Libris Mortis: The Book of the Undead

Andy Collins , Bruce R. Cordell

Libris Mortis: The Book of the Undead Andy Collins , Bruce R. Cordell

An art-filled sourcebook about undead in the D&D world.

This title takes a comprehensive look at undead creatures and characters in the D&D world. It includes information on playing undead characters and how to run or battle undead in a fight. There is new information on traditional undead creatures (liches, zombies, and so on), as well as new monsters and information on customizing monsters to any adventure. There are new rules, feats, spells, and prestige classes, as well as ready-to-run undead characters for instant play. Extensive story and campaign elements and flavor information add interest and dimension to playing or fighting undead. The book itself will be designed in prestige format, with heavy use of art throughout, a full-painted cover, and construction from premium materials.

Blake says

I liked it, but I can also see how many of the rules could be quite limiting in the wrong campaign.

David says

A pretty typical themed sourcebook, this one around the undead. It has sections on roleplaying, undead as characters, new feats, new prestige classes, new deities, new domains, new spells, new items, and even sample locales. While there's "new" of everything, nothing particularly stands out for me. A few spells and feats were interesting, but that's it. Would've liked to see more on roleplaying an undead, undead-centric campaigns, and plot hooks revolving around undead.

Daniel says

Alright source book I will be converting for use in my Pathfinder campaign, which right now has a lot of Undead.

J Leif says

Love this 3.5e book. Plenty of options for both PCs and DMs. Chock-full of both sweet mechanics and flavor. Received this one for Christmas and enjoyed going through it for a fourth or fifth time. Well worth the investment for any campaign in which any undead will be present.

Dustin says

The Undead Sourcebook for d20. I'd recommend picking this up for your game.

Emily says

A most excellent splatbook, if you like undead-focused campaigns. Which I do. Clerics forever! Lots of good prestige classes, even if they're a bit underpowered according to my munchkin friends.

SSJKailan says

A good book with plenty of interesting new prestige classes and monsters. Useful if you are playing a campaign with lots of undead. I especially liked the dirgesinger and true necromancer prestige classes, although the others are cool too. I did think the parts on undead psychology and society could be expanded though, since it would have been cool if this went into more detail.
