Really hate when a series comes to an end, but Bite of Envy was worth the read. The black hat got what he deserved and I let out shout at his demise, scaring the heck out of my two cats. :) I'm glad Lizbeth worked through her problems, and is learning to accept what she now is. Kay Glass, you wrote a fantastic series, one that I will read again.

Liz Cabrejos says

Actually sad to see the series end but super excited to read Eamons story. Kay does not disappoint once again. I already love the characters and truly enjoyed the direction and finality of the series. I must say I adore that little RaeLynn and do hope she eventually gets her own series. Dia & Lizbeth are as fun and dysfunctional as ever, but hey what relationship isn't?? Story moved very quickly, always keeping you entertained. Great job Kay, look forward to your next series. If you enjoy paranormal, vampires, witches, romance, action, mystery, you'll enjoy this series, check it out.

Bite Of Envy By Kay Glass Is the 4th in this series featuring, Diandra, Lizbeth, Eamon, RaeLynn, Adrian, Carson and Sandra.. and WHAT Characters they are! I knew before beginning of this book that it would be the last in this series. In this story Lizbeth is struggling with her new life and still as a Detective (I'm trying not to give any spoilers from the other books lol)wanting so bad to put Carson behind bars, As with the other books Kay Glass weaves a story so engaging you don't want to put it down, AMAZING visual scenes.. horrifying murders, tender love scenes and confrontations that will make your heart speed up..I rarely have to put down my kindle at the end of a book and go get something to wipe my tears but in one of the last scenes the paw going up.. totally did me in as I whispered to the screen "goodbye"(no I'm not telling) Now I am one of these readers who read EVERY last word from the Author and Kay Glass when I read the coming books I literally squealed with delight THANK YOU!!!! I give this book 5 healing hands EASILY!! LOVED it!!!

Ravenz Reviews says

Bite of Envy is the 4th and final installment in the Just One Bite series and it was a wonderful end to such an amazing series. I'm kind of sad to see it end and hope that in the future, Glass decided to expand on the series.

In this final installment, Lizbeth is having a difficult time acclimating to her new life as a vampire and the DA, Giles Carson, that Lizbeth has been trying to nail, takes advantage of Lizbeth's weakened mental state to continue his quest for her demise. He starts targeting women that will get Lizbeth's attention and delves into her past to hit her where it hurts. Lizbeth bumps up her quest to take Carson down once and for all. And

when all is said and done there will be tears of joy as well as tears of sadness. If you've read the other books in this series, this conclusion is one you don't want to miss! And if you haven't read the other books in the series, then GO, READ THEM NOW!!!!

Natalie Gibson says

Lizbeth is a vampire now, having given her consent should her life be in danger. She is regretting having ever given that consent. She is feeling resentment that Diandra gained so much so quickly from being turned and all she, Lizbeth, got was hassle. As always with these two, the smallest thing escalates into a near life-changing, heart-breaking, relationship-ending fight. Their home is filled with bickering and misunderstandings. Once they realize the issues, they are easily solved. No matter what the problem, Lizbeth and Dia are determined to last.

Eamon the mentor vampire who prefers life as a cat, RaeLynn the super baby, and Adrian the Wiccan with a direct link to the Goddess and amazing blood regeneration abilities are all back to help in the battle with Giles Carson that has been building for four books. There are some new faces too. Andrew, the skater boy hacker, and Sandra, Lizbeth's ex-lover, join the fray to varying degrees of success.

This is the final book in the Just One Bite series. It is a satisfying ending with everyone's story being tied into a nice tidy little bow. The book is mostly drama between the lesbian couple and training for the newbie vamps with the climax at the end that we've all been waiting for. If you are looking for lesbian romance with a dash of paranormal, this series is for you. I am going to keep my eyes on Kay Glass. She improves with every piece she writes. Each in this series is better than the last and she has something for everyone. Her erotica is nice and spicy with the right amount of romance. Her short stories have heart and purpose.
