## With Vengeance Brooklyn Ann

SHE MEANS BUSINESS

Twenty-three year old Katana James can shred on the guitar. Not that anyone would know, as she's spent most of her time working on a popular news and gossip website for Heavy Metal fans since her own band broke up. But her dreams are in reach when she gets an audition to play with her favorite band, Bleeding Vengeance. Kat won't let her gender, her anxiety disorder, or even the pranks of a malicious stalker stand in her way. The only thing to threaten her focus? A growing fascination with the group's brilliant, mysterious bass player.

## HE OFFERS PLEASURE

Klement Burke has always been the heart, soul and brain of Bleeding Vengeance. He's the kind of rock star who stays in the shadows, a perfectionist more interested in satisfying his brain than other parts of his body. Until he auditions Katana James. At first it seemed a perfect idea, as he's been aware of her talent for some time. But meeting her in the flesh ignites thoughts far from professional. Despite the conflict of work, the odds against her falling for a geek like him, and the secret he's been hiding, his heart, body and soul now belong to Kat.

## **From Reader Review With Vengeance for online ebook**

### **Christine Woinich says**

This is the second in a series but is a standalone with a little cross over. A dream come true, getting to play with your favorite metal band. Katana, despite all her personal problems, wants this more than just about anything. She is taken by surprise when it is not her teen heart throb that gets her attention. Klement has not told Katana the truth about their first meeting and he is worried that it will come back to haunt him. The attraction is strong between the two, and they come through with flying colors. Her past tries to reclaim her, but with Klement's love and support, she survives.

I was given a copy of this book for an honest review, and I highly recommend this book.

---

### **Jess F. (From Me to You ... Book Reviews) says**

"4 out of 5 stars! Katana's (Kat) dreams are about to come true ... she just got the position to be the lead guitarist in her fave metal rock band. However, to prove herself, the band agrees to have her only be with them to record their latest record. Soon she proves herself to them while charming the pants off Klement (Klem), the lead bassist and the "band manager." Yet, with an ex and past fears trying to keep them apart, can Kat and Klement find a way to stick together through it all?

It's one sweet erotic rockstar romance intrigued me from the beginning..."

### **Meredith Wilson says**

Katana James can shred a guitar with the best of them, but she spends most of her time running a heavy metal website with her best friend Kinley. Then she is given the chance to fulfill a dream of playing with her favorite band, Bleeding Vengeance, and nothing is going to stand in her way. Not her anxiety issues or her crazy stalker ex-boyfriend. Enter Klement Burke, the mysterious bass player for the band. From the start, the connection between the two of them was sizzling hot, but he is hiding something from her. Will their relationship be able overcome this big secret?

With Vengeance was my first read by Brooklyn Ann and I have to say that I really enjoyed it. I love a good rockstar romance and this set the bar pretty high with all of the twists & turns thrown in there. I would highly recommend this to anyone and look forward to reading more of this author's work.

### **Riley Parks says**

**Smooth Writing and a Well Developed Story**

Very well-written. There was a lot going on, but the writing never felt forced.

Engaging! I devoured this book, wanting to know what would happen next.

Great chemistry between Kat and Klem. I liked her, but I loved him.

Exquisite attention to detail.

As intended, I despised Richard. At times he came off a little too cartoonish villain for me.

No doubt I will be going back to read book on and

Can't wait to read the third book in the series.

Excited to recommend this book to my friends who love m/f romance!

---

### **Bev Ross says**

This review is from: With Vengeance (Hearts of Metal Book 2) (Kindle Edition)

This book was excellent! Brooklyn is just brilliant! I loved Katana and Klement! They are perfect for each other! This was an amazing story I really couldn't put this book down I was so excited waiting for it and it was even better than I even imagined! Brooklyn has a way of pulling you into the story that just brings out all of the emotions! I can't wait to see what she writes next! I just love all her books

---

### **Zrinka Jelic says**

I loved this book even more than the Kissing Vicious. This book follows Kinley's friend, Katana or Kat as she auditions for guitarist for her favorite band Bleeding Vengeance. Since her teenage years she gushed over the bands lead vocals, Cliff. However, once she came up close and personal, he didn't exactly knock her socks off. But the band's bassist, Klement did, and more than just socks. The lanky guy with ADHD who held so many jobs to keep busy and his overworked mind on track, surprisingly hid some major muscle under his t-shirt. One of many jobs he held was being her secret IT Guy. And though his voice seemed familiar to her, she believed they are two totally different guys. In his talks with him, she reveals her feelings but is careful not to say too much. She's developing feelings for both guys, but is relieved to find out Klem and IT Guy are the same guys, though she dumps the IT Guy for Klem, which is funny since she dumped the guy for himself.

