This is the FINAL book in the Unhinged Trilogy, the conclusion to Sebastian and Payton's story.

Secrets...

The secrets are still there, plaguing me, disrupting my everyday life, only now... the unthinkable has happened.

Lies...

Payton insists that it is time that I deal with the lies that seem to make up my entire existence, the ones that have produced the chaos in my head. I don't know if she realizes it, but if it weren't for her being by my side, I don't know how I would survive.

Greed...

Everything is unfolding right before my eyes, the truth is being revealed and there are people who don't want us to be together, but as I have vowed before, no one will keep her from me.

Payton is my anchor in the waves that are crashing through my life and I will do anything to keep her safe.

My name is Sebastian Trovato and this is the conclusion of my story.

I just don't understand this book. Why all the dramatics? Sebastian doesn't know if his friends will think he's crazy if he tells them his big, bad secret. He makes a big deal out of everything. So does Payton. This book was so strange- boring on the one hand and totally OTT on the other. It was sappy, there was too much telling, not enough showing. I'm glad the series is over and sad the last two books didn't live up to the first. If I hear "she unhinges me" or "her touch calms me" one more time, I'm going to scream.

Loved this series! I have to admit that I was worried with the first book because by the end of the book I felt like I didn't know the characters...I didn't know them as well as I wanted to. By the second & third book I was in love with all the characters and their story!

### Books Laid Bare says

Sebastian and Payton finish their journey in this book three of the fabulous series by Timberlyn Scott. The book has it all and I defy anyone not to hold their heart as Sebastian's life is laid bare before him and his secrets are not only revealed but resolved. This man has been through so much and has barely managed to hold onto his sanity but with his rock (Payton) by his side, he has the strength to face his past head on and open his heart to his friends in his quest to find answers.

Hitting hard on the heels of book two we pick up after the carnage of the race and the explosion. With Leif and Sebastian in hospital, although Sebastian's stay was only fleeting, leaving rather abruptly when Payton was prevented from being by his side. Leif didn't fare so well, he had more significant injuries but he had his family, because did Sebastian's father show up after Payton called to let him know what had happened, no, not a chance!

After failing to get an answer from Conrad she had reached out to Lauren.

Did Lauren share that information, not a hope in hell but the reason why exactly is not divulged until later in the book.

And as for his sister, no contact either, why are they staying away and what can Sebastian do about the fact that he has finally been completely ostracised by his family?

Fears and misgivings are growing for Sebastian and with nothing left to lose, he finally completes the purchase of his house and with help of his friend's moves out of not only his father's home but his business also.

Standing alone, Sebastian has Payton and they both have a fantastic group of friends, so once Sebastian opens up to her about his fears concerning the circumstances surrounding his mother's death, Payton does what she does best, she stands tall with her man as she gets him to open his secrets to the whole group, together they can work on finding answers. Sebastian discovers that not only do his friends understand his concerns but they have some of their own.

Payton remains at Trovato Inc., hoping that by being inside the company she may be able to use her position to discover the truth but when Conrad confronts her about Sebastian quitting his role in the business, she is dealt a hammer blow and when the reprehensible Trevor is brought on board – her life is not going to be

getting any easier with that sleaze ball in the office every day.

Secrets, once they are out in the open take on a life of their own and unveil details that have the potential to be devastation to the relationship between Payton and Sebastian but this pair are made of stronger stuff, they have an unshakeable bond that determines that regardless, they belong together and that NOTHING is going to tear them apart.

The key to the mystery is finally unleashed and from the most unexpected source but once this piece is known the other pieces of the puzzle click into place.

You will learn the truth about not only Lauren and Conrad but also about Trevor and if you are anything like me, I was looking across the pages hoping that someone with a bat was round to knock his head off his shoulders!!

The climax of the whole mystery was excellent and I have to say the conversation between Sebastian, Payton and Conrad following the situation at Trovato Inc. was so touching, that it brought a tear to my eye. I wanted this boy to have a family, to have what he had never had, his dad!

Someone to care for him because of the wonderful man he had become, not because of obligation or duty. Conrad has missed the obvious and because of his weakness he had missed the gift of a lifetime, the chance to watch and participate in his son's life.

Payton and Sebastian are wonderful characters and their story is not only interesting but poignant. It made me not only want to scream at them at times but to cry for them both also.

It gave me hope that they were strong enough to survive but had me biting my lip with worry that some things are just too big to ever get over. It showed me that no matter what, resolve and friendship can hold you tall and lift you from the depths of despair.

I look forward to Leif and Aaliyah's story and I hope that we get to keep in touch with Sebastian and Payton. Unhinged is a super short series, one that gives life to the formidable alter ego of the magical Nicole Edwards – Bravo!!

