4 Men of the House: An MFMMM Romance Natalie Knight , Daphne Dawn

One woman versus four brothers.

We want her for her body.

Now she's gotta decide which of us to call Daddy.

Megan.

Pretty little vixen in the black silk Dolce & Gabbana.

Tries to act the good girl till we slip it off her.

Then tempts and teases us in her red La Perla.

She was sent to spy on us.

Gather dirt and destroy us.

What she didn't know was she'd fall in love.

But it's not just her.

The four of us are now her world.

Protect her with no doubt.

Take her at night.

Watch as her eyes close while she screams out.

As she takes us in with those hips.

While our teeth sink into her lips.

We'll save her from the scumbag who sent her to destroy us.

When he comes looking for her, we'll be waiting.

Heaven help him if he tries to hurt her.

We'll take down anyone he brings.

Afterwards, its just us. Always and forever.

Happily ever after for the five of us.

And in nine months, make it six.

Spool many O''s

Almost from the first chapter of each story you get the sense of the desired that lead each main character to seek out the hidden desires that lead them to find love. Grant it, not all of them are conventional, but whose to say what is right when you're talking about love. That what these stories are. Greatly written and flow so easily. Page turners and fantasy like you never thought possible.

Four brothers and one lady. It all stated out as a spying mission, but may end up as a romance with the four brooding males.

Evan, Ian, Matt, and Paul all inherited a fortune from their father and now someone is out to take what he thinks is rightfully his.

Meg is sent to spy on them her manipulative boyfriend whom she wants out of the relationship has threatened her to do this deed. She is to play a maid and let me tell you this girl doesn't know anything about cleaning. Her boyfriend want his inheritance he thinks he deserves but was outed when his father left it all to his four stepsons.

All four brothers want a piece of Meg can she handle all this and still get what she came for or will it all blow up in her face leaving her in danger from the manipulative soon to be ex boyfriend.

This was pretty hot story with the four guys they all wanted her and vied for her attention. They all wanted to be her one choice. I know this story won't be to everyone's liking fours guys all together with one girl, it is a good read I give it four stars and I definitely will be reading more by Daphne Dawn and Natalie Knight.

Holy moly!! These was a study in hedonistic desires and love. Daphne Dawn and Natalie Knight certainly fulfilled some secret desirea through this book. These was fierce competition, some lies and secrecy, a little

fear and the bad kind of pain, and a LOT of the good kind of pain. These four men certainly knew how to command and care for their woman and learned when to turn off the competition and just give in to their desire, love and acceptance. A great, hot and seriously filthy book that I could not put down! I voluntarily reviewed an advanced copy of this book.

A little long and angsty at the beginning but it did allow some one on one time with each man before the crazy begins. The end was a bit quick with a whole lotta group time. Somehow the author manages to keep the men separate and distinct during group scenes which is quite a feat.

I decided to review an ARC of this book.

Holy smokes what a book! I've recently discovered books by this author and every book I've read so far are so smoking ho!! The stories are always well written with relatable characters and not just sex scene after sex scene. This one is no different! Although I would have no interest in 4 men at once (too much testosterone for me), this was an amazing story!! I look forward to reading the next sexy, hot story by Natalie Knight.

Reverse harems with multiple men for the women have become very popular. This one features four brothers who find themselves falling for the woman who says she wants to be their maid.

Evan, Ian, Matt, and Paul are very wealthy and protective of their family. Meg is sent there to spy on them by her nasty boyfriend but finds herself falling for them all. She is not willing to choose just one and her secret may jeopardize it all.

The story is well written and definitely delivers the heat you would expect. She really develops feelings for each of the brothers. She is in danger and I love how protective they become.

When Ian, Evan, Paul and Matt first see Meg they know that they want her but they never expected it to be something serious. Meg once sent to be a spy and look for a will that included her abusive boyfriend and his mother. She never really planned to do anything he wanted of her but wanted to get away from him so said she would do what he asked of her. She met each brother and knew that she couldn't betray them as she got to know them better. One thing lead to another and she stopped working as their maid and become theirs. At first the guys didn't want to share but as things progressed they knew that they would have to share in order to have what they all needed from Meg. When Meg was in danger the guys saved her but will they still want her when they find out about why she was a maid there in the first place?

