## On the Clock L.A. Witt , Aleksandr Voinov

When Blake Raleigh's favorite rentboys retire from Market Garden, they're sure their friend Jason will be a perfect replacement. Though Tristan and Jared are a tough act to follow, Blake returns to London to test out their recommendation.

Jason is right on the money. Negotiations turn him on. Getting paid turns him on. The higher the stakes, the hotter things get. Each trip to London is more expensive than the last, and the webcam sessions don't run cheap, but Jason is well worth the sticker shock.

The more time they spend together, the more Blake wants, and not just sex and transactions. But Jason's been burned before by men who thought they were in love with him, and he's not making that mistake again. When the lines between personal and professional start to blur, it's going to take more than money, jewelry, and sports cars to keep Jason from clocking out and walking away.

## From Reader Review On the Clock for online ebook

**L.A. Witt says**

Yes, folks -- it's ROLEX's book! :D

MLE says

I received this book as an ARC though NetGalley in exchange for an honest review.

I took me a little while to get into this book, and I'm not quite sure why. I think I was probably in the wrong mood when I started, but, once I got into it, I was hooked. The characters were interesting, and fully developed people. I loved their interactions, both sexual and platonic, and I loved that their connection wasn't simply physical. I loved Blake's and his respect for Jason. He never looked down on Jason, and always treated him like the professional he was. I really liked his thoughts on the business aspects of Jason's work. I really liked Jason as well. He was smart, and funny, and I liked how much he enjoyed his work.

The sex in this story was particularly steamy, and I loved how Blake's voyeurism kink worked into the story. I also found his attitude towards his own jealousy to be refreshing. I loved the humor in this story. I found myself reading large parts of it to Elspeth because I loved it so much. It really made me laugh, and I loved how it worked into the main plot of the story. It helped me buy into the developing relationship between Blake and Jason.

The ending was well done, and it fit both character well. I was glad that the authors didn't play into what might have been a typical ending for these characters, and instead wrote something that was much more honest for these two. It made things feel much more like real life and a lot less like *Pretty Woman*. One of my new favorites of the series.

## **Optimist ?King's Wench? & MANTIES Champion says**

**THROWS SINGLES AT BOOK!** Excuse me. These are high dollar peeps, so \$5.

WOOOOHOOOOO!!!!!!!

HOT BOOK IS HOT!!!!!!!

Do I believe that Rolex and Jason have what it takes to go the distance?

Do I care?

---

**Lisa \*-\* GiViNg It To YoU \* LoCk StOcK & TwO SmOkiNg BaRrELs says**

\*\*\*\*3.75 MaRkEt GaRdEn StArS\*\*\*\*

*When I think of Market Garden, I think Soho, me sitting outside a coffee shop* , letting my crazy mind run wide imagining the boy's that walk by, could possibly be one of the boy's that work at Market Garden; and that guy in the suit stepping out the back of that car could be Mr Red Tie Guy or **Rolex.....yeah, yeah, yeah leave me in my bubble...it's damn fun in my mind.**

**Jason** ~ (This guy here, happens to be a close friend of mine – swoon – he makes such a perfect Jason I couldn't resist.)

Ok, at last Rolex's story, **I always wanted to know what made Rolex tick (excuse the pun ~ lisa shakes head laughing)** well I know he has a panache for a bit of voyeurism, and Jason our lastest character from MG didn't disappoint with the entertainment in that department.

**Rolex enjoying abit of voyeurism**

**Rolex is back in town**, and looking for some company, when he's two favorite rentboys retire from Market Garden, they're sure their friend Jason will be a perfect replacement.

**Blake Raleigh aka Rolex**

**Jason**, blonde, hot, chisiled features.....is right on the money.

**Nothing turns him on more, than negotiating and being paid for sex. The higher the stakes, the hotter things get**...and Rolex being the high roller he is.....is the perfect john to have fun negotiating with.

