**The Tarot Witches I-IV: Caged Wolf/ Forbidden Witches/ Winter Court/ Summer Court** S.M. Reine  
This is the complete four-book collection of The Tarot Witches, a New York Times bestselling paranormal romance series.

There are seventy-eight cards in a tarot deck, and each card has been appearing in the mailbox of a different witch. Each one bears a message for the unlucky recipient, and it brooks a warning: fix your life and earn power beyond imagining, or lose everything you care about.

Werewolves are drawn to the scent of these tarot witches, driven to bond and protect them. The desire to mate cannot be conquered. And entire packs will rise and fall for the love of the tarot witches...

Book One: Caged Wolf

Book Two: Forbidden Witches

Book Three: Winter Court

Book Four: Summer Court

**kaitlin says**

**A lot of sex**

The stories lines were great but than there's a lot of sex I mean Aton of it so it kinda made it into a cheesy porn lol but I did enjoy it I must say it was interesting

---

**Barbara Wells says**

**Gripping, interesting, and magical!**

Great read. Once you start the series you won't want it to end. Full of magic and fun. I can't water to read more from this author.

---

**Phyllis says**

**Ok**

The book started out interesting but I lost I interest in the middle by the end it was hard to finish because the story was out there

---

**Laura Coles says**

**Another great collection from SM Reine**

Wow this author know how to build a world of fantastic magic and mystical beasties. I have read almost all of her works and i love how most of them tie into each other.

---

**Sheila says**

I read each of these books when they first came out. In the first book we meet Ofelia (she is one of my favorite character's in the SM Reine universe) Ofelia is a tough witch with a dark past. She has no issues using both her body and her mind to make a living. But things change when she meets a biker named Trouble and is drawn to him like no other and he to her. They work together to save each other from past secrets and the Fang Brother's biker gang. Ofelia and Trouble make a formidable alliance of love, sex, magic and power.

In book 2 we meet sweet, good girl Leah. Leah's life is about to change when she gets a mysterious tarot card

that is also ticket to a show for the band The Forbidden. Turns out the band needs a tarot witch like Leah to mate with a dying werewolf in order to save him. Problem is that not only is Leah not a witch, she doesn't even believe in magic at all and then things get even more complicated when she ends up falling for a different werewolf who does not feel the same way towards her. Turns out Rage, the lead singer of the band is a high priest of his coven and he plans on getting Leah to surrender herself. If you want to know what happens to Leah, the dying werewolf and the band, you must read this amazing book.

In book 3 When we were first introduced to Pierce and Jaycee Hardwick, I thought how evil, they do not deserve to be happy! After reading Winter Court, I actually found myself rooting for their happiness. I enjoyed reading their backstory. A happy ending that is really just the beginning. I love when past characters make an appearance. I never thought I'd find a lesbian threesome to be so hot, but dayum!! Sex that conjures powerful magic??!!! What a great imagination SM Reine has, she uses fact & fiction to tell fantastic stories! A must read!!

Book 4 is all about Samita and Slater. What I love about SM Reine books is the fact that even though each series is it's own distinct series with specific characters they all tie in together in some way, the same worlds at different times or different worlds at the same time, sometimes you see a character from one series make an appearance in another or maybe you will find one of their ancestors! This book tied up a lot of loose ends and unanswered questions for me. Samita reminds me of my mom, fiercely independent and intelligent with a sense of adventure (and a need for speed!). I love that even with all she was dealing with she refused to take pity in herself and give up. Slater is someone that you wish was yours. I loved him but felt sadness for him when I learned of his story. He was devoted to Samita in a way that every woman wishes for. The sex scenes were fantastically written, cold showers might be required near the end of the book. I loved the happy ending.....Knowing SM Reine even though it was the end of the Tarot Witches, it doesn't mean it's the last we will hear of many of these characters.

All in all this collection of books is amazing and you really need to add them to your library!

