Hidden Star - 2/5 - This whole trilogy was easily forgotten for me. I know I read it - heck I still have the books, so I had to skim through to remember most of it. I don't like amnesia stories and this is one. The heroine is TSTL for certain. Why would you mail - that's right, snail mail, priceless diamonds that people are trying to kill you for to your friends? First of all, the insurance on that package must have cost a fortune. Second, congratulations, you've just gotten your friends killed. Some friend she is. Cade is a great hero, but he's rather undeveloped. The focus in this story is in establishing the trilogy and Bailey's amnesia. I didn't hate it, but I've read better.

Captive Star - 3/5 - Jack and M.J's story was much more enjoyable than the first in the series. The suspense was better for one, as Jack, a bounty hunter realizes that M.J is not really a criminal and that people are trying to kill her for the diamond her stupid friend sent her and they spend their time dodging the bad guys, hiding out in a cabin, etc. The romance is also pretty great. And of course, the characters were much more likeable. Jack is a wonderful hero. MJ is overly stubborn and irritating at times, but it doesn't get in the way of my enjoyment. I must admit though, that in the long run, this was a pretty forgettable book. It doesn't stand out, but it is entertaining.

Secret Star - 2/5 - Tied with the first story for my least favorite of the trilogy. Grace isn't TSTL at least, but she's almost worse. She's cool, calm, collected and not afraid to use her body and her looks to get what she wants - but she has a vulnerable side of course. This is my least favorite character type that Nora Roberts writes. I like a strong, confident heroine, but I don't like it when they're manipulative, calculating and willing to use sex as a means to accomplish something. And Grace comes a little too close to this for my tastes. She has her good parts and what not, but I just couldn't identify with her nor really sympathize with her. Buchanan, the hero isn't bad, but I can't understand him. Why do heroes fall in love with heroines they don't

respect? Sure the respect comes eventually - but he finds himself falling in love with a woman that he barely knows and who he's been thinking the worst of all this time. The suspense in this book is definitely the best part. It wraps up nicely (even though the whole premise of mailing priceless diamonds was a bit ridiculous) and there's plenty of suspense here. I just didn't like the characters or the romance that much.

One of my favorite trilogies; suspenseful, exciting and romantic. Nora Roberts has a wonderful way of making her characters come alive.

#### **Nora Roberts does it again!**

I chose this rating because all three of them were fantastic. There wasn't a moment when I was bored. I think anyone who is a romantic at heart and loves mythical stories will love this trilogy as much as I did.

#### **Nora hits another home run.**

Take three strong willed women and 3 enormous blue diamonds. Follow them through love, murder and despair. Their lives will keep you spell bound, turning the pages faster and faster to see if they win in love or if the darkness from their dreams shatter them.

Enjoyable, fun read, Nora's style.

The kind of book you want to read while feeling down, or when you're on vacation, or when it's a bad weather and all you want to do is snuggle up on the couch and read while drinking hot cocoa and watching rain drops.

Characters were, mostly, relatable. Three very different women who are, in the same time, the very best of friends, find themselves separated and in danger because they're in the possession of Three Stars of Mithra, the mythical diamonds, that are believed to give power and immortality to the one who possess them all. That's when the "adventure" starts. Love on first sight, journey of finding yourself, a story of love that can defeat all the obstacles, good vs evil.

Classical Nora.

The writing is good, overall and keeps you interested, enough to want to finish it in one sitting.

It's just too predictable, she never gets out of her conform zone.

Hence, 3.5 stars.

I was disappointed by this actually. I usually enjoy Nora Roberts, and I did enjoy the first and third in the trilogy, but the second I wasn't a fan of.

In the second book, Jack the bounty hunter gets a job to bring in MJ O'Leary. He turns up, and after fighting with her and a few other blokes who turn up at the same time, he takes her to bring her in. After feeling like there is more to this situation than just bringing in someone who's skipped bail, he discovers she's actually a victim too. So of course, he then proceeds to kidnap her, handcuff her to first the car then the bed in a dodgy motel while they're on the run, and NOT LET HER LEAVE.

So of course, after fighting constantly while they're 'on the run', (AKA him KIDNAPPING her), they fall in love. He CONTINUES to keep her handcuffed until he's sure she won't leave, but of course then once he stops tying her up, she falls in love with him.

