Title: King Takes A Mate

Series: Shifter Fight League

Designation: Book Four of Four, NOT a Standalone, Happy For Now

Author: Mina Carter

My Rating: Five Sinfully Sexy Stars*****

All Hail the King! Mina Carter just rocked my world - AGAIN - with The King Takes A Mate, the fourth release in the sinfully sexy Shifter Fight League serial. And yes, I said serial so that means multiple installments but never fear, folks, this installment delivers a satisfying happy-for-now for Logan and Zara, and what a story it is! So, if you haven't read Books One, Two and Three, In Debt to the King, King's Property and King's Proposal, please stop here. I do NOT recommend reading this sexy short as a standalone. It does not end in a cliffhanger but rather with a satisfying happy-for-now. Hopefully, we haven't heard the last of Logan and Zara! I've been a diehard Mina Carter fan for years and never tire of reading her highly imaginative storylines and addictively sexy prose. I know before I ever start the book, I'm guaranteed a mind-blowing read. Carter never fails to deliver a well-crafted, fast-paced, delightfully entertaining story filled to the brim with heated attraction, fiery passion, steamy sex, dreamy romance and swoon-worthy characters. And the King Takes A Mate is no exception. The narrative is beautifully written in the third person with dual his and her points of view. The dialogue is smart, snappy, natural, seductive, witty, at times laugh out loud funny, well executed and flows effortlessly. I adore Carter's writing style and unique storylines but it's always her sexy as sin characters who capture my heart. They're fascinating, intriguing and totally engaging. And I loved how Carter included characters from her other series. There were references to Veyr of the Master of the City Series as well as Alex and Ethan Kingwood of the Kingwood Pack Series. And we even had a mention of the Reaper Laney Larson) and her copy boyfriend from the Liberty, Oakwood Series. It was fabulous! It certainly appears this story is far from over and there'll be more to come. I sure hope so! I've never found another author who could pack so much wickedly delicious goodness into one sexy short. I love it! So, sit back, buckle up and get ready for another wild ride!

Alpha werelion Logan Reese, King of the Ring and head of the Shifter Fight League, has everything a man...um...lion shifter, could want. Well, almost....he saved the woman he loves from being given as a prize in an illegal underground shifter fight operation run by her own father, James Hunter. And now, she's carrying his child...kitten...cub...whatever, you get the picture. Unfortunately, as a result of her pregnancy, her life may be at risk, not to mention the danger posed by her criminal mastermind father being still at large. All this is seriously interfering with his plans to make Zara Hunter his mate and his lion is growing more impatient every day. The time for officially claiming his feisty new lioness and marking her with his bite is long past due.

Zara Hunter had always believed that her father's lion shifter gene had completely missed its mark with her. She had always believed she was human...until her alpha lioness decided to peek out and make her presence known. And now, she has everything a woman could want. Well almost... She's in love with the sexy alpha werelion and King of the Ring Logan Reese and he says he loves her too. He better because she's carrying his cub. But there's just one little problem...he hasn't claimed her yet! What the heck? What's a girl got to do to get her man to bite her? Hmm... I have some ideas but we'll see! No spoilers from me but I will say this...Beautiful alpha lioness trying to get her man-check! Handsome, hunky, no-nonsense alpha lion shifter and reigning champion of the Shifter Fight League who needs to claim his woman-check! Heated attraction,

raw passion and dreamy sex-check!

Did I like this story? No, I LOVED it! Would I recommend it? You bet and I am but only for adult readers since it does contain a steamy, dreamy love scene. After all, this is a Mina Carter story and we all know she writes the hottest love scenes - EVER! Will I read this author again? Absolutely, just as soon as she releases her next book! Was I entertained? Oh my, yes! Totally! Fabulous entertainment and an awesome read!

Zara has been rescued and clean-up and wrap-up of the situation has begun. Zara is now engaged to Logan but the mating hasn't happened yet. Some secrets are revealed. Logan is very concerned about the health of Zara and their cub. The emotion and passion between Zara and Logan are very strong.

This is a very short read and is not really a stand alone. It is best that you read the whole series in order, but for the story to make any sense you must read the previous book King's Proposal. I really wish this segment was longer. What was written was fantastic.

I received a free copy for my honest opinion.

Pam Louis says

The king of the ring is Logan Reese and his mate is zara and she is carrying there cub. He calls a meeting with all the powerful leaders from the different factions see if anyone knows where Zara's evil father is "james hunter"

The meeting was a blast to read all those alpha males in one room lol but the heat went on full blast then Login got home to his mate lol, very hot.

It's a short and very fast paced story but lots of fun

If your a shifter fan yes you should read it but a little warning it's part of a series and now that I have read this one lol I want to read them all.

Book given for an honest review and I honestly enjoyed it.

Angela says

Logan Reese finally has what he wants ... Zara Hunter. All he needs to do now is hunt down her traitor of a father and destroy anyone and anything that thinks to challenge him or take his mate. Oh yeah, and claim her to make their mating official.

Having been rescued from an illegal fighting ring run by her father, Zara's life has changed drastically. Shifting and defeating an enemy was something Zara had never thought she would do, especially since she grew up thinking she was human. The most drastic thing, she is pregnant with Logan's baby. Now she has to worry about the pregnancy.

Logan will stop at nothing to claim his mate so that everyone knows she is his. Zara will do whatever she needs too to protect the life growing inside of her. Together, these two Alpha's will be unstoppable.

