Venice Vampyr Tina Folsom

Librarian's note: This is an alternate cover edition for ASIN: B004G5ZSJ8.

Venice, early 1800s

Isabella Tenderini, a wealthy merchant's widow rescues a stranger from drowning in one of Venice's canals. And how does the man repay her selfless act? By kissing her - her, a respectable woman.

Not only is Raphael di Santori grateful for his life being saved, he would also like to thank his rescuer very intimately - more intimately than decorum allows. But then, Raphael has never been one to play by the rules - as a vampire he doesn't have to.

Dianne says

Did you know that vampires do not float if thrown into water? They sink and that's how Isabella, a young widow, meets Raphael, a vampire, as he is "drowning" in one of Venice's many canals. Their attraction is immediate and their self-control is completely gone. Who would think a mere human could keep up with the sexual appetites of a powerful vampire?

Venice Vampyr by Tina Folsom is a blend of a paranormal romance, an erotic journey that will cause your eyeballs to smoke and even has a little plot tossed in! Too short to fully develop her characters or much of a plot, Tina Folsom did create the erotic side of this novella to the max! If you're the shy type, hide in the closet, wrap your eReader in a plain brown wrapper and sit back for a brief escape from reality!

Series: Venice Vampyr #1

Publication Date: December 12, 2010

Publisher: Tina Folsom

Ginger says

A dirty talking vamp and a proper lady, how could you go wrong with this little novella? As a book I would give it three stars but I slipped in a fourth star because it is only a little book and she wrapped up everything so nicely.

A little bit of action and a lot of 'debauchery' quickly take you through this story. A steamy quick read that quite possibly will leave you panting for more.

Crystal ♥ RBtWBC says

Venice Vampyr is a sensational and steamy must read!

As a novella, Tina has put together a short but well-developed story line & brought new concepts to the vampire world with a stunning Venice setting. Great characters with awesome chemistry, Isabella and

Raphael are a phenomenal couple. Isabella's sexual awakening and Raphael's yearning for love, that he didn't even realize himself until meeting Isabella, are both deeply compelling and sensually arousing. And the romance in the story was unbelievably moving. I also loved Tina's photos of Venice at the beginning of each chapter.

This is an erotica, so although it does have a great storyline there is a lot of smoking hot sex! Voyuerism, bondage, rear play and more, though tastefully done is not for the faint of heart.

Loved it!

4 flaming hearts

Heather C says

So apparently, I picked this one up for free at some point on Amazon and came across it while I was scrolling through my Kindle looking for a book to read for our vampire themed week.

It's early 1800s in Venice, Italy. Widow Isabella Tenderini has already lost her husband to drowning when she comes across an unconscious stranger who is about to meet the same fate. After rescuing him, she brings him back to her home...into her personal chambers. Before she knows it, Raphael is awake and is kissing her and propositioning a discreet affair. But Isabella is under the tight watch of her dead husband's cousin...a man who could ruin her business and her standings in society if he had proof of her inappropriate activities. Something Isabella doesn't know about Raphael: he's a vampire!

I really enjoyed this book!

Yes it was more erotica than plot, but this time that was okay because Isabella and Raphael were scandalous!! I don't read much M/F erotica, so the explicitness of the sex was a welcomed surprise from what I'm used to reading in het romances...there was even a bit of anal play. And Raphael was quick to prove to Isabella that nothing was "taboo" between them and I loved that about him. He never allowed her to feel dirty for her desires and encouraged her explorations.

There was a little plot with the vampires. In this world, the vampires are being hunted by a human group called the Guardians and that thread somewhat connects Isabella's life with Raphael's. I do think that Isabella's belief and fear of vampires was resolved a bit to easily, but this was erotica so I shouldn't complain.

Looks like the next book is about Raphael's brother Dante. I definitely plan to read about him!

Note: The author has included personal photos she took of Venice at the start of each chapter. I'm sad to say that the desired effect was lost on me because I read on a black and white Kindle Paperwhite, but I did go back to my computer and pulled up some of the photos. Very nice.

3.5 Stars

Hbeebti says

Great sweet and very sexy book. I need the rest of this series.

Kristi says

Awesome novella! Though shorter than a book, by nature, it does not lack in amazing writing. The characters have amazing chemistry, and the steamy love scenes were done very tastefully. I know some may not be able to handle explicitly written love scenes, but to me, they were always very tasteful and never too over the top. For those who are used to books in which the love scenes consist of somewhat vague description of sex, "Then he made passionate love to her.", I suggest you prepare yourself for a far more accurate and detailed description of sex scenes in this novella. Very HOT :) and kept me unable to put my Nook down!! I think there is another Venice Vampyr book coming out soon, and I will definitely be reading that one as well! Highly suggested hot, hot read!!