**Have I mentioned the sex? Oh the steamy sexy, ménage sex, on the top of a car sex, the skype sex....ooh la la....it was all here and very nicely done, at that.**

When the lines between personal and professional start to blur, it takes more than money, jewellery, and sports cars to keep Jason from clocking out and walking away from Rolex.

**Personally, I felt “rawbbed” that we didn't get Jason's POV**, I would have loved to have got in his head, as I really liked him, that's my only criticism. Otherwise another good collaboration between Witt and Voinov.

**Clock in....and have some fun...catching up with the boys from Market Garden.**

---

**Lena♥Ribka says**

I am/was a big fan of the series, but this one felt different comparing to the other sequels. Like it was written not by the same authors. Maybe because it has been already a while back when I read the book #7. It was hot, as always, but it was a bit boring either. Maybe because Rolex has never belonged to my favorite characters. I wasn't really connected to the characters and I couldn't buy Jason's attraction for Rolex. But if you want a lot of hot sex(I mean A LOT OF), and you read all previous books in the series, you shouldn't miss this one.

---

**? BookAddict ↗ La Crimson Femme says**

**This is a BITCH BUY ME NOW BOOK**

Wow, I devoured this book in a frenzy like a hamster on crack. I shed a tear like a drama queen. This is how I felt about the erotic sex in the book.

L.A. Witt and Aleksandr Voinov, I only have one thing to say to you.

There were so many supernova hawt erotic scenes in here that I can only respond in this way...

Now for the serious review. Rolex high roller who turned us on by paying Tristan and Jared to perform for him is back in London from the States. He is in Market Garden, looking for Jason - who was referred to him by the erotic duo. Rolex turns out to be the sweetest guy, Blake Raleigh. He's a self-made man who willingly drops money to have Jason at his command. Or is he at Jason's command?

The sex in this is amazing. I'm turned on and want to be there watching in person. The dialog in this story is phenomenal. The body language is off the charts. My panties are sopping wet after reading scene after scene of negotiated sex. The threesomes were amazing. Can I just say, Jason in the middle fucking whilst and fucking himself is one of my all time favourite scenes. The dynamic duo authors paint a vivid picture leaving no doubt in my mind that they know how to make a person melt on the spot. Enough about the sex! I don't want to spoil it so y'all are going to have to read it.

The character development in this story is so good. I'm sucked in and I fully invested in the Blake/Jason relationship. I want it to work out so badly. \*sniff sniff\* The two characters are comfortable in their skins which is what makes this book so good. They are likeable people who are honest about their desires. Their kinks are fun and so bloody delicious to watch. When they become more than john and rentboy, spending time as friends, it's where my heart is pulled in and I really pray for a happily ever after for them. This finale is breathtaking. My heart is beating just as rapidly as Blake's as he rushes to Jason. I'm biting my nails wondering how the confession will go. I gasp in pain at a scene. I had to read it several times and when it finally sinks in, I scream... "NOOOOOOOO!!!!!" \*shakes fist in the air and weeps quietly into my blanket, curled up on my sofa\*

The ending is beautifully done and it leaves a nice opening for another book. \*glares are the authors... there is another book with these two, right?\* Ms. Witt and Mr. Voinov do a spectacular job in this long awaited book in this series. I thought the series finished at seven. Happily the perfect eight shows up to take my breath away. Highly recommended to m/m readers who love sexy men burning up the sheets.

### **\*P\*u\*r\*p\*l\*e\* Masochist says**

~ Arc provided via Netgalley in exchange for honest review ~

#### **2.5 stars**

#### BEFORE READING:

**Blake a.k.a Rolex is here!!! \*Purple is happy\***

#### AFTER READING:

*This review is posted on Way Too Hot Books.*

**Rent-boys** were never the characters I prefer reading about. In fact this is the only book series I read and enjoyed with them as the MCs. The main reasons I even gave these books a shot were:

- ~ A. Voinov being one of my fav mm authors
- ~ the series started out as short, fast-paced, fun and way-too-hot stories with book 5, 7 and now 8 being full length novels (around 220 pages.)

