Finally finished this one. Good book but little long. Hard to keep my interest as the book went on.

Ethereal Messenger: Three Novels - A collection of 3 books ("Speed Dating for the Dead," "The Red Church," and "Drummer Boy"). Written by an indie author, these books tell tales of things that go bump in the night.

The weakest of the 3 (& the first you'll read on Kindle) is "Speed Dating for the Dead." It starts off promising, but seems to lose its way after the mid point.

The last two books are definite improvements, and link together very well (they feature cross over characters, as all 3 are based within the same area).

One collection to try, if you're a fan of the likes of Stephen King. I'll definitely be picking up some more books by this author!

I had read Speed Dating previously but I bought the set because it was such a great bargain. I've review the books individually, my intention for the review is just to advise you to pick up the sets wherever possible. Such great prices! Reading can be an expensive past time!
