## **Brandi says**

Read as part of the anthology: "Taming the Vampire." A great little quick read from this amazing author. Something to fill in the waiting time on her other series.

---

## **Laura says**

Taming the Vampire Anthology

Becky has been a shut in since her boyfriend Maverick left with nothing but a text message. A random night at a vampire club puts her in the middle of danger which brings Maverick back into her life. He is a vampire Enforcer and as he keeps Becky safe all their feelings are still there.

This was only a meh for me. The story wasn't really bad but there wasn't enough to really get into it. My biggest problem thought was that Becky just let Maverick back into her life with almost no hoop jumping. I guess I'm just petty and I can't understand how you can just automatically trust that someone that sent you a mean text message to "protect" you won't do something like that again.

## **Kodie Mackay says**

### **Love it!**

No less than 5 stars for this fantastic author! Not only can she make me love a story that's 60pages long, she also made it believable.

With a great mixture of humour, heartbreak, action and love! This short story has everything you want jam packed in a smaller size. Do i wish it was longer? Hell yes! But i also think it's perfect the way it is. No complaints here.

I'd also love more of these yummy enforcers please. Xo

---

## **Rhonda Jones says**

### **Great Short Story**

Yes, you can get a good storyline in a short book. A wonderful romance is woven into the storyline. She is heartbroken when her boyfriend left her high and dry. But she loved him so much she has not dated in a year. So her best friend drags her to a nightclub, and she gets into a huge altercation, where her life is on the line. Guess who comes to the rescue. But is he sorry? Does he beg for forgiveness? Nope. You got to read it to find out what happens. It is worth the read.

---

## **Pam says**

### **Great short read**

Vampirishious! Hot and suspenseful. I can't get enough of Tessa's hunky Vampires. Becky also is a kickass waitress caught up in some crap not of her doing. Maverick comes back into her life. grab this book for a wonderful short read. From a true fan... Pam James.

## **Cheesecake says**

Becky and Maverick.

Well that was a dud. Normally I totally enjoy this author, but this read like she'd fallen asleep at the wheel. I felt no connection with any of the characters and a day after finishing it, i hardly remember it. VERY little world building and no character development.

Set in a world where people know about vampires...

Maverick dumped Becky with no warning, by text message a year before. They had been deeply in love, and she is still not recovered from the blow. She has an altercation with a vampire and some masked vigilantes, that ends with her in some kind of interrogation room. Sounds promising, but it never pans out.

## **Stevie says**

2.5 Stars. This was a super short story. Not much time for a build or character development. I like this author but had I seen it was less than 100 pages I may have skipped.

---

## **Alarna Martin says**

DNF. Not sure if this contains what is classed as spoilers. I read this as part of the taming a vampire box set. I really did not like this book. I finding feel any emotions from the characters even tho they kept going on about how much they love the outhor or how much it hurts. I didn't like the H because he was such a but-hole and acted like he couldn't stand the h. I didn't like the h because she was so mokey and sad all the time fair enough the dude she loved left without warning and then she got leave him alone text but after he texted her she at least should have been angry at him but nooo she was sad and hoping he would come back. >:(

## **Donna Bossert says**

I originally read this in the box set Taming the Vampire so it does have a word count now with that said I LOVED it enough to beg Teresa to make it a series.

It's exciting, sexy, fun, funny and leaves you wanting more.

The Enforcer has everything a fantastic Paranormal Vampire Book should have!!

I have been 100% completely sucked into this amazing world, and love it. I cannot wait for the next book and I have begged the author to make this a series!

---

**Edith Boucher says**

3,5?? Très court. Pas de numéro de page. Difficile d'évaluer la longueur du livre. Bonne structure. Le nouveau contexte est un peu difficile à comprendre. Est-ce le premier tome de la série? Je crois que oui mais parfois je n'en doutais. La fin est précipitée. Cela a réduit mon plaisir de découvrir ces nouveaux personnages.

---

**lori says****Great book would love for it to have been longer!**

Another great read! Well written as usual love all her books. Let's hope there are more the books to come.

---

**\*Flora\* says****Another amazing read from Teresa Gabelman**

I am already a fan of Ms Gabelman's writing style and love her other books. She creates wonderfully complex characters (even in tales this size - quite a skill) and builds worlds and situations that draw you in and become completely real.

This novella did not disappoint me. I hope that Ms Gabelman considers writing more stories about these vampire Enforcers.

---

**Keri says**

The Enforcer was the only book I read of this anthology but I loved it. It's short and that's to be expected but we still get some story. Wouldn't mind seeing more of Mavericks work group.

---

**Nikki Pearce says**

Wow. Absolutely loved this short story.

Engrossed from page 1. Packed full of everything you need in a vampire story. I love Teresa Gableman's books.

Maverick is one bad boy. He left to keep Becky safe.

Becky is feisty. Can she get over Maverick. Seeing him again is killing her as much as it is him.

Together they are one amazing read.

I really hope this becomes a series

## **Barbara? says**

Ugh! So this was definitely a story that could have benefited from being longer. There was so much potential there but there was just too much pushing away by the H in such a short story. My heart actually hurt for Becky. I loved her and she should have just kicked his ass out permanently.

Maverick had the potential to be a great alpha hero but he was just too bent on "protecting" Becky he couldn't see the forest for the trees. I don't believe he'd have went after her if he hadn't gotten a push from his friends. Then BAM! HEA.

On the plus side, he didn't touch another woman for the year they were separated.

**"There had been no other women and he seriously doubted there ever would be."**
