Neko Neha (BiblioNyan) says

Please note that this review is for the entire series, not just the individual volume.

I picked up Ren-Ai Shujou Shugi when I was in the mood for some smut. I go through these genre cravings, where I have to read something--smutty, horror, fluffy--and essentially marathon it for a couple days to get it out of my system. I got everything that I was looking for in this series. There is romance and fluffy moments, some psychological elements, and above all lots of sex.

The main couple are very cute. I thoroughly enjoyed how the author went about building their relationship. As with most smut manga, they end up together really fast and then it's just the matter of them fighting obstacles to stay together. The love they have is adorable and their sex is hot stuff. I liked that the boyfriend wasn't portrayed as some possessive, machoistic jackass as with most manga like this. He's sincere in his affections for her and treats her very kindly.

One of the elements that I loved about this series was one of "bad boys" that shows up about halfway through. He is a man who is sadistic, not only on a physical level, but also an emotional one. Quite a few people will find problems with the way that he treats our female lead. He is extremely aggressive and unforgiving in his ultimate goal. It's rare for me to find a story where this specific type of sadistic behavior is portrayed without the creep or disturbing factor (if that makes any type of sense at all). I'm a fan of sadistic tendencies, so I really liked it. But as I stated earlier, it most definitely is not for everyone!

Overall, I just liked the development of the relationships, the characters, the fluff--everything. It's a very good romance series. If you're on the lookout for amazing smut with really decent plot, check this out. I gladly give it 4.5 out of 5 kinks.

Exemple manifeste de ce que l'industrie de la BD japonaise peut sortir de pire.

Ichigo says

that was the first time i ever read something like that

??? ?????? says

well , i should say i loves all kanana minami's manga she is my best mangaca but this manga not the best one for me , in the first time i read it i thought i will give it the five star but finally i gave it only 3 three .. that's for some reasons .. firstly : it is so long without more exciting events , new one ... secondly : the girl in this manga always being raped :\ and his boy friend have no problems with that .. whatever i still want read more

for kanana minami's manga <3

Rebecca says

This was surprisingly...not creepy. Which isn't to say that it doesn't still use so many of the tropes that shoujo manga really needs to do away with, but despite his predatory moves, Tamaki does seem to be aware that he's not acting like a good guy and takes steps to rectify that. A glance through the next volume doesn't give me a ton of hope for the rest of the series, but maybe I'm being dramatic.

Alixendra says

This is a good manga, however, it annoys me to no end how often the MC gets nearly raped and not once tried to use her Karate skills to defend herself. Not only that, but nobody thought about trying to report the harassment from the students, etc to the school or police?? Ugh.

The male MC though is a good guy and I wish the two of them had better communication skills (though in his defense the female MC is a bit of an idiot who never listens to him when he says to be careful of other guys). Also, though I expected this to be heavily more mature it was definitely still a WTF moment whenever they had sex or foreplay in the school and the dojo and the library and the millions of other random places these two seem to find that would only happen in a manga and never in real life..._-

4,4 von 5 Sternen

Der manga hat mir echt gut gefallen. Die Story um ein Mädchen, dass sich in eine alte Liebe verliebt, war süß. Die kleine Karate-Geschichte drumherum war ebenfalls nett.

Der Zeichenstil ist aber sehr altbacken und das ist nicht ganz so mein Fall.

Maria says

Oh lord, this is hurting me. The cringe level is very high. Don't disappoint me Kanan-sensei.

Reshma Sharief says

Prefect story to pick up on Valentine's Day read.

Elizabeth says

I completed reading the series from 1-8 I just couldn't find them here

Christine Zarah says

Blerg reading just for curiosity's sake
