The Faerie War is the concluding novel of the Creepy Hollow Trilogy that follows the faerie Violet Fairdale. I felt that this last book fell a little flat. It was shorter than the other two and it showed. The events were happening at an incredible speed which made me feel like it was all rushed, and the problems did not get solved with the right speed. There was this IMMENSE issue somewhere during the end right? And in like 2 pages they had already solved it and moved on to the next obstacle. I don't know, I think the author should have taken her time instead of rushing to meet all loose end, cause the ideas and the plot were solid.

Anyway, I really enjoyed this trilogy and if you're looking for something fast-paced, full of action and romance then definitely give this a go!

Ben Alderson says

this book is everything to me.

this series is everything to me...

i can not cope! I love Vi and Ryn! so so much <3 the magic, war and action in this was FANTASTIC!

Crystal Collier says

This was a great story with wonderful tension and a great cast of characters--especially the new ones. As the conclusion of the trilogy, I loved how the story took us to new grounds, new environments, and greater conflicts. My only issue is that the reader is more in the know at the beginning of the book than the characters, and we just have to wait for them to catch up. That doesn't last for too long, but if you go in expecting that, you'll be prepared to enjoy a wonderful book.

I found the conclusion satisfying. It was a great series and I very much enjoyed reading it.

Content warning: Cussing, significant violence, some steam.

My Thoughts:

The Faerie War, by Rachel Morgan, is the third and final book in the Creepy Hollow Series. I have been a huge fan of these books since I began the first book in the series, The Faerie Guardian. I think all of the book covers in this series are absolutely beautiful, magical looking, and reflect the "feel" of the series itself.

Whenever, I read a book from the Creepy Hollow Series, I am transported to another realm. Creepy Hollow might have come from Ms. Morgan's outstanding and creative imagination, but it has taken root in my heart, and I can see it clearly in my head. Imagine a beautiful place, lush with green plants, and majestic trees, colorful flowers, waterfalls, bugs that glow, various magical creatures. There is a variety of fae, from faeries, pixies, elves, Reptiscilla's (Reptile looking fae) etc. There are other creatures that live in the distance such as mermaids, "shrinking dragons," shapeshifting pets, creatures; half man, half Lion, etc. This is the beautiful place Ms. Morgan has created, and it's a place that I've loved since I first discovered its existence.

The Faerie War continued where The Faerie Prince left off. Vi has completely lost her memory of everything that she has ever loved, and doesn't realize that she is responsible for her current state of being. She had been captured by Reptiscilla's, an enemy of the faerie guardians, but has found a temporary home in the underground with a sweet, older, and wise Reptiscilla, Farrah. She is the grandmother of "Jamon," who will be the leader one day. At first, Jamon and most of the other Reptiscilla's didn't trust Vi, until the day she saves Jamon's life from one of Draven's (the enemy's) brainwashed followers. Then, she becomes a part of the community, grows closer to Jamon, and establishes a friendship with Natesa, a sweet and friendly Reptiscilla female that is around Vi's age.

A month has passed since, "The Destruction," which is where Draven came into unbelievable power, and destroyed Creepy Hollow along with most of the Fae Realm. Many of the Fae died, or were captured and brainwashed with a powerful spell, which made them do Draven's bidding. His goal is to take over the Fae realm, and eventually the human world as well. So, Vi and Jamon go off to get other Fae and magical creatures to ally themselves with, in the hope of eventually overthrowing Draven. In the meantime, Ryn was sent on a special mission and wasn't around when "The Destruction" took place. When he achieves his mission, he learns about what happened, and visits Creepy Hollow in the hopes of finding his family and Vi. He is astonished to see the state of his home, and is determined to locate his loved ones. In the meantime, Ryn joins forces with the faerie guardians that survived, and are in hiding, going on search and rescue missions. While on one of his missions, he locates Vi, but he is devastated when he realizes that she doesn't remember him. Vi is part of an ancient prophecy, that states that she, along with another person, referred to as "The Star," are the only ones that will be able to bring down Draven. So, Vi and Ryn embark on a dangerous and adventurous journey to find "The Star."

