Charlize Newman left her sister behind with two men who can turn into werewolves. Determined to save her sister, Charlie returns to Forever, ready to do whatever it takes to get Shannon home—whether Shannon likes it or not.

Twin brothers Blane and Reese Rawlins have met their mate and their match in Charlie. Before they can get her to love them back, they have to keep her from shooting her sister's mates.

Reese is the tough guy while Blane is the smooth talker of Charlie's dreams. But when they get in the way of saving her sister, she doesn't care how great they are in the sack.

Just as the men think they've tamed their future mate, she ends up playing catnip for a werecat. They come to her aid, exposing their werewolf sides.

Will Charlie love her new mates? Or will she shoot her way back to Boston?

Awwe a baby shifter. Charlie is kind of nuts in the head and when she does a switch from wanting to kill werewolves to being one so fast, it made my head spin. I think all these books are terribly written but at the same time they are kind of cute. There really is no depth to them though.

Yummy, Hot and Heavy, Steamy read!!! Such a sexy book!! I love a hunky shifters!!! The story could have been better but overall an enjoyable read! The series is getting better, and the story is slowly progressing.

Oh, and I love a delicious paranormal menage!! The more the merrier!! Once they get into the steamy action things move along rather quickly. I would have liked a bit more build to make feeling believable.

There is just something about this series that keeps drawing me into each book. I hope it gets better with time. It is a really promising concept.