And there's also the jealous ex boyfriend, Richard who follows her and tries to cause trouble for her, but as always his own doings work out against him.

The sex scenes between Kat and Klem are hot and steamy that will make you lite up a cigarette when they are done even if you don't smoke.

---

## **Donna Wright says**

The Rockstar Book I Have Been Waiting For. I Loved This Book It Was Amazing, Epic And Out Right Hot As Hell. There Was So Much More To It Than Just The Rock Star Element. There Was A Huge Back Story And A Whole Lot Of Passion. Not Only For The Characters But For The Music That I Love Too.

The Chemistry Between Katana And Klement Was Off The Chart. When They Acted On It Its Hot As Hell. There Is A Lot of Secrets In Parts Of This Book But I Won't Spoil Any Of That For You.

This Book Is Full Of Music, Love, Fear And Hope. I Recommend This Book Greatly. A Must Read For One Of My Favourite Genre's.

---

## **Stephanie Mae says**

### 4.5 Stars

Kat gets a dream audition for her favorite heavy metal band, and yes she's a chick. I have to be honest I liked the fact that she wasn't a hard ass chick who likes metal. She wears makeup and dresses and is five feet tall. But I love that. Klement is in the authors words a geeky Viking. I know I know seriously hot right? He's the bass player for the band Bleeding Vengeance that Kat is auditioning for the spot of guitarist. She's twenty three, he's 35. He also has a secret! But Klement is immediately smitten with Kat. Kat on the other hand had always had a major crush on the lead singer. However, that doesn't last long before she's looking at Klement in a new light. Klement is the brain behind the band, writing the songs, and is a perfectionist in the studio. Their is a nice build up to Kat and Klem's relationship. In my opinion the author did an excellent job of timing, which for some is not as important but the flow of the book was just right. Again, in my opinion its the difference between a good story and a great one. This is a great one and I recommended.

## **Jodi Adams says**

Think you'll never read a romance novel - let alone sit up all night with one until you've finished it?

Think you'd never spend hours at parties telling astonished friends (many of them hyper male musicians and surfers) that you've recently become a romance novel convert - and explaining why?

Neither did I...until by a total fluke (I was looking up music biographies of various genres, including heavy metal) I got directed to Brooklyn Anne's "Hearts Of Metal" series as a suggested read.

Now I'm a long-time journalist who has done a lot of "serious" music writing, including working on a heavy metal/hard rock magazine, and I was immediately fascinated to discover that someone was writing romance novels set in this (until relatively recently) hyper-masculine world.

I was even more amazed (given my knowledge of romance novels was zilch) to find these books were peppered with strong, independent, openly feminist heroines (such as "With Vengeance"'s music blogger and guitar shredder Katana) who are more than a match for their rocker heroes!

I was not surprised to see metal musicians (like the bass playing hero, Klement) being portrayed as cat-loving, hyper-intelligent, socially aware and strongly moral: anyone who has seen the best-selling "Metal Cats" book of photographs of hunky metal musicians proudly posing with their pampered felines, or has moved in these circles, knows plenty of metal musicians who fit this description. Likewise, just as in any area of society, there are plenty in that scene who are selfish, sexist and just plain dumb...as some of the other characters in this book are accurately portrayed.

But what most impressed me most - apart from author Brooklyn Ann's accurate insight into this growing musical culture (in her Christmas e-book "Metal And Mistletoe", she even sets up a Romeo and Juliet pair of musical lovers who are from different metal genres, as well as different socio-economic backgrounds and races!) - is how from page one she hooks you into caring about her characters and wanting to know what's in store for them. Because, dammit, you like them!

The minute I had finished "With Vengeance", I immediately ordered "Kissing Vicious" (which actually flows into "With Vengeance"...a surprise joy was to discover that all the characters in the "Hearts of Metal" series are subtly intertwined in a flowing chain of stories), "Rock God" - the third in the series - and then the Christmas e-book as soon as it became available. And they have become my surprise Australian festive season reads, being devoured along with other Aussie summer sweet treats like passionfruit ice-cream, mangoes and (of course) giftwrapped chocolates.