I had my doubts when I saw that book 5 and 7 will be full-length novels, because **sex takes a major part of the plot** and that can easily become boring and repetitive for me if not done right. Those type of stories were usually a hit or miss in my reading history, but luckily I ended up enjoying both of those books. The short stories with Tristan, Jared & Blake a.k.a Rolex are my favorite among this series, so since in this installment we finally get **Rolex' story** I was positive that I'm gonna love it, **BUT** I was wrong.

### ~ 3 main reason why I'm disappointed with this installment:

**Reason No. 1 :** Who are you Blake and what have you done with Rolex??? I don't know about you guys, but after reading those short stories I obviously had a totally another picture of Rolex than this version of him we got in this book. I imagined him as this cool, sensual, provocative, confident and a bit bossy dirty-talker who knows what he wants and how to get it and not this confused, quite insecure and regular guy he turned out to be. The whole time I was like: Seriously, this is the famous Rolex? O.O

Btw. to be honest, I wasn't overly impressed with **Jason** too. He was fun and all, but since the whole book is written from Rolex' pov, I feel like we kind of didn't get to meet Jason that good, at least not outside the bedroom.

**Reason No. 2 :** Where is the chemistry??? I don't know, maybe it's because I couldn't quite warm up to the MCs til' the very ending of the book, but I wasn't feeling any chemistry or sparks between them since the moment they met, and that's why most of the sex scenes (and there were ~~too much~~ a lot of them) or even more emotional moments felt pretty impersonal and the ending with some sappy statements pretty unconvincing.

**Reason No. 3 :** So, that's it??? This refers to the plot of the story which was, aside some parts, quite plain in my opinion.

**The writing was good** as always and there were some parts I've enjoyed, like f.e. the scenes when Tristan and Jared showed up and later on Zach and Raul, but basically that's it. Maybe this was the wrong book at the wrong time, maybe my expectations were too big since this is the story of my fav Market Garden sugar-daddy Rolex or maybe I had my fill of mm romances with rent-boys and it's time to move on, but I just wasn't feeling this story or the characters it revolves around.

I expected this installment to end up being my favorite of the series, but sadly, it ended up just the opposite. Either way, I've seen and read a lot of positive reviews from the majority of fans, so I guess this is one one of those not-my-cup-of-tea reads.

### **Sunny says**

3.5, rounded up

I should really have a 'steamy hot' shelf...

...done

---

**aksana - 4 - 8 - 15 - 16 - 23 - 42 - says**

3.5 Stars

---

**Heather K (dentist in my spare time) says**

\*3.5 stars\*

I'm a huge, HUGE fan of the Market Garden series, with my favorites of the bunch being Nick and Spenser's books. I think I had some crazy high expectations for Rolex's story and though this one is sexy like you'd imagine from a Market Garden book, it isn't quite the revelation that I was expecting.

**Anyone who has read a book in this series knows Rolex. Super high-roller who loves to watch others get it on ring a bell?** I was waiting to get to know the man behind the watch, and I was really curious how L.A. Witt and Aleksandr Voinov would portray him.

This book is told just from Rolex's (aka, Blake Raleigh) point of view, which I ended up feeling was a bad move. While I enjoyed the mystery behind just seeing Blake's POV, I also didn't feel like I got to know Jason, emotionally.

**Jason is a rent boy who LOVES his job. The reason? He has a money kink.**

That's right, a money kink. Getting paid for sex is a huge turn on for him, and the more money he gets, the more he gets turned on.

I liked Jason but I didn't feel like I got to know him at all. Part of the problem was not getting his POV, and part of the problem was that the story felt too short to develop the type of feelings that this book wanted from us.

**Though this book lacked in the relationship development department, what it didn't lack for was sex appeal. Holy. God.**

I think I popped one of my kink cherries in this book, at least, I've never read this particular kink in my memory. (view spoiler) If you are a fan of strictly monogamous sex between MCs, this book really isn't for you.

