**The Twelve Layers of DNA: An Esoteric Study of the Mastery Within (Kryon, #12)** Lee Carroll (Contributor) , Elan Dubro-cohen (Illustrator) , Lee Carroll (Channel)

This is the long awaited twelfth book in the Kryon series. Three years in the making, it is the first book of its kind, and may eventually define the more than 20 year Kryon lineage. DNA is our chemical blueprint, but the Human Genome Project found that over ninety percent of it is not coded.

In fact, only approximately four percent creates the 23,000 genes in the Human body. The rest? It's a puzzle to the extreme, and to this day there is no answer why most of DNA seems to have no symmetry or codes of any kind. It seems to be random. Kryon has now given us full channelled explanation of this, and brings it right into the quantum world.

Is it possible that DNA is mostly quantum instructions? And if so, what's in those instructions that comprise over 2.7 billion chemicals per strand? Here is a full revelation of the twelve layers, or energies of DNA, complete with full color channelled illustrations of each layer by Israeli/American artist Elan Dubro-Cohen. Could it be that our entire Akashic record is carried in our DNA? What else might be represented?

It starts to make sense, and the most recent discoveries of quantum physics only enhances the potentials of this quantum molecule. With a foreword by DNA researcher Dr. Todd Ovokaitys, this book is an esoteric breakthrough. Lee Carroll narrates throughout, and Kryon presents the actual energies of DNA.

If you've read Kryon books before, you'll find this one a bit different. I liked it better because it seemed to go more in-depth on some issues. I read this with a group (about 10 pages a week) and plan to go back and read it on my own.

**Iona Stewart says**

This is perhaps the most fascinating, and best of all the Kryon books.

Most of the chapters are by Kryon, but several of them are penned by the channeller, Lee Carroll.

There are 12 layers or energies around our DNA, each with a Hebrew name. Each Hebrew name is a name of God.

This is a fantastically empowering book. We learn that our DNA is multi-dimensional, which means we are too!

Lee Carroll had to have Hebrew lessons prior to the DNA channellings so as to be able to pronounce the Hebrew names correctly (or as correctly as possible).

The names are in Hebrew because Hebrew is “the core language of a monotheistic God”. Abraham, who is the father of the three major religions on Earth, spoke ancient Hebrew. Kryon chose Hebrew names that had a close resonance to the layer vibration itself.

The Human genetic code contains about 23,000 Human genes. The so-called junk DNA which scientists call 96% of the DNA is a “seemingly random instruction set for the 4 percent”.

Only 8 percent of DNA is in 3D (layer 1), while the other 11 are multi-dimensional. 92% of DNA modifies all the rest.

DNA contains 1) the heredity of our parents' biology 2) karmic imprint 3) astrological imprint 4) the entire Akashic record of all your lifetimes on this planet 5) the sacredness of God as represented by your higher self.

We are informed that Pleadians came to our planet over a period of many years and “interfered appropriately” with normal Human evolution. By mating with us they gave us the “layers of DNA that we now see as spiritual”. Before humans received the Pleadian DNA, they had no creator within. (This information shocked me!)

All indigenous societies including the Hawaiians point to the Pleadians as being our forebears.

Lemuria was the first large civilization of man and it was situated there where Hawaii is now.

From about 100,000 to 50,000 years ago the many kinds of Humans slowly began to diminish. The kind that had been given the Pleiadian genes had slowly replaced all the other kinds.

The various DNA layers are not actually layers but are presented in this linear fashion in order to facilitate our understanding. As humans, we do not understand multidimensionality.

There is much fascinating and basic information about numerology in connection with the explanation about the DNA layers. We are also told that the name Lee is a master number, 22, which means “Master Builder – cosmic law”.

Kryon tells us that “DNA is the crossroads of God and man, the mixture of quantum and non-quantum, and it vibrates with the essence of the truth of the Universe”. DNA contains the creator energy, our own energy, the “Human transformation energy” and that of all our lifetimes. The number one represents new beginnings. Layer One is the double helix. It receives and transmits.

The DNA of us Humans at the moment is only about 30% activated, whereas that of the various masters of the ages was at 100%. When the DNA is at 100%, the empowerment of the creator is fully manifested within the human being. It is time for us now to increase this percentage.

Layer One is the biological layer, which Kryon terms the “Tree of Life.” (I won’t bother to tell you the tricky Hebrew names.)

Layer Two represents a search for an individual’s life lesson. It gives the human being a feeling of purpose and direction.

Layer Three is the “Ascension and Activation” layer. It helps with spiritual awakening.

Layers Four and Five are our Angelic Name. This is a name that is “an energy of recognition and respect for the piece of God you are in the Universe”. When Kryon feels our angelic name, he sees all the parts that “split out”. He sees the whole of us, and “this means we recognize a piece of us”. When he feels our angelic name, he looks at our DNA Akashic record, and sees all of our lives on the planet. All this is in our angelic name. It is our “God-family name” and it is huge. This is the name represented in the Cave of Creation” on our “individual soul crystal”.

We are informed that our guides and angels are all pieces and parts of our own soul group. When we arrive as a baby on Earth we are only a fraction of who we were.

