Overcome Kitty Hunter

Warning: This book contains erotic, BDSM content between one red headed BBW woman and the two Doms who introduce her to the pleasures of m/f/m menage. The language is graphic, and the sex scenes are plentiful.

Twenty-two year old Ronnie Joye is woken by the sound of her roommate entertaining not one, but two men. Self-love leaves her unfulfilled, but Dom Luis intercepts her in the hallway and gives her a taste of what she's been missing.

Luis Cortez invites Ronnie to Hidden Pleasures, a BDSM club and introduces her to his best friend Gavin Firestone...and the joy of submitting to them both.

Plenty of sex without a lot of plot going on here. I think this is the perfect example of a bdsm book gone all kinds of wrong. Just to name a few its issues, it had no negotiations, no condoms at one point, and no real depth to any of the characters. Needless to say, I will definitely not be continuing this series.

Sol Belenda says

Es el primer libro que leo en el que la trama se basa en un trío que practica sado-masoquismo (todo eso de la sumisión y dominación) y.....no estuvo nada mal. La verdad es que pensé que no me iba a gustar.

Es la primera parte de una serie de libros, cada uno de los cuáles nos introduce en el mundo de este triángulo amoroso.

Pero así como me gustó, también tengo que hablar sobre lo que no estuve de acuerdo:

*Ronnie conoce a Luis porque el señor estaba "dándole duro" a su amiga. WTF?! O sea, no da que las dos amigas se hayan acostado con el mismo hombre y menos las dos en la misma noche.

No soy partidaria de los tríos -me gustan las relaciones monógamas- pero admito que me resultó atractiva la historia.

Creo que a pesar de que la protagonista comienza a salir con los dos, en realidad tiene una predilección por Luis -o por lo menos eso me pareció-.

Les dejo a su criterio leerlo o no.

Emma Lindhagen says

A steamy setup and some very hot scenes. However, if there was a bit too much "grey area" going on in terms of consent and safety, very blurred lines between playing and not playing, pushing for things to happen even while saying the sub was free to choose etc. It didn't seem like the sort of thing an experienced, responsible dom would really do so it squicked me out a bit.

Hmm I want more.

Ronnie's roommate Shea brings home two guys from the club and the voices and commands make Ronnie purr

with excitement. One of the guys she runs into in the hallway and he introduces her to her first taste of his domination and how freeing it is to submit to him.

So look forward to some sexy domination, anal play, rough sex, titty f*cking, spanking (few slaps nothing full) and a menage with Luis and Gavin.

A wonderful freebie from B&N that left me wanting more..ohh so much more. I can't nail down why I enjoyed this as much as I did but I really liked it.

Buffy Kennedy says

This book is all about raw sexuality. It's very explicit, complete with dirty talk, but that can be a good thing, and the story doesn't lack emotion. The initial scenario is pretty awkward, but it works out and I loved the second half of the story at the club. It was all very sexy with a sweet ending.

If you're looking for a raw, quick read that is very hot, but leaves you ready for more and has a relatable heroine, don't miss this short story!

Bianca Alexander says

This is a fun, raunchy book with loads of hot sex. The opening chapter makes it clear that Hunter is pulling no punches, and that readers are in for a wild, dirty time from the get go.

Readers should not go into this book expecting rich relationships, or elaborate plots. The point is to be a quick read full of unbridled naughtiness. If anyone is looking for a really dirty read to tide them over for a day or two, this is the book for it.

hot!

I didn't realize i'd already read this and had no recollection of my thoughts on it so I started from the beginning. And promptly quit at a stranger who'd just had sex with heroine's roommate just strolling into her room, invading her space, and saying things that were rapey since they were total strangers who'd never exchanged a single word. so yeah...dnf

Obsessed says

It's a bit implausible and impractical, but I quite liked it. Very, very hot!

Storyline got better as you go along. i appreciate a good love story with BDSM, hawt sex & a HEA! This book/novella's have it all. i was unsure after the first chapters. i'm glad i bought them all. i could definitely read more from Luis, Ronnie & Gavin. Two sexy Doms, one softer able to show His heart, one a bit harder, rougher with His actions, one new, natural submissive eager to learn about herself & willing to let the Doms teach her. The club is not very realistic. There isn't usually random sex scenes going on. Maybe at a Swingers club. i think Luis would run His a little different. i would be interested in reading about more couples.

Keema Osborne says

This seems to be the beginning of a good story between Luis, Veronica and Gavin. I must say that introductions and communication is the bases of any healthy relationship. I gotta admit they have that so far. Can't wait to see how their relationship progresses.

Short, but sizzling book!

A??ela W. says

This was a short quick read and had it been longer I would have given it 5 stars. Ronnie found her inner sub and gave up her inhibitions to two Doms. This book started with Ronnie listening to her roommate Shea having sex with two guys after getting hot and wet and using B.O.B she runs into Luis and out comes her sub. This was my first time reading this author and this was the first book in this series and I hope that the rest of this series is as hot as this book.

Shelby says

So I know that this is a case of a series of interconnected shorts all expanding off of this original short. I'm not sure whether I'd give another shot to this one though. There was too much absurdity in the way these three came together. And frankly there's a difference between a submissive and someone with no backbone. Ronnie seems very much to be of the later variety.

PWP rarely interests me and maybe there would be something to redeem this in later stories, but there's no explanation of the history between the two guys and where their need to get a girl for the two of them came from. Not to mention that the only explanation to why she should cave to their whims because she knows

them by their introduction of name and age. Like that should be perfectly wonderful and swoon worthy. Ugh.