The Faerie War was quite an adventure. This story had an amazing setting, was full of crazy and imaginative plot twists, with never-ending action and suspense! Whew! This story was a thrill ride a minute. I loved the element of romance in this story too. I've been a huge fan of Ryn, since the first book in the series. I haven't been able to stop swooning over this kick-Butt, Snarky, Flirty, loyal and romantic character. However, in The Faerie War, my love for Ryn grew ten-fold. It was so hard seeing him sad and in pain after he realized Vi didn't remember him. However, I respected how he went out of his way to make her feel comfortable, and cared about. He didn't want to rush her or put pressure on her, but just by being himself, he made her fall in love with him all over again. Vi made a huge amount of character growth in this story. She grew wiser, more mature, learned patience, and a bit more about sacrifice. I've always loved how Vi is a strong, female lead, who can kick butt. Yet, the changes she made in this book made me love her even more. Whereas before "The Destruction," she was always obsessed with competition and being "The Best," at everything; in this book she finally grew up, and turned into one amazing faerie guardian.

My Rating:

I give The Faerie War, by Rachel Morgan, 4 Fantastic, Romantic, Suspense-filled, Action-Packed Stars! The

Creepy Hollow Series is phenomenal! It is a great young adult, fantasy series that has kept me quickly turning pages, and this adventure has kept me completely hooked. It is creative, imaginative, fun, romantic, and takes me to another place. A place where magic is prevalent, beauty is everywhere, love and friendship blossom, and danger lurks around every corner, ready to destroy it all. If you love YA Fantasy, the Creepy Hollow Series is one of my absolute favorites!

My Favorite Quotes:

"I smile, but I feel hollowness forming inside me. Is that all I had with this guy? Arguing and kissing, I say slowly. Was our relationship about anything more than that? Of course, he says with a laugh. Way more. I watch his face grow series. Maybe he can tell I don't really believe him. He comes closer and gently takes my face in both his hands. His eyes won't let me look away. It was about growing up together. It was about knowing your fears and dreams. It was about forgiveness. It was about making you laugh and being there when you cried. It was about knowing that even if we lived for centuries, I'd never get tired of having you by my side." (eARC, Loc. 2055)

~Vi & Ryn

"Are you telling me I have to win your heart all over again? I'm pretty sure that's not what I'm telling him, but when he smiles at me like that I think it might not be such a bad idea. So I shrug and say, I guess. The smile curls higher, making his eyes sparkle. Challenge accepted." (eARC, Loc. 2062)

well I Really liked the romance in this one but other than that I must say it was a bit of a throwback in the action and character development department. and the ending was a bit too rushed and easy for my liking but I think this trilogy was really cool and I will definitely read the second trilogy as well!

Ellen Vergauwen says

I am totally in LOVE with this series. This book is the one where the real action kicked in. This whole book

is just packed with action, drama, love, forgotten love and love that returns. Sneaky people are a big part too and nobody seems to be who they pretend to be. Some turn out positive, some turn out to be assholes. I'll have a really hard time to say goodbye to Ryn and Violet. It'll be hard to accept Calla taking over in book 4, but I'm happy Ryn and Violet will be living happily ever after in the end.

I'll be re-reading this series once I get my physical copies and I'll love this series forever. AND I'll force everyone in my literature course this school year to read this book too and they'll be forced to love it as much as I do!

So far I've experienced all possible emotions with this series. Rachel Morgan makes me feel everything the characters feel like Ryn is able to do.

Pure awesomeness!

Emily Anne says

The Faerie War was absolutely amazing! I devoured it and loved every second. I am so sad it is over though. The Creepy Hollow series is one you all should be thinking of adding to your library!

The Faerie War starts off with Violet... only she is a little different. Yep, she lost her memory. Everyone is preparing to go into hiding from the mysterious being destroying Creepy Hollow. The beginning was very exciting as you are plunged straight into the world with no time to be bored! Also, lucky for us, we get the second section from Ryn's point of view. I loved reading from his perspective, especially since he is such a unique and awesome character. We all fell for him in The Faerie Prince, but I promise he will impress you even more in this conclusion!

