Coffee and Cuteness!

Why can't all my childhood stories be rewritten as adorable gay love stories? I would seriously invest in Clare London doing a whole series of Childhood Favorites based on how much I loved Goldilocks and the Bear. How much did I like this story? I originally took it out for free through KU only to turn right around and buy myself a copy followed by buying a copy for my friend which I sent to her with a message to read it immediately.

Gil is the flamboyant happy guy who makes everything a little brighter around him. I loved his coffee shop's vibe. I loved all the details Clare London put into his patrons, his helper, and his surroundings as it enriched my reading experience so much. I could see the little old lady pulling a chair over to get the "naughty" gay romance books down from the top shelf she couldn't reach on her own. I laughed so much over this fictional coffee shop? I wanted to go out to see if I could find a place even half as quaint in my area.

Bruin is one of those big guys who is all heart. He endeared himself to me immediately with his infatuation with Gil's curls. I thought he was the biggest teddy bear of a man. I would have given him a hug myself if he'd gotten a Christmas tree stuck in the door to my house so I was heating the whole of outdoors. There's a lot of charm to him in the details about his love for his sister and his niece and his attention for the plants he tends at the garden centre. He's a sweet, sweet man who is all man.

Overall, this short is sweet, a little spicy at times, and downright hot at the ending which is how I happen to love my books and my coffee. I'd recommend this to anyone who enjoys a romance at any time of the year, especially during the holiday season as it is overflowing with holiday love.

This super sweet short story made me smile. There was a lot of fun and flirting and attraction, but I could have used a bit more together time in the end.

The beard all decorated in glitter and tinsel was my favorite part! :)

A cute, quick read for the holidays.

‘Tis pretty cute. Plus, I always had a thing for giants anyways.

What a cute Christmas story! At only 36 pages, you can't expect a whole lot of plot or character development, but for a less than 1-hour read, this was really sweet. Gil and Bruin left me with a smile on my face.

This story is just too cute for itself.

I loved all the things that happened here, it's everything I dig in a Christmas story.

3.3 Stars

So, Bruin (I love that name) sort of sounded like he resembled YC but \*handwave\* this is not the story I was looking for. Le sigh.

It was cute and cheeky but the whole time it felt like the author couldn't decide whether to make the tale sexy or sweet. SO MUCH FLIRTING and innuendo...and then a whole lot of not much afterwards. I was a little disappointed that the first two days of sexing was just talked about (followed by one short, underwhelming scene).

But still, a fun read. I liked all the Goldilocks and Three Bears references.

\*\*\*\*\*

OMG HE SORT OF LOOKS LIKE YUKON CORNELIUS!!

Could this be my desperately wished for Hermey/YC - like story?

### **Paul says**

Absolutely adorable Christmas short. Loved both MCs and the secondary characters. Enjoyed the story from start to finish, and would really like to revisit this couple again to continue their adventures.

Adorbz Christmas nosh.

Chances are high that if you give me a size difference, a lumbersexual bear, a long-haired femmeish dude and throw in some cupcakes that I'm going to like whatever you're serving me.

But realistically, what's not to like about all those things?

The added bonuses are all of the above is under a cute ass cover and a secondary character dropped a Dunkirk reference. #winning

Recommended to Christmas Fluffsters.

A cute Christmas story sure to bring a smile to everyone who reads it. It's pretty short so doesn't take long but it's packed full of Christmas goodness. Plus a yummy "bear" named Bruin and a sweet blond curly haired guy name Gil, short for Gildea which means gold.

No spoilers. Just get it and enjoy.

Super cute play on the fairy tale.  
I really liked Bruin and Gil.  
They made me smile.  
Their flirting was everything.  
I hope next year they decorate their tree.

#### **Short but cute**

This was an adorable little Christmas short. There were a few tense issues, but not so many that I couldn't enjoy it.