Layers Four and Five together are the essence of our expression and our divinity on the planet.

Layer Six is the Higher Self. The higher self is not “somewhere else” as we humans think, but in the DNA. The higher self is absolute divinity. It is the connection to the other side. It is God in us.

The higher self is “higher” in that it vibrates higher than any of our 3D cellular structure.

Layer Six is really a “portal to the largest sacred part of you that split off when you came to the planet”. It “facilitates the very communication with God through prayer and meditation and is the ‘I AM’ layer.”

Layer Seven is Lemurian Layer One. It was given to us by the Pleiadians. It is a “divine revelation” layer. It

represents the end of innocence and the beginning of spiritual awareness.

Layer Eight – Lemurian Layer Two is the Master Akashic Record. This contains not only past lives, but karma. “The largest traits of the Human personality are carried by the Akashic Record, and the experience that a Human has had on Earth is what you call the past.”

We now are able to bring forward to our current life some of the attributes of a past life. All the lifetimes we have lived were stepping stones for the one we are now living. “Each and every one gave you information, experience and wisdom for this one.”

Layer Nine, the Healing Layer is Lemurian Layer Three and “represents a multidimensional process within the Human body. It is a “knowing, healing, innate body consciousness”. Saint Germain’s violet flame is a direct use of DNA Layer Nine.

Layers 10, 11 and 12 are the God layers.

Layer 10 is Divine Belief, God Layer One, the “call to understand your own divinity”. It does nothing to convince you of anything spiritual until asked to.

Layer 11 is Wise Divine Feminine, God Layer Two. It is the Pure Compassion and Mother Layer. It is again a multidimensional layer that is everywhere at the same time and again does nothing unless asked to. It assists the wise, divine feminine to show through both men and women. Pope John Paul had his DNA layer 11 activated at the highest level and was “a respecter of women and cried for their plight on Earth”. (We are told that when we die our mother is the first to welcome us - I’m presuming this is when she has died first, which is not always the case,)

Layer Twelve is Almighty God – God Layer Three. God is the “creative energy of the Universe and that which is everywhere, quantum, with no beginning or end”. God has split apart a piece that lives in us which is also in an entangled state (part of God – part of me). Kryon states that there is a part of the creator consciousness in every Human who has ever lived on the planet. (However, this contradicts his previous statement that only the Humans with the Pleiadian genes have God within them, not the ones, now extinct, without these genes.)

He also tells us that the number 666 is not what we think but means: YOU ARE GOD!

At the end of the book we find beautiful channelled paintings portraying the energies of each of the DNA layers.

In conclusion, I would state that this is an amazing book containing invaluable information. It divulges that our DNA contains our divinity, and that the time has come for us to learn to use these divine powers by communicating with our cells and requesting their help.

I would reiterate that in my view this is the most important of the Kryon books, and would absolutely recommend that you read it.

Make no mistake about it, this is a very esoteric book.

For those searching for greater meaning on the road to Ascension, there is a lot here for you.

I learned many things, (especially about Layer 9 - The Akashic Records - being an Akashic Records Reader myself). Riders of the Light!

The Hebrew names for each layer of DNA are powerful and beautiful and the explanations from Lee Carroll and Kryon are beautiful and succinct.

If you have noticed changes and shifts in your awareness on the Spiritual Journey then this book may well provide you with some further answers. Read more about Lee Carroll and Kryon here

12 energies or layer of study around our DNA, with Hebrew name (Name of God) and numerological energy. Each layer is presented one by one.

In the Foward Dr. Todd Ovokaitys mentions the Hermenutic Spiral a greater learning and insight from the same information. That is true with this book. Like the scriptures, every time I read something I gain a greater insight.

Kryon invites us all into the wonder of the DNA.

"Let me take you to a place that has the very fabric of the secrets of life itself. This is a place where dimension cross dimensions. If you had multidimensional sight you could clearly see it. Like the magnetic lines of flux suddenly being revealed to the human eye, the colors would dance like the light reflect off slow stirring water.

There is song there! For dimensional overlaps do two things. They sing and they make light. The songs are the kind that are sung at the edge of the world where the solar wind meets the magnetic grid, for the sane kind of processes are at work within the DNA.

Let me take you to the interior of DNA. Itself and reveal to you the esoterics and the LOVE that this process has within it. For more than chemistry, the DNA event defines the core of sacred life, the Love of God within the Universe, mixed with dimensional confluences and the joy of creation."

My notes some from the some from other sources.

DNA is the Multidimensional Universe soup.

Like an Engine, all parts need to work together. It is the tree of life, which is family. . The layers are not complete unless they are working with some of the other layers. All blend together like soup.

In my mind I think of Johnny five, the robot. How his maker pour tomato soup on a paper. Johnny would list all the chemicals within the tomato soup. Then said resembles maple leaf, butterfly, showing he was alive.

Rainbow is always complete yet it appears as segments, the DNA is exactly like that.

What I gain. We are Child of God, his DNA is within us. Answers can be found within. We are co-creators

with others and with God. Joseph Smith teachings of "Adam God" correlates with DNA level 7, through 12.

This is NOT a LDS book, but I had found truth within it.

It does talk about past life and recalling past life to help us in this life.