---

### **Michelle Clayford says**

This is not my favourite series of SM Reine but I still enjoyed it. It's great to get some closure on The God series with Ragnarok.

---

### **Tina Pegar says**

This is a very sexy series that adds a full cast of characters to the Descentverse. Many of them will appear in other series but this one can easily be treated as a stand alone and is a good glimpse into the universe to see if you want more. I recommend this for anyone looking for the sexier side of this genre.

Each of the stories builds on to the previous one with the conclusion of this group in the final book. In the first book you are introduced to the Tarot cards and how these witches are matched with mates and the story continues to grow as more and more Tarot cards are out there and the characters are all connected together.

I received a free copy of this book in exchange for a fair review.

---

## **Ann O'Nymos says**

The whole series could have done with less graphic sex for my liking. I loved the build-up of the group and faerie/witch/werewolf thing. The magic through sex thing is an interesting idea but it wouldn't have to be that bold or so downright rough to drive the point home.

Also, better read this series in the right order with the other series within SM Reine's universe. I made the mistake to read Magecraft first and was now trying to remember who became who. I also might have enjoyed the later book more with this background stories.

---

## **Shirley says**

I read these books individually as they were released. Getting them all in one set is an amazing deal! Below are my individual reviews by title: (FYI - excuse the length of this review - I tend to ramble when I review books by this author ;) )

### **Caged Wolf**

This is S.M. Reine with an edge. Not that her books didn't have an edge already... I suppose I need to clarify the type of edge we're talking about here. I've mentioned before that this is an author who doesn't hold back. Her books are full of raw emotion and she sugar coats nothing. That's one of the things that I love about her writing. They're also laced with a touch of romance... here's where the different kind of edge comes in with Caged Wolf. Even though she didn't shy away from sex in her previous books, Ofelia and Trouble take things to a whole new level compared to what S.M. Reine's readers are used to. I am so NOT complaining. I loved the heat between these two characters. I just thought it was fair to warn readers of her previous books that this is not what you are used to. My opinion still stands, if S.M. Reine writes it, I will read it. End of discussion.

Ofelia isn't exactly a character that we are familiar with, but those of us who have started the Preternatural Affairs series know her brother, Cèsar Hawke. He doesn't make an appearance in Caged Wolf, but he is mentioned a few times. Both Ofelia and Trouble are broken and are in situations that are beyond their control. Things aren't quite what they seem though. Ofelia trusts no one and doesn't appreciate the alpha stance that Trouble takes, even though she's drawn to him more than she knows is safe. Trouble is beaten both physically and emotionally but he can't resist Ofelia. It takes them a while to figure out that they're much stronger together.

This is the first book in a new series, The Tarot Witches. I love the premise. It's laced with shifters, magic, mystery and the makings of a supernatural equivalent of a treasure hunt. I can't wait to see what happens next and where paths with familiar characters may cross.

### **Forbidden Witches**

First, this is not your typical S.M. Reine werewolf/magic romance. Before you pick this one up, pay close attention to the disclaimer in the description. The Tarot Witches is definitely the most erotic of all the series that this author has written. For the record, I'm kinda lovin' it. ;)

Leah knew nothing about magic, much less werewolves and witches. None of that existed in her world. That

world changed drastically when she received her tarot card. She realized that there was a lot more out there than she could ever imagine and her 'education' took a whole new turn.

Readers also learned a little bit more about the Tarot Witches. There's still a lot left to reveal, but one thing is a constant. There is a special link between the wolves and the witches and the bond between them is... well, intense is putting it mildly. I loved the dynamic between Donne, Leah, Graham and Rage. The rest of the witches in the coven added a whole new layer to the mix, not to mention the 'other' characters. As an extra bonus, previous characters make a special appearance which just added to the fun. I have to say though, one of my favorite characters in Forbidden Witches was Chad and I'm really hoping that we get to see more of him.

