I came to love this book after reading the first chapter. :D

It teaches me and/or correct my wrong doings and tells me what I should do.

"the person who never does anything makes no mistakes. However, he doesn't realize that not doing anything is his biggest mistake" --- that quote from this book, You Can Win: A Step by Step Tool for Top Achievers makes me realize my biggest mistake in my whole life. Shiv Khera inspires me to do the things i can, want, and should do; while keeping in mind that *"people fail not because they lack knowledge/talent but because they quit and Societies are not destroyed by the activities of rascals but by the inactivities of good people"* Now, I should live while i'm still alive cuz i don't want to die before i'm dead. XD -->>>

"Live while you are alive, don't die before you are dead"

You can win has surely been a book that has had an incredible sales record. It is one among the most popular among the Indian self help book category. What the book contains is a couple of motivational quotes and stories which have been gathered here. The book has nothing new to offer its readers other than a couple of stale stories. But if you are new to reading and are looking for a simple self help book that could be easily understood, you can pick this up.

Pradeep Badatiya says

This books tells about how to be good to others to succeed in the life. It has more wonderful true examples which depicts a good tale about the individuals who are known to be remembered because of their good deeds in their real life.

Reena says

Awesome book. And its not about business, or deals or work. It's about life. And made up of small quotes. Quotes and examples that touch you everyday, day to day. Things you feel and can relate to on a daily basis. Helped me in the worst of my days. On the days when I did not want to get out of bed and 'deal' with anything at all. Life is good and you can indeed win!

Disha says

Nice mix of inspirational quotes and stories. I read it when I was in high school and motivated me through a tough challenge. What I have learnt from this book has so much become a part of me today, that I can't benefit from the book the same way if I were to read it again, but I definitely suggest others to give it a try at least once. It did the right magic at the right time for me.

Suraj Wate says

It's good self motivational book. But too idealistic I would say, not that applicable in life. But you can read it one time.

Surya Vivek says

the book "U CAN WIN" is truly a lovely book ,in which whole secrets to have & live a happy life is defined.. I really loves the stories....because they provide us a new way of thinking ...about...

In one sense, this book is a construction manual. It describes the tools you will need for success, and offers blueprints to help you build a successful and rewarding life. In a second, sense, it is a cookbook. It lists the ingredients the principles you will need to follow to become successful and gives you the recipe for mixing them in the correct proportions. But, above all, this is a guidebook a step by step, how to book that will take you from dreaming about success to unlocking your potential for success

This book was released at Crossroads mall (shut long time back) in mumbai, and I got the first edition copy (as it was widely displayed) and they had lots of copies, I flipped a few pages and randomly read one page and was carried with the simple lucid language very beautifully explained little lessons of life, it doesn't teach you anything different that you don't know, but it just gives examples of various life episodes real and hypothetical and makes his message clear, that is where the self realization takes place and the change for the better occurs, this was the only book of Shiv Khera that made it really big (his other books are ok!! sorts) but I would highly recommend this bestseller for every home, no wonder, it has been translated in many languages due to it's popularity and the first copy still lies on the top of my bookshelf as a reference tool or a quick lesson for life.

Buy it, if you haven't.

Jeevagan says

Well written book on Personality Development. Simplicity and relevance are the two main factors that make this book to stand out among other Personality Development books. The author had uncanny talent to mix the content with lot of stories and quotes so that the message does not go over the head. Mr. Shiv Khera makes an impact in the very first chapter itself with a story of a balloon seller on "Attitude", from there on you will be hooked to the book. More and more traits were explained in simple terms with relevant and

important anecdotes that make you imbibe the message with ease on an otherwise dry subject. For sure this book builds confidence on those who reads it.

A must read for everyone who wants to aspire, especially youngsters.

Swaroop Raj says

looks like a Textbook for preparation for Victory.
Victory can't be achieved by reading the handbook.
Although there are many thoughts in this book that we can use as a tool for our quest for victory.
