This bored me, but I couldn't leave it unfinished so I picked it up from the beginning months later, which made it feel like a chore. Luckily it's short. Was really stressed when reading this as well so I just wanted to get through it as quickly as possible. The OTP relationship bothered me, she basically groomed the male lead

since he was a newborn, was his mother, sister and then lover? Twice over. Bleh. Oh and I read SUL by the same author in between so it became quite repetitive with similar plots.

That said, it's a short and cute story, and as gathered from the reasons above this is a "me-not-you" case. Give this a shot!