This was a great story brothers falling for the same woman. Their relationship is unconventional but they don't care what others think since it works for them. The chemistry between all of them is electrifyingly hot. This was a well written and very entertaining story. I can't wait to read what they write next.

Felt like they only fucked 24/7... no story at all

Julianne Macneil says

I read this book as part of an arc program. I enjoyed this book about a young woman named Meg who is forced to work undercover by her boyfriend to find a copy of a will that could give him billions. Meg starts to work as a maid at the mansion and looks for the will while getting to know the four sons that were left the money. Paul, Matt, Evan and Ian are brothers who have always competed with each other and when they meet Meg at a party thrown in their late father's honor, they are all interested in her. All four are known as playboys who never have relationships and rarely see the same woman twice. When they each make a move on Meg, they decide to let her choose who she wants to be with. Meg is happy to have the interest of the men, but she also has her boyfriend threatening her to find the will or else. Meg is torn as to getting the will and betraying the brothers or getting away from everything. This was a good story with touches of BDSM with four strong alpha males and their love. This was a good reverse harem romance with a hint of danger. Good one.

Each guy had a story that was impressive. They all had their way of how a woman should be treated. Needless to say, the story came together at the end. I was quite blown away on the ending. Everyone got their just deserts.

Meh

A reverse harem – enough said.

Meg is between a rock and a hard place. Her abusive soon to be ex forces her to spy and get information on his mother's deceased lover's stepsons. He wants the billions that they inherited and he feels he should get. She feels bad about it but if she doesn't do it he'll ruin her life.

They all soon become sexually involved and the playboy men all want her for themselves. What to do?

Linda says

4 alpha stepbrothers + 1 undercover maid = 1 sizzling story...

It's a sexy, steamy & sizzling story! Daphne Dawn & Natalie Knight deliver a dazzling new release! This story grabs you from the beginning & keeps you turning pages until the end. Ms. Dawn & Ms. Knight are quickly becoming a dynamic duo that I can't get enough of. Their storylines are very well written, at whole lot of sexy with a dash of mystery. The chemistry between the characters is off the charts.

Matt, Paul, Ian & Evan are playboy stepbrothers & are gathered together to attend a party honouring their late Father. The brothers have inherited their Fathers billions but there's someone wanting to change that. Enter Meg... She's been sent to the mansion as a maid & an undercover spy. Her scumbag boyfriend convinced her to get the job so that she could get inside mansion to search for the will. See, he & his Mother believe they're in the will & entitled to an inheritance.

During the party, the brothers all see Meg & are enticed by her. After spending time with the brothers, the chemistry builds & Meg has developed feelings & is no longer willing to spy on them. She's worried how her soon-to-be ex is going to take the news & what he's going to do.

Can they convince Meg that they're able share her? Will the stepbrothers be able to rescue Meg from the scumbag ex? Are the brothers able to forgive her when the truth unravels? Will they be able to put the past behind them? Does Meg & her harem get their happily ever after? To find out how their story goes, "one-click" this new release. I guarantee you won't regret it.

Too much

So this is a bunch of books and most are just sex with different men. The women are what I would call “not a nice name” and seem like dim wits. The men seem too arrogant for words. These were more than painful to read. One of the stories toward the end was okay but nothing special. If you don’t mind sloppy almost painful to read sex this might be for you. Totally not for me. Happy reading.

Book-Lovin-Momma says

Meg finds herself in a sticky situation when she encounters some hunky men while trying to pose as a maid for her lousy boyfriend. The attraction between Meg and these 4 hot brothers is sizzling hot! What happens when they discover why she's really there at the estate? There were some good twists that kept things lively, and the multiple POVs was nice to have.

The question is will they get her?
