### **Shelly Ash says**

Kiss the Bride by Lucy Kevin is a delightfully entertaining romance anthology filled with fun times and sensual encounters. I just couldn't put this book down! Dummy that I am this is my first Lucy Kevin book, but I can guarantee you, it won't be my last! Where have I been?!

The characters were all thoroughly enjoyable and each story got more romantic as the book progressed. The way everything revolved around the Rose Chalet and Rose's longtime friendships was great. Each story was it's own, but was still connected to the Rose Chalet. Each story compounded the next and made the whole book have an intense, loving vibe from start to finish. I LOVED IT! Kiss the Bride is a Must Read and a keeper too!

I loved how the characters followed through each short story. Despite them only being short stories I found the characters and stories were well written and found once started I didn't finish till I'd read the whole story. Definitely wanting to read more from Lucy soon!

I was given this book in return for an honest review.

This book contains 3 previously released novels: Books 4, 5, and another. You will meet Rose, owner of the Rose Chalet, if you haven't read the boxed set of Four Weddings and a Fiasco (Books 1-3) or Say I Do (Books 1-3). NOTE this was not a typo, apparently both are available in some version, including single stories.

In The Wedding Dress, Gareth serves legal papers to Anne on behalf of Jasmine Turner. Who is Jasmine? Anne doesn't know her. Anne sneaks the papers back into Gareth's pocket.

In The Wedding Kiss, Rose is getting married to Donovan and having a hard time relaxing at her bridal shower. Donovan's mother is very rich, so perfect, and so condescending.

Sparks Fly is not strictly a Rose Chalet book although characters from the other books do make an appearance here. Angelina is hired by the ex-wife to feng shui Will's house. Will is not happy about it. Will decides to take a call and leaves Angelina standing outside with a door that the wind shuts.

Yay! I was so happy that Rose and RJ finally got together. I will say that the last story, Sparks Fly, came completely out of left field. It felt like it had nothing to do with the Rose Chalet, but it was adorable, so I let it slide.

Love the trilogy in this set. All well written and easy to follow along. Perfectly paced with characters you fall in love with.

I won this book through Goodreads Giveaways. I really enjoyed all 3 short romance stories. Each one was good. Characters were relateable and whitty.

In Kiss the Bride, Lucy Kevin brings readers back to the Rose Chalet which was introduced in Say I Do. Kiss the Bride contains three short stories with characters finding love.

#### **The Wedding Dress**

The Wedding Dress follows dress designer Anne Farleigh and a private investigator who delivers news that changes Anne's world.

#### **The Wedding Kiss**

In this short story it's Rose Martin's turn at true love. As owner of the Rose Chalet, Rose has seen her share of weddings. Now it's her turn but is she marrying the right guy?

#### **Sparks Fly**

Angeline Morgan gets hired by businessman Will Scott's ex-wife to help her win him back and change his life through the power of feng-shui. Will is skeptical about feng-shui but he can't seem to get Angeline out of his head.

Kiss the Bride is a happy clean romance that has sweet characters and stories. It was nice to sit down and read a short story and still get my romance fix. I thoroughly enjoyed Lucy Kevin's characters; Will from Sparks Fly was my favorite. I didn't really like the first story, The Wedding Dress, simply because Anne was over the top happy and positive, she had me rolling my eyes. However the stories got better and better as they went on. Sparks Fly was my favorite. I loved that Will closed the door on Angeline during their first

meeting. It was comical and I felt like their story was fun and sweet.

Recommended for anyone looking for a light-hearted sweet romance.

### *The Wedding Dress*

Anne Farleigh's life is about to change and investigator Gareth Cavendish is the one to do it. But how can he break this beautiful dressmaker's heart?

### *The Wedding Kiss*

Rose Martin is about to get married to a dreamy doctor. So why does best friend RJ, the gardener at The Rose Chalet, make her heart go pitty-pat?

### *Sparks Fly*

Angelina is a life organizer and she's just been hired to get Will Scott's life in order. His ex-wife hired him when she read that Angelina's clients had a habit of getting married right after she worked with them. Angelina knows Will's ex wants him back, which makes it just that much harder for her to ignore the feelings he's producing in her own heart.

Oh, Dear God-in-Heaven. If this hadn't been a NetGalley book, I would have stopped after the first story. Mary Sue was beyond TSTL. Between that and the lightning-fast romance which made absolutely *no* sense with the characters we were given, I was ready to give up on the story. The second story was okay but the third story, again, was one that I would have DNF'd if I had the chance. If you like stories with little "on-screen" sex and characters that are just a bit twee, you will like this story. Otherwise, steer clear.

I won this book from a first reads, goodreads, giveaway. This book has three different stories to make up one book. Each story was pretty rushed and seemed more like a novella type book. The first part- The Wedding Dress- was my least favorite. I don't know if it was because they actual story was so short but the way things happened and how quickly, really bugged me. It just seemed like the author was trying to do too much with not enough pages. The second story- The Wedding Kiss- was the best. I think because there was already some character development from the first story. Also, you already had some background about the two main characters. So the plot was more believable and easier to get through. You knew what was going to happen but you wanted to see how it happened. The last book- Sparks Fly- was just okay. Again, there was so many things going on with not enough time to properly let them progress. It seemed really rushed and made the whole story seem really unbelievable. This story was completely separate from the first two, so I was starting with fresh characters. Overall, it was a quick read and just okay for me. Some of it was a little hard to get through. If there were more to each story, I think I would have liked it more.