So lets recap.

He attacks her (in fairness, she attacks back)

He kidnaps her

He refuses to un-handcuff her, despite accepting her offer to pay him to find her friend

They fall in love. Because see, he's really a nice guy.

Nope, sorry, can't do it.

Lorsque j'ai eu l'occasion de lire cette intégrale, je n'y ai pas réfléchis à deux fois, j'ai foncé. J'ai toujours aimé la manière qu'a Nora Roberts d'écrire, elle mélange frisson, thriller et romance, pour moi, d'une manière parfaite.

Lorsque l'argent est en jeu, on ne regarde pas à qui doit être écarté, voir éliminé.

Virginia est au centre de cette intrigue, tout démarre avec elle. En tant que gemmologue, elle devra authentifier trois diamants pour le moins célèbre, ces diamants valent une fortune séparément, mais ensemble, ils forment l'e triangle de Mithra. Ensemble, ils donneraient l'immortalité d'un Dieu.

Lorsqu'elle découvrira les intentions de ses demi-frères, elle va prendre les devants, sans penser que son geste aura des conséquences funestes et meurtrières.

Les rebondissements qui rythment cette aventure, font tourner les enquêtes en bourriques, dès que l'on pense toucher le but, un nouvel indice vient tout mettre en pagaille. Une véritable pagaille, voilà ce que le geste de Virginia va faire. Tout ce qu'elle voulait au départ, c'était protéger les trois diamants, et non mettre en danger les deux personnes à qui elle tient le plus au monde, ses amies Stella et Diana.

Une intrigue bien ficelée accompagnée de romances et de moments érotiques qui me font dire, encore une fois, que Nora Roberts mérite amplement son succès.

Iniziamo col dire che non mi è piaciuto. Non so perchè, ho letto altri libri di Nora Roberts e mi sono sembrati molto più belli di questo. Mi è sembrato tutto così assurdo in questo libro. Per carità, la storia è intricante e bella ma surreale, troppo precipitosa, fin dalle prime pagine. Io credo, che sia stata impostata male fin dall'inizio, se magari questa specie di Investigatore Privato ribelle (che sarebbe uno dei protagonisti) ci fosse andato con i piedi di piombo, la storia sarebbe stata ben diversa, a mio avviso.

Non è scritta male ma ha molte note stonate e vi spiego perchè. La storia ci introduce con Cade un giovane ricco che tenta di ripudiare la sua famiglia e si mette a fare l'investigatore privato, perchè non ama essere imbrigliato in tutte le forme di cortesia che sono obbligati a compiere i suoi familiari e fin qui tutto bene. Arriva però, di punto in bianco, questa donna comparsa dal nulla senza storia, ne ricordi e si affida a lui per cercare di ritrovare la sua memoria perduta ...e lui che fa?! Si innamora all'improvviso, se la vuole portare a letto, se la porta a casa sua e la fa vivere con lui . Mio Dio, per favore, mi sembra una cosa talmente fuori luogo che ho odiato questa situazione. Ma sicuramente... qualcuno di noi appena vede un bell'uomo e una bella donna, pensa ciò che deve, ma di certo non si mette come un tappetino a rincorrere una persona che non conosce nemmeno la sua esistenza, così senza un perchè e se la porta a casa. MAH!

Sono rimasta sinceramente allibita. Stessa cosa per l'amica, che quasi pensa di farsi violentare da un cacciatore di taglie, appena conosciuto e che è uno spietato vendicatore, ma dico io ...è normale?! A me sinceramente non è piaciuto affatto l'impronta che ha dato, forse andando avanti con le pagine il tono si ammorbidisce e tutto diventa più naturale ma l'inizio è davvero TERRIFICANTE!

Nonostante tutto ho apprezzato la scrittura della Roberts molto scorrevole, come sempre e piena di azione e passione, davvero una storia carina se non fosse per gli innamoramenti facili che vi sono. Le tre pietre di Mithra hanno un valore fondamentale e tutti vogliono ottenerle a causa di una leggenda. Molto stimolante e espressivo, però si poteva fare di più. BUONA LETTURA!

Well this one was a fast read. Three stories which belonged closely together in one book.

I like them all, I liked the characters and yeah. It was typical Nora Roberts. :) Nothing really surprising but good for in between :)