I can not not mention the wonderful humor. I laughed and smiled countless times. The banter between Ryn and Violet is so entertaining! Also, the readers were introduced to some awesome characters such as Em of the London Guild. She was so cool! Her job is to provide comic relief for the team, as she put it! Em perfectly balances out Fin, who is very serious and subdued. Also, we meet Jamon, a Repticilla, in the beginning. At first, he is kind of unlikable, as he has an understandable-ish grudge against Violet. Eventually I grew to really enjoy his character.

We also meet Tilly, who has an important part in the book, but I won't tell you why in fear of spoiling the book! Tilly is also a pretty awesome character who, like Em, had some pretty awesome lines. Here is one I could relate to, this is said while she is welcoming Ryn and Violet into the house: "My mom would probably say 'Please excuse the mess' but, honestly, I think it looks fine." That line made me laugh inside. (Also, that line is from my memory so it may not be the exact quote.) In the beginning, we are led to believe that Tilly might not exactly be all there upstairs. Yeah, that scene was very entertaining!

The ending was epic. My mind was blown by the excellence of the final scenes. My emotions were running high as the darkness and climax approached and the very, very last chapters were so sweet and powerful. Overall, The Faerie War is an action packed read with an amazing romance and unique characters that have a special place in my heart. I know I will reread the series again and again!

I received this book for free in exchange for a honest review. My thoughts above are 100% honest

This was pretty good but I'm not a huge fan of the amnesia trope and while I do like Violet and Ryn's relationship I just spent the LAST book watching them fall in love so I really don't also need to spend this one watching them do the exact same thing only Violet has amnesia. Also I figured out who the spy was like right away so that wasn't terribly riveting. Still it was a good story and I do like this world.

that Vi took the forget potion, I know that she is devastated by what has occurred, but I believe she is too strong a character to not take responsibility for her mistakes and then take action to do what little she can do to make things right.

I was a little nervous about reading this book, because the finales in the last few trilogies I've read have all disappointed me (cough cough, The Hunger Games, cough cough, Delirium). Thank goodness, The Faerie War bucked the trend and did the rest of the series justice.

In the previous books, Violet was my favourite character, but Ryn stole the show for me in this one. All of my favourite moments were either when he was narrating or at least in the scene. I think my absolute favourite part was (view spoiler)

When I started reading The Faerie Guardian all that time ago, there's absolutely no way I could have predicted what happened throughout the series, and I think that's a real testament to Rachel Morgan's skills as a writer. She really kept things fresh and had me guessing right till the very end.

The only part I wasn't totally enamoured by was (view spoiler). But that's a small gripe, really. Overall, the book was wonderful and the series was fantastic. I wouldn't hesitate to recommend it to anybody who enjoys a good faerie tale. It's so nice to be able to recommend a series without having to say, 'But the ending is a let down.'

Hooray for The Faerie War!! :-)

I felt this was a great ending to a wonderful series. Even though it shows it is a seven books series, this is the last story with our MC's in them. The others go on and focus on other players in the same world. I will probably read them in the future but not right now.

For those of you that pay attention, this is one of my all time favorite series, I have read it about three times so far and I'm sure I will read it again in the future. Violet is just my kind of gal! She is smart, stubborn and shows real growth throughout really making me love her all the more. There is nothing more crappy than a stagnant MC. It kills my enjoyment of a series.

And Ryn is my kind of love interest. He is patient, supportive and passionate about Violet without being domineering and possessive. He also exhibits a life outside of their relationship which is soooooo refreshing. In fact, they aren't really with each other for most of this book.

The ending was wholly unpredictable for me (the first time I read it) and I really enjoyed the twists throughout the story. Highly recommend this series for those who love YA Paranormal.

A few spoilers will exist in this review, so read at your own discretion.

I will start by saying I loved this series. While I immediately loved book 1 &2, book 3 was a more of a challenge to love. We were left with a big time cliff hanger at the end of 2 that I was curious on where it was going to go.

With that being said, I was frustrated for a few reasons. I felt like the memory loss part just dragged on a bit, and I really didn't like the scenes with the Reptiscilla. I thought her connection to Jamon, which didn't seem to go anywhere was odd, and was extremely worried about where that was going. Additionally, I felt like her losing her memory was fine and all, but let's just say if it was not a huge part of the story and had been shortened it wouldn't have changed the outcome. I get why she prolonged it, and showing that Ryn would fight for her regardless, but it seemed like it was kind of pointless all together in some ways. Even when

Violet regained her memories, her strong character voice was lost, at least to me, in a lot of ways.

