Sizzling days of danger...

Introducing the K-9 Ranch Rescue series

Devastated after her father's murder, Amber Belott wants to keep his legacy alive by saving his K-9 ranch. Her first move? Hiring Evan Colluro, a former military K-9 trainer, who impresses—and attracts—her. If *only* she weren't his boss...and his past didn't trouble him. Evan joins Amber in investigating. But when chaos erupts, it threatens all that's drawing them together.

Enjoyable read from a new author for me. The relationship moved rather fast for my tastes, but there is a murder plot that creates stresses that push the two leads together, so it's not as unlikely as it might be. I enjoy romances that have dogs in the mix, which this one does. Tagged this as a romance. but a better description might be romantic suspense.

Gloria Brzny says

enjoyed this book, however at first it was slow reading and not a lot of action. the book action does pick up in the middle, by then you have a number of suspects for the murder. as you keep reading you find out the suspect list narrowing down and you think this book was somewhat predictable.

There is a huge mystery to resolve in the first K-9 Ranch Rescue book, and danger connected to a baffling incident keeps escalating as the main couple gets ever closer to uncovering answers. The circumstances in which Amber Belott and Evan Colluro meet are not the best for her, while he also has some personal troubles to overcome. As the two work closely together to keep her dog training business successful, they gradually come to realize some unexpected truths. I enjoyed trying to unravel what had happened one fateful night, as clues are scattered about and kept me guessing until all is revealed. Linda O. Johnston cleverly works factual details into her own imaginative developments, making SECOND CHANCE SOLDIER come across as conceivable.

After her dad was killed for unknown reasons near his ranch, Amber Belott returned to Chance, California so she could aid her mom in keeping his business from going under. Her father trained dogs to follow orders, from those who are classified as working animals to even pets. Unfortunately, Amber knows nothing about getting a dog capable of assisting a professional or even just listening to its owner, so she must employ the right person to keep clients coming to K-9 Ranch.

When Evan Colluro comes for an interview and to demonstrate his methods, Amber quickly comprehends he is the best candidate to keep her dad's dream thriving. He had previously trained dogs in the military, and his knowledge will certainly come in handy. Her new employee tries to prove his worth right from the start, and the dog training classes appear to be going well. Yet the unsolved murder of Amber's father has her and Evan worried and wanting answers.

Though neither Amber or Evan are thinking about getting into a relationship, there is a surprising spark between them from their first meeting. Since the attraction only increases with every new interaction, they start to care about the welfare of each other. With numerous unknowns related to the killing of her father, this couple must be cautious until the facts are exposed. It was interesting to see how they would react to the many different situations that arose, especially Evan since he was suffering PTSD because of events while he served his country. The author had me empathizing with him on several occasions, and these times were often touching. Amber was heartbroken over the death of her father, and it sometimes affected the way in which she responded to someone. **SECOND CHANCE SOLDIER** is often emotional plus constantly engaging.

I was thoroughly entertained by all the wonderful dogs featured throughout the story, as their enthusiastic behavior had me smiling while I saw their intelligence as very admirable. Linda O. Johnston has dogs of her own, and it showed in the accuracy of the storyline when dealing with these wonderful animals. The K-9 Ranch Rescue miniseries is off to a compelling start.

I voluntarily reviewed the book, and all comments are my honest opinion

Good story - A woman (Amber) who's father runs a dog training facility comes back to town when he is murdered. She hires a new trainer (Evan) to take over training. He's former military and has PTSD and he has a dog who saved his life and Evan saved his in return in combat and is trained to do a number of things.

I loved these characters - together Amber and Even try to find out who killed her father and fall in love at the same time.

This is more of a romance than a mystery. It was very obvious from the moment we were introduced to the killer, who dunnit and their motive.

The dogs are the real stars of this novel and I look forward to meeting more of these K-9 cuties. If only cats could be trained like that!

Nancy says

Slow .. repetitive .. mostly manufactured suspense .. written at a low level.
It did convey the importance of routine in caring for/training the dogs.

Great

A really good read. Has a whole lot of action, thrills, mystery and suspense. The story holds up, with some interesting characters. Throw in a good love interest and you have it all.