### **Winter Court**

The Tarot Witches series takes things to a whole new level in S.M. Reine's world of many layers. Most of Reine's other books fall neatly into the Urban Fantasy genre. This series leans heavier into PNR/Erotica, and for the record, I'm not complaining. Just thought I'd let readers know that smexiness is a HUGE part of this series and just with every other aspect of this author's writing... nothing is held back. Nothing!

As much as I love this series and really liked this book, I gotta be honest. I really didn't like Jaycee... in the beginning. She eventually grew on me and I understood her reluctance, but it took a while. I know that the way her character was presented was intentional, but I would have been happier with this book if Jaycee had won me over just a little bit faster. Since I fell in love with Pierce from the beginning and he obviously loved Jaycee regardless of how she acted, I had to give her the benefit of the doubt.

A few of the mysteries behind the Tarot Witches are revealed in Winter Court, but not all. In fact there are a few new ones thrown into the mix. There's some foreshadowing (or history, depending on which books you've read) that continue to tie everything together. That doesn't even include all the new powers that the witches have gained. Needless to say, things heat up... which is kind of ironic, given the title.

### **Summer Court**

This series in SM Reine's world needs to come with a warning for some readers, even those who have read most of her books. The Tarot Witches is a lot more sexually explicit than any of her other series. I feel like I have to mention this because some readers have found it too much. The irony in Summer Court is that Samita is just as turned off by the sexual laden magic that the Tarot Witches and their mates thrive on.

I've got to admit, I got kind of frustrated with Samita in the beginning. It was obvious she loved Slater, but she held back. She almost had a 'greater than thou' attitude that kept me from really connecting with her, but she eventually grew on me... eventually.

There's something else that bears mentioning... be prepared to gain a different and possibly unflattering perspective on previous characters. SM Reine is turning into a pro with this little ploy, which may have been why it took Samita a while to grow on me.

Summer Court wraps up the Tarot Witches but, as with the other books in this world, it adds just another layer. And... if you're someone who skips prologues and epilogues, don't. Not with this book anyway. Connections are made, questions are answered and for me anyway, there were a couple of 'duh' moments.

*I received several of the books in The Tarot Witches series in exchange for a fair and honest review.*

---

## **Vannessa says**

I read this book as an ARC for the author but these reviews are all my own. I enjoyed this series and some of the books I preferred to others but overall I enjoyed the idea of the tarot witches, some coming into their unknown powers; others being witches already and using their powers in one way or another. There is a lot of sex in these books, so not for the faint-hearted I guess, but as the witches' powers were enhanced by the sex with the werewolves, it was necessary for the story plots to move forward.

I also loved the lead into some of Sara's other series that I have read.

My individual book reviews are linked here if you want to read more:

Caged Wolf  
Forbidden Witches  
Winter Court  
Summer Court

---

## **Sarah Cleaver says**

If you like witches you may like these there full of drama and intrigue

---

## **Veronica says**

A little disappointing

After reading all four stories, I am disappointed at the gap between books 3 & 4. It leaves out a lot of events and is a bit jarring. This series is very dear, and darkly sexual in nature so not for the faint of heart. The overall premise is good but I would like to see the series rewritten and expanded.

---

## **Lucinda says**

A sexy series of books that continues to flesh out the Descentiverse with Sara's excellent writing.

Magic, witches and the end of days.

You'll never regret reading this or any of S M Reine's books - of which there are plenty more to stick your nose into!

---

## **Nikki Riley says**

So I am realizing I may have liked the books better if they were not included all together, and in all honesty I am only just finishing three of four but given how well reviewed these books are I kind of felt it necessary to throw this one out there. The 3 stars are because the underlying tarot witches concept is pretty good. The book is well researched and the details about tarot and how to read the cards is great. The overly "sexy" nature of the books is where the series lost it a bit for me. I am no prude when it comes to this type of book, but I found myself actually skipping over chunks of the books because some of the story seemed lost for the sake of including several pages of graphic "sex magic" scenes. I will actually finish the series, but mostly because I am not a book quitter, and not because I actually like the direction the series is taking.