#### **Amazing!**

I absolutely loved this series. There wasn't a time when I put this book down willingly. Sebastian completely stole my heart, and I was so grateful for the strong supportive woman Peyton was and continued to be throughout the series. This is such an emotional, nail biting story that I will enjoy many times. Brilliant work Timberlyn Scott!

OHHHH SWEET BABY JESUS.....this one really kept me on my toes. I was reading it so fast so that I could finally figure out the whole story. Oh boy and is it a biggie. I normally never get choked up but when it

came to Sebastian and his father Conrad....ugh....I got teary eyed. GREAT series..love it when there is some mystery in the book and not all about the love connection.

Wow, wow, wow! The Unhinged series is amazing! I absolutely loved everything about these three books and the emotional connection Sebastian and Payton shared. The series was focused completely on their relationship and I really enjoyed there was almost zero angst between them. They were so committed to each other, it was refreshingly wonderful to read. The supporting characters were colorful and I cannot wait to read Aaliyah's and Leif's story next.

I started this series slightly disappointed having read every other current book the Nicole Edwards had written up to this point including the Club Destiny series, Alluring Indulgence series, Peir 70 series, Dead Heat Ranch, Devils Bend, Austin Arrows, Coyote Ridge, Sniper 1, Southern Mofia, plus the two Holiday books, and in two individual books. My point to this is I am a huge fan, who at the end of book one was slightly disappointed. It has been about 12 hours since I finished this book/story/series and I am still on that wonderful high you get from being totally emerged in a good story. I absolutely loved this book. I fell in love with Sebastian and became Payton. This book was absolutely amazing. So different yet the same, better yet equal, Timberlyn Scott vs Nicole Edwards makes so much more since now. It has been four years since this was published and I really hope that there will be more stories from these people and there lives. I can't get enough. This story will be in my personal library in the section where I put my favorites to be reread, relived, and revisited like an old friend. I absolutely loved this story and the HEA finally found for Sebastian!!!

#### **5 STARS!!!**

This whole series took me by surprise! I must tell you, I actually surprised myself picking up this series without one review from any of my GR friends. I'm usually too chicken to read anything without some sort of rating from one of my friends but I'm so glad I took a chance. But after seeing that Timberlyn Scott is a/k/a Nicole Edwards I knew I had to pick it up. Each book had me begging for the next. The series was full of just enough suspense, laughter, friends and one sexy as hell "mechanic." This a little toned down from the usual NE menage scene but don't get me wrong - this is just as hot. I highly recommend this series! MUST READ!!

Chaos is without a doubt my favourite in this series & I must admit I shed quite a few tears in the last couple of chapters!  
Brilliant!

### **Nicky says**

This final instalment was fantastic. All questions are answered and Payton and Sebastian come out ahead in the end. It was beautifully written and no matter the unbelievable shit-kicking Sebastian got in his young life, his love for Payton got him through the darkest days. Beautiful.....love Nicole Edwards.

### **Marcella says**

Overall .... this series was good. Liked the romance and mystery but very forgettable.

Payton acting all casual about being alone in work with a creeper and reassuring Sebastian that he's over reacting telling her to 'leave now'...someone find this girl a sense of preservation.

Not getting a face to face full confrontation with the mystery revealed murderer...no confrontation at ALL!? Well what the hell.

At least there were no more future telling dreams. There's only so much I can take before I draw the line.

### **Janja says**

I'm big fan of Nicole Edwards and i'm must say that stig series is realy something different than other her books. I like it and loved it. Usually i'm not so big fan of young characters in stories( maybe cuz i'm not so young) but Sebastian and Payton's story with all the mistery drawn me in that i could't put it down. Great series maybe will be reading Aaliyah story soon.

#### **Decent Series**

Peyton and Sebastian's story was fairly interesting and written pretty well. The characters were developed well and were likeable. The books successfully followed the relationship of the main characters and allowed the characters to come together and progress realistically. Unfortunately, I found the situation surrounding Sebastian's mother very predictable. Several times there was mention of a "secret" but it just seemed unnecessary. I also found it slightly unbelievable that Conrad had an immediate change of heart and all those years of mistreatment are too easily forgiven by Sebastian. Overall I guess the series seemed a bit juvenile... I guess this one's a miss for me.

### **Annie Brewer says**

Love. Love. Love. !! This was amazing!!!! The perfect ending. I'm so happy I'm crying tears of joy and sadness. Only because Sebastian and Payton's story is over. I loved every scene, every word, everything. I'm gonna miss these two something fierce. But I was so happy to be part of their journey. It wasn't an easy one; from the beginning, it was rocky and emotional. But together, they proved they could overcome the biggest obstacles and still survive. They became stronger because of it too. Especially together.

Such a beautiful love story that I'll revisit again.