While this book delivered on the heat factor, it might be my least favorite book in the Market Garden series, which isn't saying that much because I think I average over 4 stars for the series. Though I wanted a bit more from this one, I think most fans of this series will still be pretty pleased.

### **Tina says**

3,5 stars.

Loved every installment of the Market Garden so far and couldn't wait to get my hands FINALLY on Rolex's story.

After reading though I feel kind of cheated. For me On The Clock wasn't as good as the previous books. I can't put my finger on it... but it felt different, it didn't feel like other books written by the successful author duo Witt & Voinov.

Blake aka Rolex was a nice character, I loved to get to know him better... but I couldn't feel any connection to Jason and why the successful rent boy even fell in love with Blake. The chemistry between those two just didn't feel right.

As always the sex scenes Witt & Voinov deliver are sheet burning hot. The story itself left me unsatisfied, though. I craved a bit more than hot sex...

All in all it was a okay read but no match for the previous books.

---

### **J \*deep in the heart of Texas\* says**

#### **3.5 Stars!**

Well...this one was rather porn-y, I must say! Not much in the way of character or relationship development.

But it was definitely hot, I'll give it that.

I never really felt much of a connection between rent-boy Jason and his john Blake. Even up until the end I felt like Jason was all about the money.

And then when the "I Love You's" started flying....

Yeah, you lost me. So basically 3.5 stars for the steam factor.

I may go back and check out some of the others in the series, maybe I would have connected more to this one had I read the others.

---

### **Adam says**

I'd been looking forward to Rolex's story since reading his hot-as-hell adventures with Jared and Tristan.

I was all over the set-up. Rolex, real name Blake, doesn't mind throwing around tens of thousands of dollars for some hot sex, and high-end rentboy Jason gets off on negotiating selling himself. They made a good pair in the bedroom.

And yes, this book definitely delivers in the hot sexin' department. Extra points for delivering both a threesome *and* a foursome.

But that's all there is here - sex. I felt like this 200+ page book was just a series of sex scenes strung together, and I was hoping for more.

There's little to no character development, and the relationship development is just as wonky. The ending is a very tentative HFN, if that. In the real world, I'd give Blake and Jason a few weeks tops before they called it quits.

I think this series works better as shorter installments, like Tristan and Jared's story, and Nick and Spencer's. I haven't enjoyed the full-length books like I did the shorter ones, mostly because I expected them to have more substance. Or maybe I just read this at the wrong time.

However, if you're in the mood for lots of hot sex and are okay with an ending that definitely isn't a HEA, 'On the Clock' might be for you.

---

### **Lelyana says**

**\*\*\*5 'HAIL MARKET GARDEN BOYS' STARS ! \*\*\***

**IN THE NAME OF ALL THAT HOLY.**

**HOLY MOTHER OF SIN!**

IF I'M GOING TO HELL BECAUSE OF THIS, I'M SO DEFINITELY WILL DRAG Aleksandr Voinov and L.A. Witt'S CUTE ARSE FOR THIS !

I MADE NO MISTAKES WHEN I CHOSE THEM AS TWO OF MY FAVORITE AUTHORS.

When they're writing 'clean romance', it's obviously clean. When they're writing sins(Yeah, you heard me!), they write **SINS. IN CAPITAL.** And I freakin' loved it.

The combination of Blake, Jason and some \*additional player\* will leave you hot and bothered. Just keep you AC on and read it ALONE. Because, these will happen to you!

## **GOT THE HINTS? \*SMIRK\***

Market Garden is one of EPIC series I have ever read, and loved, and obsessed about. Blake Raleigh (Phew! Glad Rolex is finally has a name), is one of my favorite perverted, voyeur, hottest patron in the world of sinners.

