### **Balu says**

Chacha Chaudhary' is our country's most favorite comic and there have been generations who have been reading this classic.

This is my first book I ever read secretly hiding in last bench of my class room and caught by my teacher who took this one and never returned to me till date :(

Childhood memories :)

### **Veeral says**

I still remember Chacha Chaudhary finding a diamond bigger than his hand (seriously) just lying around on the road. In the end (SPOILER KIDS!! SPOILER!!) he lost it again! In the same place!