"Kevin does it again in this collection of three romantic novellas with a beautiful wedding theme. All of the characters are likable and while the plots may be simple, it'd refreshing to read stories with real innocence and genuine happy endings. Readers are left with a sweet feeling that love is alive and well". (RT Book Reviews) rated 4 stars

## **Tarah says**

These stories moved too quickly - within a week of meeting people were getting engaged & the whole "happily ever after" started. I wanted more twists & turns. Not confessions of love two days after meeting.

## **Cynthia says**

These were the sweetest reads, cute, loving and caring. I enjoy reading each book they remind us of what love should be and how it could be if we put others before our own wishes. These are nice clean reads filled with passion not only about themselves but about life. I would recommend them for a nice short read that will fill your heart with a smile.

### **The Wedding Dress**

Anne is a Dress designer and Gareth an investigator who is working a case that Anne's half sister wants her half of the inheritance. Anne said she father was faithful and she has no half sister Gareth falls in love with Anne and doesn't want to see her in pain, he tries to make it easier on her but only makes it worse.

I know this was a short story but I find it hard to believe they fell in love the first day and the second had sex. Anne just seems too innocent for her to go so wild overnight. Just to must to fast and it does seem the story was rushed. I do think this would have been a wonderful story had it had a little time to grow. I did like the fact that this was a clean read we didn't read endless sex acts.

### **The Wedding Kiss**

I really like this story and found it to be very believable unlike The Wedding Dress it wasn't rushed and filled in the background. From the beginning of the story you knew where you stood and who stood with whom. You have wonderful fun loving characters that are very supportive and do their best to make this the best wedding possible even though they believe it would be a mistake they only want the bride happy. Whatever that takes they will do and work their butts off to get it done.

Rose is a wonderful woman who plans weddings the most important one is hers. She has it all planned out everything is going so well and then everything that could go wrong does from an interfering mother-in-law to be to not enough flowers, the cakes all wrong and the wedding setting can't be worse. Her husband to be

who seems so perfect doesn't seem so perfect anymore. She can't get the handyman RJ out of her mind he is always there doing for her he knows her so well. What is she missing could it be the perfect life she has planned isn't so perfect after all?

RJ knows what he wants but is welling to lay it all on the line to get the women of his dreams. He knows how it feels to be the man left hanging and doesn't want to do anything to hurt Roses relationship. He keeps hoping she will come to see how much he loves her before it is too late and she makes the biggest mistake of her life. Rose has other ideas she came from the wrong side of the tracks and knows she wants more out of live. She has lifted herself up and makes something of her life. RJ is sure he can give her everything she needs if she just will trust in him and his love. The days are running out before she said I do to the wrong man. Will he be able to change her mind in time?

Donovan is marrying Rose she will be his trophy wife he loves her but will it be enough? He has plans and Rose will make him the perfect wife she is understanding that he is a doctor who is busy and doesn't have a lot of time for romance. Rose understands this for she is busy and doesn't make too many demands on him. He isn't concerned about RJ he is a no body and Rose wants the life they have planned. Rose is a sure thing he is so sure but will he get the shock of his life.

Who will Rose pick the passionate handyman or the doctor? Both men have so much going for them what it boils down to is which truly loves Rose and will she find her answer in time or could she pick the wrong man and make the worse mistake of her life?

I found this story to be the best of the series so far I loved how the two men get their points across and that she finds the best fit for her. It was an easy book to follow and it kept my attention from the beginning to the end.

### Sparks Fly

This was a cute little read which I enjoyed not as much as The Wedding Kiss but better then The Wedding Dress. It might have been just a little rushed but was a nice clean read. I was expecting to see more of Rose and Anne see more about their life and where they were. They are not in this book which didn't hurt the book at all.

Will is a wealthy business man who has time for nothing but business he lives and breathes it. His ex wife wants him back and hears of a feng shui cupid who makes people fall in love. She puts Angelina on the job to get her man back. Will doesn't have time for this crap but doesn't want to hurt his exs feelings plus if he doesn't give in she will just keep sending more people to his door. One look is all it took to hook Will and he wants more from Angelina. His mother has an accident he rushes home to mom, mom finds out about Angelina brings her over and meets her. Mom knows they belong together and must get in the mix of the relationship.

Angelina believes so much in feng shui that she has given her life to the cause she puts people home in order so they will find peace and in doing so will find love. She hasn't has a date in a year and isn't looking for Mr. Right. She meets Will he is everything she doesn't want in a man all business and nothing gets in his way of business. Will is to handsome and draws her in she fights but is a losing battle she

Another trio of stories that center for two on the Rose Chalet, a wedding venue. Perhaps because I enjoyed revisiting that site, these three stories left me more satisfied than the previous selection of three similar stories. In this volume, we revisit Anne, the dress designer and also Rose Martin, whose secret love for RJ finally comes out of the shadows when he, after a couple of good pushes and only three days before her wedding to a plastic surgeon(best described as plastic himself!). Thank goodness he got off dead-center. Last in the trio is the story of Will Scott and the feng shui design consultant hired by his ex-wife because she wants to get back with him (oh, really?) until she sees how he falls madly in love with Angelina, whose own house could use a feng shui makeover.

Frothy and fun, these are perfect stories for a rainy spring day when it's too wet to go outside and work in the garden.

"At the Rose Chalet, wedding venue and service, love is never far from the air. For designer Anne Farleigh, she dreams of a love that matches her parents, but her dream gets shaken when a handsome P.I. brings her news about a half-sister. For Rose Martin, owner of the Rose Chalet, her current fiancé is great, but she fears he might never match up to the love she almost had with another man. Angelina Morgan, interior designer, has no tolerance for rude men, and that's exactly what glued-to-his-cell-phone businessman Will Scott is. Told in three separate stories, the three women learn what love really means, even when it comes in the most surprising of places."
