Leyla says

4.5 HOT & HEAVY STARS!

Look... I'm a geek at heart. I have a soft spot for the paranormal and fantasy races.

It's just who I am.

Setting that aside... I remember when I saw this cartoon series called Gargoyles.

They didn't make much effort on the name, I know, but it was amazing and I was totally enamored with the idea. These guardians of the night who protect and have a strong sense of justice.

*I had a huge crush on honorable Goliath... *Sigh* He was such a gentleman! He falls for a human police officer by the way and it's just so beautiful!*

So it didn't come as a shocker and I'm more than happy to read something with a gargoyle hero. Thrilled to state truth...

So this is about Ivette who's obsessed with gargoyles. She draws and studies them in great detail. One particular gargoyle has become more than a fascinating work of art. He's become 'the obsession' and a forbidden fantasy. Until something impossible happens...

From the very first pages, it was a captivating story. A definite page-turner. It was thrilling and engaging.

The pace was perfect and the writing flowed nicely.

And it was...

Like scorching HOT!

Panty destroyer alert!

Lots of unusual parts in use... *giggle*

So if you want to have fun, read a good story and sink in guilty pleasure. This is your pick! Definitely recommended cause...

UniquelyMoi ~ BlithelyBookish says

W.H.E.W.!!!!

This is a very short, very sexy story. I can't put my finger on exactly how to describe it, but it was kind of a mix of dark fantasy and erotica. Definitely different!

From the cover:

Obsessed with the stone sentry gargoyles keeping silent vigil on the rooftops of ages old churches, Yvette discovers one that draws on her darkest and most repressed feelings.

Drawn in more ways than one.

From the book blurb I thought it might be on the cheesier side, but it's definitely not that. If you're looking for a quick, unique, hot tale, look no further.

Tai says

**Read for the 2013 Secret Santa Challenge

Wow, this story is not what I was expecting. Well, I did expect it to have gargoyles and sex, so there is that, but I did expect this to be as well written as it was. I usually expect something more along the lines of a Penthouse letter, mixed with poor editing, no plot, and a dictionary worth of synonyms for human (and Monster) genitalia.

Instead, I got a slight bit of romantic lit mixed in with the monster banging, adding a little art into the erotica. So this was a pleasant read, and actually could have been expanded into a longer a romance novel, rather than this short story. I admit, the ending was a little cheesy for me, but that could be because I wanted it to end a little differently. But it was still a nice story overall, and pretty steamy.

Breezy *Lover of all things Alpha Male* says

This is a super fast read that goes from hello there to holy hell in just over two pages. I wasn't sure what to expect but wow was I happy with what I got. I was able to read the whole story in just under a half hour. Totally recommend it for a afternoon quickie escape!

3.5 ★'s

When I saw some of my friends reading this book (a while ago!), the first thing that popped into my mind was the cartoon show my kids used to watch called The Gargoyles! I always wanted Goliath and Elisa to get

together! ;)

Yvette has always been drawn to gargoyles and when she goes to Paris, she is particularly drawn to this one gargoyle. She ends up spending every day sketching him and thinking about him every night.

Well, one night, she gets to do more than think about him...and it's very steamy!

The story has a bit of a Beauty and the Beast feel and unfortunately, it's too short to really have any depth. But it's a nice steamy story if you feel like a quick read.

Favorite quotes:

♥ “Your scent is very sweet. It is difficult not to be drawn.”

♥ “Some things did not change,” he growled.

♥ “I am yours for as long as you want me,” he continued and kissed along my jaw, his eyes never leaving me.

“Forever then.”

Crystal~BIG book addict~ says

I must say I was a little skeptical reading this book at first, I mean sex with a gargoyle, **really?** But then I thought

I was pleasantly surprised! I ended up loving this short, hot little read!

He was large. He was strong.

He was more beast than man.

He was hard and I was soft.

Dark and light.

He talked of taking me.

Primal. Raw. Demanding for himself.

He controlled my pleasure. He controlled how it would end. I truly was his for the taking.

Mine just as much as I was his

Top three reasons for having sex with a gargoyle

1. *Wings for holding.*
2. *Tail to tickle a special spot.*
3. *A long, forked tongue. Come on, who wouldn't love that?!*

So if you are in the mood for a little something different, give this gargoyle a try!

Paula says

I'm impressed with this story. Who would have thought you could have a HEA with a lover made of stone. It was sexy, a little scary, and still pulled at the heart strings. I enjoyed it and wouldn't mind reading more about these characters. Like what happens after all of this took place.

Sammy Loves Books says

..... 5 Star Monster Sex, Gargoyle Style!!!

I had heard this book was hot, but I was not prepared for how well written and descriptive it was!!!

I swallowed on reflex at his visible arousal. "I am a little afraid of what you will do to me."

His brow arched slightly and he almost leered.

"I have awoken from a hundreds years' long sleep by the touch of a woman," he rumbled. "I should think you know what I will do."

