I really loved this book. Journey is the kind of novel that once you start reading, you just can't put it down until the end. That's why I read it all in one evening. It's simple to read yet entertaining. You can easily relate to Jane's character no matter what age your are. And all the Canadian references makes reading the book even more interesting. I definitely recommend this book to everyone who enjoys reading. G. Rossignol

I won this book from a GoodReads Giveaway contest. From reading the back cover of this book, I wasn't really expecting much. Once I started reading I honestly couldn't put it down, it totally took me by surprise. Yes the story line is quite simplistic, but that's why I loved it so much. It was a very quick read which I also enjoyed because I could get through the book quickly yet still read the story at a good pace. I especially loved that it was Canadian and all the Canadian references as well as the modern references. I also felt that I could connect with the main character Jane, who happens to be the same age as me. Near the beginning where she mentions the parts about waiting for the right one and her list, I really liked that. Overall I really enjoyed this novel, it has the perfect amount of romance that kept me smiling. I definitely recommend this book to readers who enjoy simple, teen, self-discovery, romantic-type of stories. I can't wait to start reading the second book in this series!!! G.
