Ryan Ashburner says

Poems are humorous and quirky, some full of inspiration. His love poems redefine romance, or as he might say, re-brands it. He fuses modern internet lingo like smiley faces and "lol," following a partly established internet voice in writing. Daring, he challenges conventionally written language with conscious misspellings and he unabashedly admits to liking heavily scrutinized and heavily criticized musicians as well as other celebrities that many would not admit to enjoying. He embraces the selfie, and shows it! A dedicated poet on a mission and motivated to boost others. I have deep respect for this aspect. I have great respect for this poet.

Melaladi says

The poem Truely, Madly, Deeply is one of the most incredible poems I've ever read. This whole book is a mixture of poems, somewhat stream-of-consciousness (but interesting, funny, or inspirational) prose sections, and, of course, selfies. Excellent book.

Chris says

well i guess im an ass hole because i only like the moon a lot

Jonathan Lee B. says

If You Dont Love The Moon Your An Ass Hole is speed dating at a Crystal Castles concert.

Nick Douglas says

Steve's work is more compelling on video, but these poems still have his new-sincerity motivational energy.

J.W. Wargo says

Amusing and sometimes hilarious poetry. I like his style but his topics feel repetitive. He's at his best when writing about kissing. His selfies are cute. Boost.

Simon Sweetman says

Mad and fucking stupid and weird and then sometimes strangely so spot on and very 'now'. I kinda loved. And hated myself just a bit for loving it.

Scott says

I read this every few months on the toilet. It's a pretty good place to be alive.

Susan says

I found this little book quite refreshing.

Brooks says

"Godspeed You Fricked Up Emperor"

Wim says

grappig boekje

Peter Daniel Berg says

too preachy

Amy Abelein says

fabulous.

Joy says

Steve doesn't write like any other author I have read, which is what I enjoy most. His sentences are chaotic yet deliberate. This is a short read that took me two years to finish. It is worth taking one's time even though you could rush through it ... you would miss the intricate details that pull on the attention. I wish him much success.
