No habría descanso para él hasta que consiguiera recuperarla

El magnate Jefferson Lyon nunca aceptaba un no por respuesta. Por eso, cuando su fiel secretaria se hartó de sus exigencias y dimitió, Jefferson la siguió hasta el paraíso tropical donde se había ido de vacaciones. Pero para él aquel viaje no era de relax, porque estaba dispuesto a convencerla de que volviera al trabajo... a través de la seducción. Sin embargo, su empleada estaba resultando ser más testaruda y más apasionada de lo que jamás habría pensado el arrogante millonario.

### María says

When her fiancee, Peter, accuse Caitlyn to be in love with her boss, she immediately denied it. But after a tough week and her boss being impossible about her hollidays, she decided to abandon her job and Jefferson. Something he couldn't admit so he tried to seduce her in order to make her back to her job. But when she listen a telephon conversation about his plans, she decided that two could play the game.

Again, love interfered and they found falling for each other. The problem was that the trust was lost and he must convince her that his feelings were true.

This is not the best book I read but it was ok. The change in the POV help the plot a lot. Now I want to read Max and Janine's story...

### Kathy says

Caitlyn and Jefferson... Jefferson is stepping into his father's shoes as owner of the shipping business, having worked himself up the ranks... he takes his job very seriously - and Caitlyn has been his personal assistant for 3 years... she does the job well...

and Caitlyn is going through a personal crisis - her fiance broke off the engagement 1 month before the wedding, stating that he doesn't want to be her 2nd choice - that her heart belongs to her boss... fighting the truth that she never acknowledged, she gets angry at Jefferson's offhand manner in treating her - just another piece of office equipment...

her two best friends are also having man trouble... so they decide to take the money they saved for the weddings and go to Fantasy... Caitlyn goes immediately, her friends to join her in 2 weeks...

and Jefferson shows up at Fantasy - he misses her in the office - and he has a plan (it works with other women afterall) - to seduce her, make her break up with him, hire her back as she'll feel guilty...

before full seduction (and she is close) she overhears him talking with his brother about his cold plans... and she decides to play him for the fool - to participate in the seduction and then to walk away...

but she finally acknowledges that she loves him... and though she knows she'll probably still be walking away, she decides to enjoy their time together - and he is charming, and sexy, and she feels a real connection... but Jefferson just ignores the feelings, and goes with what feels good - until it comes to a head... she sends him away after telling him she loves him, but won't stay personally or professionally with him as he cant' reciprocate...

he goes home - and realizes he loves her... and returns, and they get married.... ahhhhh

This was a cute book. Adult reading with some sex. The story was kind of fun and almost believable. I liked it and was entertaining.

Why do I do this to myself? I go to a library sale, see a pile of Silhouette or Harlequins. I think to myself, "I shouldn't." Then I remember the five or six good series romances I've read and look, just in case. Invariably, I end up with a series romance that takes me an hour to read and a day to dislike enough to get it out of my system.

Jefferson's plan to get his secretary to come back to work for him? Let me spell it out for you. He's going to seduce her, then act so horribly that she'll dump him, and then she'll feel bad about dumping him and take her job back. Supposedly this guy is a genius, and, yet, this is the dumbest plan on Earth. Let's look at its possible points of failure: (1) His attempts to seduce will fail, (2) She will not dump him when he treats her badly, (3) she'll feel good about dumping him, and (4) she'll feel bad, but not that bad.

Honestly, I'll give him number one since she's been looking lustfully at him. But, two? I've known any number of women to put up with any random amount of shit from guys they love or like and to still keep dating them. This includes petty theft, cheating, and emotional abuse. What was he planning to do to make the dumping work? And then there is me. I've dumped people. Here's how sad I am about it. :D That's right. I'm not. I wasn't at the time. When I dump people it is to make my life better. Why should I feel shitty about it? Why should Caitlyn?

I honestly didn't mind Caitlyn. She was a little too good and efficient, but I've read many a series romance and that barely phases me. I did like her realization about why she got engaged to the man she was engaged with prior to the start of the novel. It made sense and it made me think she could be intelligent and resist Jefferson's attempts at seductions.

I never actually felt like Jefferson fell in love with Caitlyn though. I felt he was upset that she didn't fall at his feet with joy right away and I'd snicker every time he noticed lovingly she wasn't a gold digger, but really? That was all it took?

I think I would have to give Maureen Child another read to see if it was the book that was the problem or if she's simply an author that is incompatible with me.

Caitlyn steht da, ihre Hochzeit ist geplatzt und statt Trost und Mitgefühl zu bekommen, will ihr Chef den Urlaub streichen. Das reicht ihr jetzt und kündigt ihren Job und fährt in den Urlaub. Doch Jefferson Lyon lässt Caitlyn nicht so einfach gehen und folgt ihr auf die Insel in das Ferienparadies "Fantasie". Verführung ist sein Plan, aber sein Plan ist ohne Caitlyn gemacht.

Ich liebe diese Geschichten, in dem der Chef der Traummann ist und er es nie mitbekommt. Bis es zu spät ist und sie gegangen ist. Meine Lieblingsstory und dann noch als Kulisse die Tropen und eine Insel. Kurz mal im Urlaub gewesen und die Geschichte genossen ohne mich von der Couch zu bewegen. :) Kurz, leidenschaftlich, gefühlvoll und eine wunderschöne Kulisse, genau die richtige Mischung hatte die Geschichte.

The story was cute, and I finished it in one sitting. While I enjoyed the whimsy and the conclusion, I have to admit that it was initially a little difficult to get past the unlikely premise.

This could have been really good however the turnaround in Jefferson (terrible name for a hero) was unconvincing and told to us rather than felt. He needed to suffer much more and Caitlyn needed to grow a spine much more quickly.
