Witch Hunter Vol. 1-2

Jung-man Cho

Witch Hunter Vol. 1-2 Jung-man Cho

Witch-hunting galore in 320 page omnibus format!

Witch Hunter is an all new shonen fantasy manga series in the vein of *Soul Eater* and *Full Metal Alchemist*, presented in two-volumes-in-one omnibus format. Seven Seas will release the entire action-packed series across six low-priced omnibus editions.

In a world where witches have declared war against humanity, the surviving human population has gathered specialists with the power to hunt and destroy witches.

Tasha Godspell, also known as the "Magic Marksman," is one of the best Witch Hunters there is. Along with his sword-wielding Jack-o'-Lantern partner known as Halloween, Tasha puts his magical training and weaponry to good use, in his constant battles against witches. And yet, he cannot bring himself to fully hate the very witches he is tasked to destroy.

Mike says

This collection contains volumes 1 and 2 of the manhwa Witch Hunter (as originally published).

Tasha Godspell, known as the "Magic Marksman," is one of the best Witch Hunters there is. But it's not just duty that drive him and his sword weilding, animated jack-o-lantern partner Halloween. Tasha's adventures have a very personal goal beneath them...

Witch Hunter is in some ways standard fantasy fare, with an organization sending specialized agents to deal with perceived unnatural threats (in this case witches). The volume's description even makes comparisons to two of the more popular manga series in similar veins, Fullmetal Alchemist and Soul Eater. The idea is somewhat valid, as parallels can be drawn and there is a certain feel all three series have that is likely to make them appeal to the same general audience (and personally I also see traces of King of Bandits Jing in the style as well), but Witch Hunter has enough unique elements to shine on its own.

Without getting into spoilers, we get a strong central cast introduced in this initial double volume as well as learning some big story points early that are likely to carry through the series. This is a great way to give the reader a nice glimpse of the stakes and allow empathy with the characters even while important information and other plot points are being laid out at a more careful pace. The twists on magic and the rules of the universe revealed so far are interesting, the action is well done and humor and drama are well balanced.

The art is crisp and flows clearly allowing the reader to easily follow action sequences. The reasonably detailed backgrounds somewhat frequently give way to overly minimalistic ones, but honestly I didn't notice that at all until I flipped through the art again to write this review.

Witch Hunter is off to a good start as a fun little adventure series. Looking forward to reading more.

Tina Bartholoma says

Similar in feel to Soul Eater or D. Gray-Man, enhanced humans are fighting the supernatural, but the storyline is more accessible, which would make it good for a younger teen audience...except for the author's raging efforts to make the witches' costumes as risqué as possible, which keeps it on the older teen level. That being said the multitude of variations on the good guys military costume is a fantasy fashion treat.

Sarah Telling says

Loved it!!

Jane Lynn says

I enjoyed this manga very much. Similar to soul eater, (another favorite of mine), the premise behind is humans vs supernatural beings, in this case are witches. The manga has a nice balance of suspense, dramatics, and humor. Also, the story line has a nice flow were it's neither fast or slow pace.

Regina Durst says

Not my favorite manga in the world, and certainly a lot of fan-service, but engaging in its own right.

Kathleen says

I'd recommend this for Madoka Magica fans.

Rhonda Skillington says

I LOVE THIS BOOK!!!! I have read it about 9 times. I cant help get sucked in everytime I see the cover. I have passed it off to 4 friends and they all loved and cant wait for me to get the next 2 books (vol. 3-4). Not one factor in this book disappointed us.

Much like soul eater in the action, adventure. Having the character that no one really likes (Soul eater : spirit, death scythe). Having the really awesome character (Stein) and the incredible two main characters (Maka and Soul).

Danielle says

I really love this manwha, I found it once while browsing through the manga section. I have it in paperback, and the story is really addicting to read. Lovable, funny and different characters, not the usual justice-freak you would see in an action-packed clichè adventure set in medieval times, or in this case a different world(?) But with the medieval environment. Every time I read the manwha over again, I would find little details I didn't quite catch on the first read. When I'm asked for recommendations, this is one of the first I name.

Jennette says

This was an awesome start to this series!!! I will defiantly Finnish it :) must read!!!!
