time which makes sense because they don't ever have any alone time. Cute short story and I would have liked more character development because a HEA doesn't look possible for these young men.

2 stars

joani says

Really hot

This attraction shared between William and Jake felt so real and exciting to explore. There really isn't any boundaries when two people feel that same pull of attraction, male or female. You are who you are and love who ever it is your meant to love. when you see it that way, then you realize how beautiful it is.