And the combination of Blake and Jason (the most expensive prostitute in Market Garden), was **LETHAL**. And Jason is definitely **WORTH** every penny Blake spent. And I'm telling, when I said Jason is 'expensive', he's **REALLY** is expensive. (view spoiler)

Intermezzo (True Story) : When I finished this book , I went to shower (of course...eye rolling), and I put some shampoo on my hand, and I shampooed MY BODY, not my hair! I didn't concentrate of washing my hair FFS! I was still thinking of THEM. Damn. (Don't laugh. You'll be in my position later. Seriously) Somehow, I found this one is very classy ?

*Prince Charming may have been able to awaken Sleeping Beauty, but Jason's kiss could bring a half-dead businessman into the correct time zone, wake him up, and give him a hard-on. Disney, eat your heart out.*

Just imagine, if his kiss taste 'like that', no wonder Jason had become Blake's new religion. Ha ! This book should come with warning, it's a total E-burning and you can not read it in public or with people's around you and prepare a cold shower after. Remember , shampoo is for your hair, not to wash your body (facepalm me).

Five stars for for the whole series, and this one I was easily became my favorite.  
The ending was HFN , but it was reasonable, and I think somehow, Blake and Jason will work it out soon after this. Burn so many bridge and all.  
Recommended it highly!  
Read this in reading order, to get to know who's Blake as Rolex before Jason. You won't regret it. Aleks and Lori wrote it's best in this series.

**Allison ♥?Will Never Conquer Her TBR♥? says**

**3.75 Hawt and Spicy Rentboy Stars KNOCKED DOWN TO 1 STAR FOR AN AUTHOR BEHAVING BADLY.**

Below is my complete review. It was originally rated FOUR Goodreads Stars. I chose to round up versus down because I loved this series in general. In the comments section is the author's unprofessional behavior when I tagged him in a post on my blog to PROMOTE his book.

My original UNedited review-

On the Clock, book #8 in the Market Garden Series, was one I highly anticipated. It's no great secret my love for escort books, but couple that with the MM genre and I'm hooked!

I'd read the entire **Market Garden Series** last year pretty much back to back. Each and every book revolves around a different rent boy in this gay brothel. The series is seriously hawt and the writing style of both Witt and Voinov flows seamlessly. Some of the books have light BDSM (which isn't typically a favorite of mine in MM) but it's done very well. But holy smokes- the steam factor in this series is off the charts!

**On the Clock** depicts the wealthy American businessman, Blake, who comes to Market Garden and meets up with Jason. Blake had cameos in Tristan and Jared's book and is nicknamed *Rolex* among the men at Market Garden. He's rich, powerful, and loves to be a voyeur in the activities within the brothel. When Tristan and Jared leave Market Garden, they referred Blake to a ~~fine specimen of man~~ rent boy, Jason.

I enjoyed the very slow build between the two of them. Blake has the money to pay for virtually anything and Jason just happens to get off on money, on negotiation for this and that FOR money. The entire book

was back and forth negotiations, trying to tow the line of escort and john when gradual feelings keep trying to creep in.

I do have to say, the constant focus on money/babbles for this service and that doused the flames a bit for me. I wish Jason would've been a bit less greedy. I understand his kink for it but it seemed to take practically the entire book for him to be with Blake ~~pro-bonēr~~, I mean pro-bono. It distracted me from the love story and regardless of my desire for that angsty build I demand in my MMs, I wish he'd caved a bit earlier. But everything was for a price, it seemed- negotiations.

I also was a bit put off that Jason didn't seem to mind one bit sleeping with other johns. I'm a romantic at heart and I get that he was a rent boy to start with but a little indecision on his part before rushing off with other johns when Blake goes back to the States would've made me *like* him a bit more.

But regardless, Voinov and Witt are a sexual powerhouse within the MM genre. Whenever I see a book released from this duo, I must read it pronto. It's been a while and I'm happy they decided to join forces again. I'd highly recommend Market Garden Series for those MM fans that like a heavy dose of steam with their stories- and fans of escorts!

*Advanced copy received by Riptide Publishing via NetGalley in exchange for my honest review.*