Again, I understand that Vi's character went through some loss with friends in the story which can change a person in real life, but something was just a little off with her character. Ryn liked a girl that challenged him in a lot of ways, and Vi began to not seemingly be challenging (minus the memory loss), but again, something was just missing and I can't quite pinpoint.

Regardless, I loved the series and what it had to offer. I would have enjoyed getting more of Nate's scenes becoming Draven, as we touched on why he became who he became. Some of the story was just a little jagged and not as fine toothed as the 1&2. I am looking forward to the 4th, but great reads regardless. I flew through the first two, but had a harder time with this one. Probably because I was apprehensive to read it anyway, but I was thoroughly pleased overall. Great series!!!

The Unofficial Addiction Book Fan Club's Review:

Review:

I have to confess that after finishing the second book in the Creepy Hollow series I was afraid. Well, to be more accurate, I had a hard time reading the last pages of the second book. I knew what was going to happen and was all too devastating.

However, I also have to say, that I was beyond anxious to know what was going to happen, finally! And I am definitely team Ryn, so I wanted to know everything related to Violet and Ryn and Creepy Hollow.

At the beginning of the story, Violet doesn't remember anything, and gets to see the devastation of what was before a forest, her home. It was really sad, both parts: for Violet not being able to remember a thing and for the forest. I pictured myself, thanks to the other two books, what Creepy Hollow was like and couldn't imagine that being burnt.

"The forest is dead. Silence makes the air feel heavy. No movement stirs beneath the blackened leaves and twigs that litter the ground.. The trees left standing are naked. Even the sunlight filtering through the skeletal branches is dull and weak. I wish I could remember what it looked like before."

Once again, Rachel Morgan did an excellent job. Reading her books is easy and you jump into the story, being one more character in Violet's life. Without knowing what's happening, you can easily finish the book in one day and want more! And the only thing that makes me truly sad is that this book was the final one in the Creepy Hollow series. I feel like it could go on forever and I couldn't complain! I am definitely on team (if exists) "I-want-more-Creepy-Hollow".

"You will stop at nothing to rid the world of his evil because you have everything to make up for."

As I said, The Faerie War is the last book in the series, so everything is more on edge. Violet needs to defeat Lord Draven, she has no memory and, most important (for me), she doesn't remember Ryn! Why? How could you, girl?!

I loved their relationship and were heartbroken when Violet didn't remember a thing, including my her beloved Ryn. Despite this we get to forgive her because Ryn's on a mission to find the weapon that would save them all. And he hasn't lost his memory like Violet, but he doesn't know if she's alright or even alive. But I cannot tell you more, because I am afraid I'll do some massive spoiler.

"You're telling me I have to win your heart all over again?"

I shrug. "I guess."

Back to the story, The Faerie War is a mixture of good versus evil, having the final and brutal battle everyone's expecting since the second book to happen. In the middle of this chaos, Rachel Morgan creates a romantic relationship making it even better, if that was possible.

"The kiss only lasts a few seconds, but my brain has time to register several things:

Once, his lips are softer than I expected. Two, the eerie, hypnotic melody clears from my mind, and the sounds around me seem to dim for a moment. And three, the adrenaline spike I wish was running through him right now, jolting him awake from his enchanted lethargy, seems to be shooting through my own body."

I am definitely re-reading this book until I know every word! And I highly recommend it to you. Because it's an epic fantasy story worth reading it, we are giving to The Faerie War five gorjuss dolls and telling you, Book Addicts, that this is a must read book. And that if you haven't read the other two books, this is the perfect chance now that you have the whole series available. You are gonna love it!

The closest series to Chanda Hahn's Unfortunate Fairy tales series. This is where I ended with the series. I felt like I was fine with the ending of this one and wasn't interested in continuing/spending more money on the series. These things can go on forever.

The Faerie War Review on K-Books

Holy Crap!!!! This book was absolutely blow your pants off fantastic! After the ending of *The Faerie Prince* I genuinely could not wait to read this book and find out what was going to happen. *The Faerie War* did not disappoint and a part of me is devastated that Violet and Ryn's story is over. I'm going to miss them so much!