Nina says

A quick steamy prn read. The sex is hot and there is plenty of it throughout but there is also a story to go along with the heat.

Alpha
A lot of hot sex
Strong heroine
Safe

Lisa Smith says

quite intense...good read...enjoyed it...

Anzu The Great Destroyer says

Nah, I can't handle this shit. DNF.

Rachel Annie says

Books on my "Yum! Cotton Candy Reads" Shelf are just that. Hot, light, and fluffy like freshly-spun cotton

candy at a fun park. Sure, it's not perfect or even good for me, but it's damn enjoyable!

*This novella has a good bit of dirty talk and some steamy debauchery. However, if you're looking to be immersed in a rich and detailed historical setting, honey, this ain't the book for you.

Karma Queen says

Every time I read a book featuring a vampire I learn something new about them. Who knew they couldn't swim due to their body density? It's a good thing for Raphael that Isabella is a human who can swim because she rescued him from a canal in Venice. This handsome, lusty vampire ignites a passion in Isabella that she didn't know existed. Another reviewer called this a cotton candy read and I have to agree. It was light, hot, and sweet and you can finish it in one sitting.

jD says

Isabella's got a little bit of freak in her thanks to a vamp named Raphael!

This story is a short, sweet, and sexy read. It's a novella so it's pretty compact but the scenes are well balanced. Isabella and Raphael's characters are fleshed out well for such a short story. Oh yeah, there is a plot along with scorching erotica. In Tina Folsom's world, vampyrs can't swim, they sink to the bottom and drown because they are too heavy to float. So of course, there are a group of vampire slayers who push unsuspecting vamps into the canals of Venice. Hey, if it works why bother with stakes and the possibility of vein trama. The story starts with Raphael being pushed into a canal and sinking to his demise. Isabella, a widow who lost her human husband to an 'accidental' canal drowning, dives in to save him. She is a proper lady so of course she is not ready when Raphael takes over her life and her bed. He makes short work of her inhibitions and a troublesome family member. As readers, we get to watch him work -- Yow! This is not kiddie pool erotica, you gotta be ready for the deep end. I am so going to read Raphael's brother's book next. His name is Dante and he has rake written all over him. Beside, Amazon sells the twin pack on the cheap for Kindle so it was a no brainer to double up.

Iza says

I got this one as a freebie many many months ago. Since it was the subject to a group read on GR, I jumped along and thought it would be a good way to get to finally read one of the numerous books left miserably alone and unattended on my kindle.

Well, I can't say this was the best book I ever read, but I can't say this was the worst either. It was a mix of historical romance, vampire romance and smut. Raphael was a dirty talking vampire with a strong liking for sex, no touching his woman, but showing her off on occasion.

The characters were not really developed, nor the atmosphere, but it was a novella. I could see them falling in lust, but not falling in love, not so quickly and with so little interaction. But boy, it didn't keep them from having sex as frequently as possible !

Nice read, all in all. I'll read the next installment.

Ollie says

Venice Vampyr is the first novella in the series regarding vampires living in Venice during the 1800's. These novellas are shorter than Tina's Scanguard Vampires series and much more sexually explicit (if that is even possible but Tina has managed to do so).

One thing I would like to first point out is that this paranormal erotica book is 5 ALARM HOT and I LOVED IT! This book is sizzling HOT and just what I want to read in a paranormal romance/erotica book! Yes the erotica is amazing but the romance part is also just as spectacular!

I loved the characters and how she is able to make them so complex and give them such depth.

Raphael di Santori is a vampire who is saved from drowning in one of Venice's canals by Isabella Tenderini, a wealthy merchant's widow. What happens between them is the dawning that each is drawn to each other by forces they can't explain. Raphael who has been never developed a close connection to any female is somehow drawn to this strong, beautiful woman who has a raw passion lurking behind the veil of social propriety.

This is not only an erotic book that has lots of explicit sex (have I mentioned that you will need cold showers) but also a mystery behind the storyline with characters that seem to come alive before your eyes.

I very highly recommend this book however I will place a warning that due to the explicit sex scenes some may not be able to take the heat. It is that hot!

5 STARS

Blacky *Romance Addict* says

This is so ridiculous, I have no words.

The main characters... I don't know which one of them is more stupid. The way they think and draw conclusions, I swear they should be lobotomized. For real.