After hundreds of years in statue form, this gargoyle had one thing on his mind and it wasn't food.

"Say you are mine to take and I will take you, girl. Make no mistake," he said, his voice husky. "And it will be for *my* pleasure. I will take and I will not stop, no matter how you cry or plead. I will not pull away, until I am thoroughly sated. I will take and I will not be gentle."

Well Hot Damn!! Take all you need and keep talking dirty while doing it...that's a weakness of mine. I have loved Gargoyles since I saw the 1972 classic, Gargoyles. So this book was a treat and it gets a 5 Star for Monster Sex. Ophelia Cox has talent and I look forward to reading more of her work! This is a very short story but done just right. I have not complaints, which I usually have a few when reading monster sex books!!!

If you are a fan of well written monster sex, then this book is a must read!!

Carla ?Did I Say That? says

Wow..that was 30 pages of pure hotness!!!

Stacia (the 2010 club) says

Adult review for possible taboo content. But mainly it's adult for me having way too much fun speaking about male parts.

A super-short story which packs quite a punch! This really isn't as taboo as you'd think. Yes, the chick is getting it on with a gargoyle statue but if you are a fan of *Beauty and the Beast*, you'll sort of understand the point of the story, which is about seeing beauty where others can not.

He was made to appear forbidding.

Intimidating and frightening to scare the very demons he resembled away from those he protected.

And still beautiful in his imposing nature.

Don't misunderstand me though. This is pretty much sex served up on a platter. But I thought the story and outcome was pretty *sweet* for being perceived as taboo. *My Stone Lover* actually read like something of a sexed-up fairy tale. And I really enjoyed this fairy tale, no matter how far-fetched it was.

"Please, don't hurt me," I whispered.

"I would not harm you," it said, its low voice a rough grating like that of stones grinding.

By far-fetched, I'm not even referring to a gargoyle coming to life and pleasuring a human. Oh no. I'm talking about the stone appendage not damaging the willing human. Anyone ever had sex that was a little rougher than usual and been in pain the next day? Anyone? Imagine that with a massive stone thingamajig (yes, you know what I mean). A *massive, completely solid stone winky*. A *ginormous, hard, unwieldy, womb-battering rod-o-doom*. A *mythic in proportions, non-flexible, non-latex dildo*. You get my point? The woman was described as having pleasure-pain, but nope, I'm thinking it would be all pain and none of the pleasure.

But it's a fairy tale of sorts. So I get to put aside thoughts of reality and go with it.

If you're unsure if you could handle a woman getting it from a non-human object, try to liken this to a shifter or vamp. I almost saw this story from the point of view which lines up with erotic paranormal romance. If you're still unsure and can handle a spoiler for the ending, click this and see if it will make you feel better (view spoiler)

Feel better? It's not as bad as you thought, right?

Ladymcbeth says

wow.

I'm happy to have read this book.

It's really original.

At the beginning we can think the gargoyle is a monster coming from hell, but in fact ... no ^^ and the HEA is great too.

I would like to know what happen to the gargoyle before the book begin.

Just one thing is sad, the book is only available at amazon :/

JaHy?Hold the Fairy Dust says

Oh yeah, I'm officially a Gargy.

... Wait, is there such a thing ? If not, there is now :-)

Lance Greenfield says

My initial reaction was

PHEW!!!

But you deserve more of a review than that, don't you?

This story is short, and rough, and hard, and **HUGE**, and different. You need to read it. This is monster-fucking at it's best.

And it has a very happy ending.

You ladies will be wishing you were there in place of the heroine!

If you have read it, tell me if I am wrong. Tell me that I am right!

I was almost wishing I could be a girl, but only if I could be THAT girl!

Better still, I wish I could be THAT lucky gargoyle!!!!

At only 30 pages, it is a very short story, and the book description tells you all that you need to know. Whether you have tried this genre before or not. the time has come. Download it now, read it, and comment back to me on this review.

Finally, I guarantee that your feelings will be mixed, but **VERY** enjoyable!

B.E.Love says

Yvette has been obsessed with gargoyles and spend time drawing them as much as possible. After a few days of drawing one particular gargoyle Yvette notices that he seems to have moved. Letting that go she goes home, at night she is awakened by a storm and remembers dreams that seem more real than dream. The next night as the storms continue her balcony door is opened and she finds she's not alone. Her gargoyle has come for her after she awakened him and he won't take no for an answer. But Yvette wants this as much as him, till the dawn when Alexander must leave. Alexander is shocked that Yvette cares for him and tells her it may not be the end.

I wasn't sure how I would feel about this book, but I ended up really liking it. The writing is very good and though it's a short story I never felt like I was missing anything important. The ending was great, I had no clue how this book would end after reading some reviews but I loved the ending. I would have been really happy with an epilogue, I would have been ecstatic if this was a full length book, just so I could have gotten more. I really liked Alexander and would have loved to have gotten more from him. With that being said this is still a great novella that I would recommend to anyone who wanted a quick hot read.