The Faerie War was a little harder for me to get into than the previous two books in this series. A part of me was dying to find out what was going to happen but with Violet's memories of everything gone I found it harder to get into as I just wanted the old kick-ass Vi back. Saying that once I got used to this new memory-less Vi I still loved her. She was different but still the same Vi that I loved from the previous books. The

more I read the more I loved and I couldn't believe what was happening with the new big bad villian.

Nate... what the freaking hell Nate. I get that Vi hurt your feelings but seriously??? That is no excuse to do what you did. Considering I really liked Nate in the first book, I started to dislike him a lot in book 2 but after this one??? Yeah I hate him. I spent the majority of this book just wishing he would be killed already. I feel slightly bad for him but still hate him. Stupid Boy!!!!

Ryn.... oh be still my heart! I adore Ryn. He is officially one of my all time favourite characters ever. He's amazing and he was so much more amazing in this book. Once he found out about Vi's lack of memories he was devastated but he seen became determined to make her fall back in love with him *swoon* He is totally the best.

The Faerie War was an explosive and amazing finale to Vi and Ryn's story in the *Creepy Hollow* series. This is without a doubt now one of my all time favourite series and I am so excited to read Calla's story in the next 3 books and as much as I want to devour book 4 and 5 right this second (and they are waiting on my bookshelf ready) after the book 2 cliffhanger I am waiting for book 6 to be released so I can binge read Calla's story as I did Violet's.

The Faerie War was phenomenal and I cannot recommend the *Creepy Hollow* series enough. It was utter perfection and one I know I will re-read again and again. Definitely one for the favourites shelf. I adored every moment of it.

"It was about growing up together. It was about knowing your fears and dreams. It was about forgiveness. It was about making you laugh and being there when you cried. It was about knowing that even if we lived for centuries, I'd never get tired of having you at my side."

?????? ♥Team Magnus Damora FOREVER♥ says

Vi thinks someone made her forget LOL! there's someone, Violet, meet Violet xD

I was really confused by how the faerie prince ended. I didn't know what to think of Vi's decision. I know she was hurting but it kind of prolong the story more than it should. However, getting into the story of the third book, there are new characters who were easily likable as this is the case with this series. But Violet meets these people and they form an alliance to take down Draven who is on a destructive path in the fae world. He's destroying their homes and killing people and the guardians need to find the weapon to kill Draven but as the story progressed it's not an easy thing as it seems.

There are many parts I liked especially the Ryn and Violet reunion .. or semi-reunion. It really broke my heart but (view spoiler). Violet has to face the truth she's the one who took the "forget" potion. And she has to deal with her grief as she should have from the beginning. And this is why I think now the forgetting might not be a bad thing but it made Violet's character grow.

The meeting with Nate/Draven and Violet was very anticlimactic. I expected it to be more intense but it fell short of my expectations.

Overall, this is definitely one of my favorite series this year and I'm glad I picked the books up and went for them. I can't wait to read the next!

Imádtam a sorozatot. Tulajdonképpen nem is gondolkodtam azon, hogy szeretem-e, csak azt vettettem észre, hogy bekuporodtam a fotelba, és elfelejtettem minden körülöttem. Szinte egyhuzamban olvastam végig. Az akciójelenetek, a karakterek jók. Nekem egy picit hiányzott az a „pillangók a gyomromban” (ahogy az angol mondja) érzés, de ez az egész sorozatra érvényes. Tudom, hogy abszolút ifjúsági, de olvastam olyat, ahol nem történt egyetlen csóknál több az egész történetben, mégis szinte izzottak az érzések a sorok között. Ennek a sorozatnak viszont az akciók voltak a hihetetlen erősségei.

I enjoyed the ending to Violet and Ryn's story. A lot happens to these two, but they grow and come to understand their circumstances, themselves and each other so much more as this portion of the Creepy Hallow series closes out.

I wasn't sure from book 1 where this series was going to end up, but I'm glad I read through these 3 books this weekend. The characters grew and became characters I wanted to get behind while the storyline moved quickly through the trials and tribulations these two would need to endure.

If you get a chance to pick up this series, it's worth the read.