I have read every story in this series, and this one was AWESOME!! Zara is definitely a kick ass and take

name heroine from the first story, and nothing has changed. Now that she can shift into an Alpha lion, she is more badass. And Logan is the ultimate Alpha male. What I loved the most is the potential for one of Mina Carters other series to make an appearance. If you haven't read the other stories in this series, then buy the books, because you are missing out. Definitely a must read for any reader that loves paranormal stories.

I received a copy of this book from for an honest review.

Ugh I need the next book...

Deanna from Deanna's World says

I'm assuming this is the last installment of the Shifter Fight League series but I'm not certain since the last book was supposed to be the last.

This is a short, sexy story of Logan, King of the Ring, claiming Zara as his mate.

There's a little bit of wrap up from what happened in the previous book, King's Proposal. After that, it's just a little sexy fun as Logan finally marks and claims Zara.

I've enjoyed the entire series of the Shifter Fight League. It's also made me want to go back and read the Kingwood Pack series since Alex Kingwood makes a few brief appearances in this series and I'd like to read more about it.

I'm looking forward to whatever Ms Carter might write next. I enjoy her short, sexy reads.

Lots going on

Yeah mates at last. This serial is excellent. Normally I hate serials but this one is so entertaining, I don't hate the shortness of the episodes.

Karen Shortridge says

I received this for my honest review. As I have not read part 3 I have missed part of this story and can only

comment on what I have read. Zara has been saved and is in love with Logan just as much as he is with her. After the events of the illegal fight club James, Zara's dad got away so everyone is out looking for him. While Johnson the fighter who tried to help her is hurt bad but no one is sure what he is and why he isn't healing. Logan and Zara are having a baby and he finally claims Zara as his mate.

Angie says

Hopefully not the real end!

While I could see this being the end for Logan and Zara, or at least a happy for now end, there are too many questions unanswered. What's going to happen to Johnson? Will they find and finish what James started? Will Zara's brother get his own story? If I could remember more names, I'm sure I'd have more unanswered questions in regards to them. I have faith in Ms Carter though, since we've seen so many of the city leaders already mated. (Meaning if you don't recognize some names in the meeting Logan had, maybe you should look up Ms Carter's other super short, or shorties, to see who y o k u could find.) Jump in to this short series with both feet, knowing that Mina Carter will show you the way of the shifters!!

Kim says

One unmated woman, a cub on the way and a hot werelion that wants to make sure that his family is claimed. King takes a Mate is a short and hot read. Zara takes care of everyone first and Logan only has thoughts of when he can safely claim her. The book opens on the chaos after a fight is finished and seamlessly moves to the end with the passion of Logan and Zara. The only downside to this hot read is a bubble bath that shamelessly goes unused.

There is a nice teaser and nod to the Reaper books. I appreciate it when an author can touch the different series that they write without detracting from the current story. King takes a Mate is book 4 in the series. You don't have to read the first 3 first. However, it would enhance the enjoyment and to figure out who is who in the story if you read them first.

Questian says

This is the 4th book of the Shifter Fight League. The verdict? It was as really good ending!

The flow of the story is really good. From a very explosive start to a very sweet and hot ending. It was a really good closing and it left me hoping for more from this series. It was so darn beautiful that the simplicity was the key for the readers to like this book. Ms. Carter is another of those To-Go- authors for me because her book are light, erotic and they are the kind of books that I crave after reading a very long series and I find myself not satisfied with the result of my reading.

In this series, it was a really intense. I mean WOW! The adult scenes was really good and I was fanning my face. But as I read the way the characters thought of each other there was a definite swoon factor for me. I

find myself saying "Oh My heart be still." The Lines are simple but the meanings behind them are the best.

I will not go into deep with this book. For me it was one good book!

Kattz says

This is a good addition to this series. I love the characters and this story is well written. I received this story in exchange for a honest review.

***Dee's Reading Time Matters says**

Logan and Zara's story continues with a new story line about the injured fighter, Johnson as a possible urban legend (hint-hint)?? Not a shifter but a supposedly myth! Oh boy and the claiming was just off the chart! This is not the ending to King Logan and werelion, Zara's story by a long shot!

Julia Handley says

I was given this ARC in exchange for an honest review.

This carries on from the last book, after the events of the illegal fight club. James, Zara's dad got away so everyone is out looking. Johnson the fighter who tried to help her is hurt bad, also no one is sure what he is and why he isn't healing. Everyone is on the warpath after the illegal fights and finding out what we'll who they used as prizes. Logan and Zara having shared I love yous. All I can say about this, is its about time :) and they having a baby. It's just a short read of the aftermath but is such a lovely read. And woohooooo Logan finally claims Zara woohooo. I'm still angry with James and how he betrayed his kids. Zara and Ky deserve some closure with him, even better, to at least throat punch him. A fight is brewing but at last Logan and Zara have finally admitted how they feel. AT LAST!!!!

L M says

I like it but not good value for money.

As I have not read part 3 I have missed the bulk part of this story and can only comment on what I have read in this book which I think is a bit difficult to do fairly. The whole story is basically told in the blurb.

Zara has been saved and is in love with Logan and he with her. Logan has a meeting with all the other shifter groups to deal with a problem in regards to Zara's father.

They have hot sex and Logan bites Zara making her his mate forever.

Mina Carter writes great books but these short little excerpts are becoming annoying for me. I end up paying way too much for what is technically still a short book by the end of it. I did not read part 3 as I would not pay the asking price of \$4.00 for so few pages. This book ends up costing \$8 for less than 150 pages. Value

for money is important to me when buying books, no matter how much I like an author.

I can only assume all the high ratings on amazon.com are due to them being able to read these books with kindle unlimited, which means you are able to read these for free. This option is not available in my country. This my honest review for this book.

Addendum- You can now buy the whole 5 books as one book for better value.
