I got this one and the SIN antho from Loose Id and read both in 2 days. Hothothot and I like that each story is different - one with older woman, younger men, one with all older, and one with younger and switching it around to f/m/f with BDSM. Hadn't read BDSM before, but it didn't seem too extreme to me - won't try it myself but that doesn't mean I didn't enjoy reading it, LOL! I hope she writes more in the series, she's a good author and every book is a little different so it's a great way to sample a variety of menages.

This book is erotica, so if that's not your thing, stop reading.

This is a romantic menage book where the two men and one woman end up happily ever after married. The premise is that the three main characters share a psychic bond that allows them to feel what the others are feeling and explore each other's minds. The two men, Josh and Sutter, eventually discover their bisexual sides, and the woman, Kendall is not your typical svelte heroine. If that doesn't put you off, it's a very hot book. The tension in this story has to do with Sutter's dad trying to break up the trio.

The moment Joshua Reed and Sutter Campbell walk into Kendall Aaronson's shop, she knows there is something special about them. Sutter and Josh ask her out, but she quickly refuses. Despite this, they pursue her knowing they have found their soul mate. As they begin to explore their newly founded relationship, complications with Sutter's interfering dad rears it's ugly head, threatening to destroy their happiness.

This was interesting, it has a fantasy element to it that underlines the whole story. Kendall is torn because Sutter and Joshua are both younger and she is at a point in her life where she is looking for the white picket fence and bushel of children and she wonders if they are ready for the commitment.

The book started out with a "paranormal" feel to it with the "bonding" connection the three characters felt upon meeting, but that's where it ends.

Kendall Aaronson owns a shop specializing in home decor. Two young male college students walk in one night and there was an instant connection with the both of them. She didn't understand why they would be attracted to her since she's a 32 year old woman who happens to be on the "plumpier" side. What can they possibly see in her?

Sutter Campbell is a 22 year old college student studying law and his best friend since third grade is Joshua Reed. They've been best friends for 14 years and share a "unique" friendship. Many thought they were gay and were a couple, but that was far from the truth...until they meet Kendall.

The two young men were attracted to her from the very beginning and they instantly knew she was the "one." Kendall had reservations being with two gorgeous, young men who were still both in college. As mentioned before, there was a paranormalesque feel in the beginning, especially the "connection" all felt when they were together (they can communicate feelings with one another), but that's as far as it went. Once Kendall got over "it" and accepted the two males as her "mates" the bulk of the book was all sex - and PLENTY of it! I found the characters flat and were not quite developed. You get a brief history about them, but their personality didn't seem appealing. Unbelievable instant feelings of "love" or romance, but rather more lust and NO true emotions (no matter how much they profess their feelings to one another). The author brought the story in too many directions with this book in terms of "theme" and didn't quite establish a solid story. It was like watching a porn movie rather than reading erotica. I considered the story rushed from all directions and the author tried to redeem herself towards the end.

Explicit Menage sex, M/F/M, M/M, involving a pool table (and accessories), food, toys, etc.

I have wanted to read this book for a while. I am sooo glad it was a loan. It did not work for me. Most of the plot just seemed to far fetched. And the immediate sex and admission of love annoyed me.

Found this hidden in my files from years ago and have finally read it. Very enjoyable story. Liked the three main characters and how they made a great life for themselves.

The carry on with Sutter's father was interesting and understandable. The only thing that lost it a star was the Pollyanna attitude of Kendall with the just too good to be believed outcome with David after everything he had done to them all.  
Hope Josh never forgives him.

This was my first m/m/f romance and I can't say I liked it for a number of reasons - the men were too young and I only buy "rubenesque"-heroine romances by mistake. Other than my personal negative reactions to the book, it wasn't good enough for me to want to read David Campbell's story when it came out. Yet it was David (Sutter's father) whose character resonated with me. I think my icky feelings were because of David's inclusion and it was obvious he was secretly gay. I don't like family members included in my erotic romances and parents would be double ick even if there are no sex scenes involving them.

David's involvement is limited to his objection to Sutter's gay relationship so no worries about menages including Daddy.

Menage book, includes m/m contact, I never felt much connection to the characters. There are sequels, Danger in Discovery & Branded, available from Loose Id.