Now that I've lost my romance reader virginity, I'm now going to delve into this auto mechanic turned novelist's other series while waiting for another "Hearts Of Metal" book (she's got to do one with a drummer hero/heroine this time!). And pin a photo of one of those lovely longhaired boys from "Metal Cats" up on my office wall, because I've learnt it doesn't hurt a girl to dream...

### **SHE MEANS BUSINESS**

Twenty-three year old Katana James can shred on the guitar. Not that anyone would know, as she's spent most of her time working on a popular news and gossip website for Heavy Metal fans since her own band broke up. But her dreams are in reach when she gets an audition to play with her favorite band, Bleeding Vengeance. Kat won't let her gender, her anxiety disorder, or even the pranks of a malicious stalker stand in her way. The only thing to threaten

her focus? A growing fascination with the group's brilliant, mysterious bass player.

#### HE OFFERS PLEASURE

Klement Burke has always been the heart, soul and brain of Bleeding Vengeance. He's the kind of rock star who stays in the shadows, a perfectionist more interested in satisfying his brain than other parts of his body. Until he auditions Katana James. At first it seemed a perfect idea, as he's been aware of her talent for some time. But meeting her in the flesh ignites thoughts far from professional. Despite the conflict of work, the odds against her falling for a geek like him, and the secret he's been hiding, his heart, body and soul now belong to Kat.

#### **Review:**

"Klement's breath hissed through his teeth. He stiffened, and his fingers stopped their exquisite ministrations. Not wanting him to let her go, she rubbed her cheek against his chest."

5 vengeful stars!!! Heavy metal, hot couple, sexy story... what more could you ask for??

Katana works for a gossip website for Heavy Metal fans, but she longs to be on the stage again shredding on her guitar! Luck comes her way when she's offered the chance to audition with her favorite band Bleeding Vengeance. And with that under her belt she refuses to let anything stand in her way... even the creeper stalker she has. Except that changes the minute she sees the bass player Klement. Klement is the force that drives Bleeding Vengeance, and is fine living in the shadows of his other bandmates. He's not your typical rock star. He's been following Katana for a long time and now that she's in front of him, he's smitten. But can she fall for him?? Not to mention he has a huge secret that could ruin anything he has planned for them....

I was hooked the minute I started reading!! This is a totally different rock star book, but that's not a bad thing at all!! It's refreshing to see a rock star not be all about the "rock star" lifestyle. Klement and Katana's relationship is pure and genuine and I can't say enough good words about it! I can't wait to read more from this series!

Review:

"With Vengeance" by Brooklyn Ann

### **My Thoughts....**

What a perfect pair as the author brings to us ... Katana and Klement. But as the story starts out it seems like Katana may have had eyes of another member of the Bleeding Vengeance band [Cliff] until great chemistry starts and she knew it was for another member of the band....the metal band's bassist, Klement. Be ready for a well written story that was a little predictable at times but still engaging where you will find yourself turning the pages to see what was coming next. This was especially in the part where Katana's ex boyfriend [Richard] was their being the villain that would bring in some suspense into this well told story. However, also what secret did Klement have that he was keeping from Katana? I liked the characters that were brought into the read a fun part being so well portrayed and believable giving the story some hilarious moments where you will definitely put a smile on your face especially with the hot steamy chemistry that these two had. So to find out how Klement [hot nerd & had ADHD] and Katana [who pops Xanax suffering from PTSD] will form this relationship you will have to pick up "With Vengeance" to see how well this author will pulls the reader into this well told story. It was great seeing just how these two were able to help each other.

So, if you are looking for a story about epic rock star romance pursing metal music with 'mystery, suspense, drama, erotic passion and steamy hot sex' then I would definitely recommend this good read for you.

### **Kathy Aronoff says**

#### **Another great book**

Hearts of Metal is a rock series that is not to be missed . Both books have strong women and hot rock stars

that are all heart. I am hopeful there is the possibility for more with many engaging characters that appear in Kissing Vicious and With Vengeance.

---

### **michelle Shelly says**

Great book! This is my first book by this author but it definitely won't be my last. I love books with strong females and Kat was just that. Her dreams come true and she's gets a interview to play guitar with one of her favorite bands.

Klement is the bass player for Bleeding Vengeance, he has a secret that he's keeping from Kat. When the two act on their feelings and become more then just band members, he knows he has to tell her.

What a great book! Not only are the characters awesome but the writing is fantastic. It's a hot suspenseful read that your not going to want to miss.
